# Qualcomm Chipsets and RF Front End Power More than 30 Commercial 5G Mobile Devices Scheduled to Launch in 2019

## - Interoperability Tests and Pre-commercial Activities with Major Global Operators, Infrastructure Vendors and OEMs Show Ecosystem Readiness for Global 5G Commercialization Using the Qualcomm® Snapdragon™ 855 Mobile Platform with Snapdragon X50 5G Modem Family -

LAS VEGAS, Jan. 7, 2019 /PRNewswire/ -- Qualcomm Technologies, Inc., a subsidiary of Qualcomm Incorporated (NASDAQ: QCOM), today announced strong 5G device momentum with more than 30 5G design-wins, the majority of which are smartphones, from global OEMs featuring the Snapdragon 855 Mobile Platform and the Snapdragon X50 5G modem family. In addition, all customer OEMs and nearly all the devices related to these 5G design-wins use Qualcomm® RF Front End (RFFE) solutions.

### About Qualcomm

Qualcomm invents breakthrough technologies that transform how the world connects, computes and communicates. When we connected the phone to the Internet, the mobile revolution was born. Today, our inventions are the foundation for life-changing products, experiences, and industries. As we lead the world to 5G, we envision this next big change in cellular technology spurring a new era of intelligent, connected devices and enabling new opportunities in connected cars, remote delivery of health care services, and the IoT — including smart cities, smart homes, and wearables. Qualcomm Incorporated includes our licensing business, QTL, and the vast majority of our patent portfolio. Qualcomm Technologies, Inc., a subsidiary of Qualcomm Incorporated, operates, along with its subsidiaries, all of our engineering, research and development functions, and all of our products and services businesses, including, the QCT semiconductor business.
