About XSigma Corporation

XSigma Corporation, is a wholly-owned subsidiary of ZK International Group Co., Ltd. Together with ZK International, has launched xSigma as a research and development lab back in 2018 to solve real-world infrastructure challenges. Its mandate was to explore new opportunities in smart contracts, supply chain management and other blockchain-based solutions. XSigma has since pivoted to decentralized finance, focusing on decentralized exchanges, stablecoins and lending protocols. The research lab is now actively working on its ecosystem of products beginning with its DeFi protocol. The ultimate objective is to build a range of financial tools and products for the flourishing decentralized finance industry. The xSigma team that are being assembled are on the leading edge of blockchain research and development that intersects decentralized finance, supply chain management, IoT, and infrastructure. The DeFi protocol is one of many decentralized finance projects xSigma plans to launch over the next 12 months. It will feed into a growing network of DeFi products for enterprise and consumer markets. Any blockchain protocol is subject to a degree of risk; xSigma's DeFi protocol has implemented tamper-resistant programming, but is still subject to potential hacks.
