Herbalife Ltd. Announces Third-Quarter Net Sales of \$529.5 Million and Record Net Income of \$48.3 Million

LOS ANGELES--(BUSINESS WIRE)--

Herbalife Ltd. (NYSE:HLF) today reported third quarter net sales of \$529.5 million, an increase of 11.1 percent compared to the same period of 2006. This record performance was largely attributable to double-digit growth in several of the company's top countries, including the U.S. up 20.4 percent, Taiwan up 23.6 percent and China up 89.3 percent, versus the third quarter of 2006. The company's Chairman and Chief Executive Officer Michael O. Johnson, said, "We are pleased to report our 15th consecutive quarter of double-digit growth and another record quarter for net income. Our strong performance reflects the strength of our independent distributor organization, their confidence in the company, and the foundation we've built with our products, business opportunity, brand and image."

During the third quarter 2007, total supervisors increased 16.6 percent to 418,735 and new supervisors of 52,982 increased 4.7 percent versus the third quarter of 2006. The company's President's Team membership increased 11.3 percent to 1,066 members.

Financial Performance

For the quarter ended September 30, 2007, the company reported net income of \$48.3 million, or \$0.67 per diluted share, compared to \$26.5 million, or \$0.36 per diluted share in the third quarter of 2006. Excluding the impact of refinancing charges and other items(1) in third quarter of 2006, adjusted diluted net income per share was \$0.51, resulting in a \$0.16 improvement in third quarter 2007. The increase in net income was primarily attributable to double-digit net sales growth, expansion in operating profit margins, and a reduction in interest expense during the period(1).

During the third quarter, the company invested \$9.2 million in capital expenditures, primarily related to enhancements to its management information systems and additional infrastructure investments to improve distributor service levels.

On August 23, 2007, the company's Board of Directors approved an increase of \$150 million to its previously authorized share repurchase program of \$300 million raising the total value of company common shares authorized to be repurchased to \$450 million. During the third quarter, the company repurchased 1.7 million shares of its common stock through open market transactions at an average price of \$39.23 for an aggregate cost of \$65.1 million. The company used excess cash along with debt to fund the repurchase. Since this share repurchase program was authorized in April 2007, the company has repurchased 5.2 million shares at an aggregate cost of \$203.9 million.

For year to date September 30, 2007, the company reported net sales of \$1,567.7 million an

increase of 12.1 percent compared to \$1,398.2 million in the comparable period in 2006. For the year to date September 30, 2007, the company reported net income of \$137.6 million, or \$1.87 per diluted share, compared to \$101.5 million, or \$1.37 per diluted share in the comparable period for 2006. Excluding the impact of favorable tax settlements in international markets in 2006 and 2007, recapitalization expenses and tax benefits on refinancing transactions in 2006, as well as 2007 expenses related to the company's realignment for growth initiative(1), year to date September 30, 2007 net income increased 29.4 percent to \$141.6 million, or \$1.92 per diluted share, compared to \$1.47 per diluted share in the comparable period in 2006.
