The Lovesac Company Reports Second Quarter Fiscal 2026 Financial Results

Q2 FY26 Net Sales Increased 2.5% to \$160.5 Million vs. Q2 FY25

STAMFORD, Conn., Sept. 11, 2025 (GLOBE NEWSWIRE) -- The Lovesac Company (Nasdaq: LOVE) ("Lovesac" or the "Company"), the Designed for Life home and technology brand best known for its Sactionals, The World's Most Adaptable Couch, today announced financial results for the second quarter of fiscal 2026, which ended August 3, 2025.

Shawn Nelson, Chief Executive Officer, stated, "We're pleased to have delivered another quarter of market share gains underpinned by our secular growth initiatives across Designed for Life product platforms and efficient customer acquisition engines. Our operational discipline continues to drive operating expense leverage even as we maintain an investment stance for innovation and long-term growth. Our financial and operational performance, despite ongoing category headwinds, further bolsters our confidence as we move forward and transition from a product-focused company to a true brand. With this as our focus, we have refined our strategic roadmap and are evolving our brand positioning to support our growth into a multi-faceted home brand with an organized and prioritized product hierarchy and merchandising strategy. Looking ahead, while we balance near-term industry dynamics amidst the evolving tariff landscape with our ongoing secular tailwinds, we remain confident in our objective to deliver meaningful long-term value as we aim to build the most loved home brand in America."

Non-GAAP Information:

Adjusted EBITDA is defined as a non-GAAP financial measure by the Securities and Exchange Commission (the "SEC") that is a supplemental measure of financial performance not required by, or presented in accordance with, GAAP. We define "Adjusted EBITDA" as earnings before interest, taxes, depreciation and amortization, adjusted for the impact of certain non-cash and other items that we do not consider in our evaluation of ongoing operating performance. These items include management fees, equity-based compensation expense, write-offs of property and equipment, deferred rent, financing expenses and certain other charges and gains that we do not believe reflect our underlying business performance. We have reconciled this non-GAAP financial measure with the most directly comparable GAAP financial measure within the schedules attached hereto. Statements regarding our expectations as to fiscal 2026 Adjusted EBITDA do not include certain charges and costs. These items include equity-based compensation expense and certain other charges and gains that we do not believe reflect our underlying business performance. We are not able to provide a reconciliation of our non-GAAP financial guidance to the corresponding GAAP measures without unreasonable effort because of the uncertainty and variability of the nature and amount of these future charges and costs. This is due to the inherent difficulty of forecasting the timing of certain events that have not yet occurred and are out of the Company's control.

We believe that these non-GAAP financial measures not only provide its management with comparable financial data for internal financial analysis but also provide meaningful supplemental information to investors. Specifically, these non-GAAP financial measures allow investors to better understand the performance of our business, facilitate a more meaningful comparison of our actual results on a period-over-period basis and provide for a more complete understanding of factors and trends affecting our business. We have provided this information as a means to evaluate the results of our ongoing operations alongside GAAP measures such as gross profit, operating income (loss) and net income (loss). Other companies in our industry may calculate these items differently than we do. These non-GAAP measures should not be considered as a substitute for the most directly comparable financial measures prepared in accordance with GAAP, such as net income (loss) or net income (loss) per share as a measure of financial performance, cash flows from

operating activities as a measure of liquidity, or any other performance measure derived in accordance with GAAP. Non-GAAP financial measures have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for analysis of the Company's results as reported under GAAP.
