This presentation contains forward-looking statements within the meaning of the federal securities laws. Forward-looking statements include statements relating to the expected performance of our business, future financial results, strategy, the potential impacts of the COVID-19 pandemic and associated global economic uncertainty, long-term growth and overall future prospects and the size and our ability to capitalize on our market opportunity. Forward-looking statements include all statements that are not historical facts. Such statements may be preceded by the words “intends,” “may,” “will,” “plans,” “expects,” “anticipates,” “projects,” “predicts,” “estimates,” “aims,” “believes,” “hopes,” “potential” or similar words. These forward-looking statements reflect our current views regarding our intentions, products, services, plans, expectations, strategies and prospects, which are based on information currently available to us and assumptions we have made. Actual results may differ materially from those described in such forward-looking statements and are subject to a variety of assumptions, uncertainties, risks and factors that are beyond our control. Such risks and uncertainties include, without limitation, risks and uncertainties associated with (i) challenges associated with forecasting our revenue given our recent growth and rapid technological development, (ii) our history of net losses and desire to increase operating expenses, thereby limiting our ability to achieve profitability, (iii) challenges related to effectively managing our growth, (iv) intense competition in the market and services categories in which we participate, (v) potential reductions in participation in our contributory network and/or increase in the volume of opt-out requests from individuals with respect to our collection of their data, or a decrease in our direct measurement dataset, which could lead to a deterioration in the depth, breadth or accuracy of our data, (vi) our inability to attract new customers and expand subscriptions of current customers, (vii) changes in laws, regulations, and public perception concerning data privacy or change in the patterns of enforcement of existing laws and regulations, (viii) our inability to introduce new features or solutions and make enhancements to our existing solutions, (ix) real or perceived errors, failures, vulnerabilities or bugs in our platform, (x) potential security breaches to our systems or to the systems of our third-party service providers, (xi) our inability to obtain and maintain comprehensive and reliable data to generate our insights, (xii) changes in laws and regulations related to the Internet or changes in the Internet infrastructure itself that may diminish the demand for our solutions, and (xiii) failure to effectively develop and expand our direct sales capabilities, which could harm our ability to increase the number of organizations using our platform and achieve broader market acceptance for our solutions.

These risks and uncertainties are more fully described in our filings with the Securities and Exchange Commission, including in the section entitled “Risk Factors” in our final prospectus for our initial public offering filed with the SEC on May 12, 2021 in connection with our initial public offering and subsequent reports that we file with the Securities and Exchange Commission. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, we cannot guarantee future results, levels of activity, performance, achievements, or events and circumstances reflected in the forward-looking statements will occur.

Forward-looking statements represent our beliefs and assumptions only as of the date of this presentation. Except as required by law, we undertake no duty to update any forward-looking statements contained in this release as a result of new information, future events, changes in expectations or otherwise.

Certain information contained in this presentation relates to or is based on studies, publications, surveys and other data obtained from third-party sources and the Company’s own internal estimates and research. While the Company believes these third-party sources to be reliable as of the date of this presentation, it has not independently verified, and makes no representation as to the adequacy, fairness, accuracy or completeness of any information obtained from third-party sources. In addition, all of the market data included in this presentation involves a number of assumptions and limitations, and these data may not be a reliable indication of the extent or frequency of any factor, or combination of factors, which may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, we cannot guarantee future results, levels of activity, performance, achievements, or events and circumstances reflected in the forward-looking statements will occur.

As a reminder, certain financial measures we use in this presentation and on our call today are expressed on a non-GAAP basis. We use these non-GAAP financial measures internally to facilitate analysis of our financial and business trends and for internal planning and forecasting purposes. We believe these non-GAAP financial measures, when taken collectively, may be helpful to investors because they provide consistency and comparability with past financial performance by excluding certain items that may not be indicative of our business, results of operations, or outlook. However, non-GAAP financial measures have limitations as an analytical tool and are presented for supplemental informational purposes only. A detailed discussion of the differences between non-GAAP financial measures and generally accepted accounting principles and the reasons why management believes the presentation of non-GAAP financial measures provides useful information is included in our filings with the SEC.

This presentation is a high-level summary of our Q2 2021 financial results. For more information please refer to our press release dated August 11, 2021 and filings with the SEC.

Digital has fundamentally transformed how we live, work, and play

Practically everything — products, entertainment, communication, services, education, healthcare — is now available online. As consumers and businesses shift their budgets online, digital strategy is now critical for companies.
Competition for digital leadership is intense

In digital, new threats can come out of anywhere. Traditional barriers to entry like capital, facilities, and inventory don’t apply. Anyone can reach an audience of millions, instantly, with no geographic barriers. Disruption is the norm, and blind spots are everywhere.
Superior information is a decisive advantage in the digital economy

Critical business functions in modern companies are now fueled by data.

- Marketing is data-driven
- Sales is data-driven
- eCommerce is data-driven
- Investing is data-driven
A new kind of platform is needed: **digital intelligence**

Companies with better market data and insight make smarter business decisions — enabling them to win consistently

- Understand market trends and dynamics
- Monitor competitors and react instantly
- Benchmark performance to enable continuous improvement
- Improve customer conversion rates and loyalty
- Discover new markets, prospects, revenue streams
- Be the first to react to change and opportunity
Similarweb is a leading comprehensive platform for digital intelligence

Similarweb delivers game changing insights which provide a competitive advantage for organizations across a wide range of industries on multiple devices.
We’ve invested over $100 million, building a differentiated approach to measure the digital world — and a significant barrier to entry.
Our platform is a one stop shop for mission critical, data intensive use cases

- **Digital Research Intelligence**
  - Understand trends and grow market share
  - Digital strategy
  - Competitive intelligence
  - Benchmarking
  - Market research
  - Audience research
  - Brand analysis

- **Digital Marketing Intelligence**
  - Increase user acquisition and efficiency
  - Content optimization
  - Search optimization
  - Affiliate research
  - Media buying
  - Ad creative research

- **Shopper Intelligence**
  - Understand buying behavior and improve conversion
  - Brand, product, and category demand
  - Path to purchase
  - Marketplaces insight
  - Conversion & revenues

- **Sales Intelligence**
  - Grow pipeline and increase win rates
  - CRM enrichment
  - Lead generation
  - Sales prospecting
  - Account based marketing
  - Buying signals

- **Investor Intelligence**
  - Make better investment decisions
  - Alternative data
  - Stock and sector monitoring
  - Digital performance
  - Investment position validation

Use Cases

Our platform is a one stop shop for mission critical, data intensive use cases.
Our intuitive interface surfaces the most relevant insights and is easily accessible to any user.
We are constantly innovating to deliver industry-leading intelligence.
Over 3,000 customers rely on us to deliver game-changing insights

- **Implied 14 month** payback\(^2\) for customer acquisition

---

1. Calculated as TTM 6/30/2021 non-GAAP gross margin - TTM 6/30/2021 non-GAAP R&D as % of revenue - TTM 6/30/2021 non-GAAP G&A as % of revenue - 40% of TTM 6/30/2021 non-GAAP S&M as % of revenue

2. Calculated as 12 / ((TTM 6/30/2021 non-GAAP gross profit - TTM 6/30/2020 non-GAAP gross profit) / ((sum of non-GAAP S&M from Q2 2020 through Q1 2021) * 60%) )
Accelerating customer acquisition

As we continue to strengthen our value proposition and expand our platform, we are not only rapidly scaling new customer acquisition, but also increasing average deal sizes.

We have significantly improved our net dollar-based retention rate (NRR) over time. In our largest and most strategic customer segment, customers that generate over $100K in ARR, our ability to retain and grow our business is especially strong.
Strong unit economics result in expanding customer value

Note: We define ARR as the annualized subscription revenue we would contractually expect to receive from customers assuming no increases or reductions in their subscriptions.
Driving accelerating revenue growth

Our large addressable opportunity and efficient business model have led to accelerating revenue quarter-over-quarter.
