

TEK AND KOTE

About Tek and Kote

The Cleveland-Cliffs Tek and Kote facility in New Carlisle, Indiana, receives substantially all its feedstock from Cleveland-Cliffs' facilities in Indiana Harbor and Burns Harbor via daily unit trains.

The operation is a continuous, cold-rolling plant that produces sheet steel of unmatched quality and consistency. It enables the combination of five processes that take 12 days or more to perform via traditional batch methods. By welding coils end-to-end, the plant can run them continuously through these processes – pickling, tandem-rolling, annealing, temper-rolling and inspection – in less than a day.

Facility Facts

Plant Leadership	Aaron Langness
Union Leadership	Todd Kegley
Employees	508
Acerage	204
Capacity	Capable of producing 1.7 million net tons of sheet steel annually through the continuous descale cold mill (CDCM) and 1 million tons through the continuous annealing processing line (CAPL). The operation has separate lines producing 500,000 net tons of hot-dip galvanized and galvanized and 500,000 net tons of electrogalvanized sheet annually.
Products	Hot-dipped galvanized and galvanized sheet, electrogalvanized coil, cold-rolled sheet and annealed sheet
Markets Served	Automotive and appliance
Certifications	ISO 19001 Certificate, IATF 16949 Certificate, ISO 45001 Certificate, ISO 14001 Certificate

About Cleveland-Cliffs

Cleveland-Cliffs is the largest flat-rolled steel producer in North America. Founded in 1847 as a mine operator, Cliffs also is the largest manufacturer of iron ore pellets in North America. The Company is vertically integrated from mined raw materials, direct reduced iron, and ferrous scrap to primary steelmaking and downstream finishing, stamping, tooling, and tubing. The Company serves a diverse range of markets due to its comprehensive offering of flat-rolled steel products and is the largest supplier of steel to the automotive industry in North America. The Company is headquartered in Cleveland, Ohio with mining, steel and downstream manufacturing operations located across the United States and in Canada.
