(In US dollars)

1. General information

Corporación Inmobiliaria Vesta, S. A. B. de C. V. ("Vesta") is a corporation incorporated in Mexico. The address of its registered office and principal place of business is Paseo de los Tamarindos 90, 28th floor, Mexico City.

Vesta and subsidiaries (collectively, the "Entity") are engaged in the development, acquisition and operation of industrial buildings and distribution facilities that are rented to corporations in eleven states throughout Mexico.

On July 22, 2016, the Entity entered into a new five-year credit agreement with various financial institutions for an aggregated amount of $150,000,000; the proceeds were received on the same date (the "Syndicated Loan"). The Syndicated Loan also includes a revolving credit facility up to $100,000,000 from which a total of $35,000,000 were utilized during the three-month period ended March 31, 2017. On July 27, 2016, the Entity entered into a 10-year loan agreement with Metropolitan Life Insurance Company ("MetLife") for a total amount of $150,000,000.

2. Significant accounting policies

2.1 Basis of preparation

The accompanying unaudited consolidated interim financial statements have been prepared on the historical cost basis except for investment properties and financial instruments that are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

i. Historical cost

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

ii. Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Entity takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these condensed consolidated interim financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of International Financial Reporting Standard ("IFRS") 2, *Share-based Payments*.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the asset or liability.

2.2 Interim financial condensed statements

The accompanying condensed consolidated interim financial statements as of March 31, 2017 and for the three months ended March 31, 2017 and 2016 have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, and have not been audited. In the opinion of Entity management, all adjustments (consisting mainly of ordinary, recurring adjustments) necessary for a fair presentation of the accompanying condensed consolidated interim financial statements are included. The results of the periods are not necessarily indicative of the results for the full year. These unaudited condensed consolidated interim financial statements should be read in conjunction with the audited annual consolidated financial statements of the Entity and their respective notes for the year ended December 31, 2016.

The accounting policies and methods of computation are consistent with the audited consolidated financial statements for the year ended December 31, 2016.

2.3 Basis of consolidation

The condensed consolidated interim financial statements incorporate the financial statements of Vesta and entities (including structured entities) controlled by Vesta and its subsidiaries. Control is achieved when the Entity:

- has power over the investee;

- is exposed, or has rights, to variable returns from its involvement with the investee; and

- has the ability to use its power to affect its returns.

The Entity reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Entity obtains control over the subsidiary and ceases when the Entity loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Entity gains control until the date when the Entity ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Entity's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Entity are eliminated in full on consolidation.

3. Application of new and revised International Financial Reporting Standards (IFRS)

3.1 New and revised IFRSs in issue but not yet effective

The Entity has not applied the following new and revised IFRSs that have been issued but are not yet effective:

IFRS 9	Financial Instruments[1]
IFRS 15	Revenue from Contracts with Customers[1]
IFRS 16	Leases[2]
Amendments to IFRS 2	Classification and measurement of share-based payments[1]

1 Effective for annual periods beginning on or after 1 January 2018, with earlier application permitted.
2 Effective for annual periods beginning on or after 1 January 2019, with earlier application permitted.

4. Cash, cash equivalents and restricted cash

For purposes of the consolidated statement of cash flows, cash and cash equivalents include cash on hand and in banks, including restricted cash. Cash and cash equivalents at the end of the reporting period as shown in the consolidated statement of cash flows can be reconciled to the related items in the consolidated statements of financial position as follows:

	31/03/2017 (Unaudited)	**31/12/2016**
Cash and bank balances	$ 22,746,660	$ 48,054,432
Restricted cash	1,919,102	2,666,319
	$ 24,665,762	50,720,751
Non-current restricted cash	735,312	735,312
Total	$ 25,401,074	$ 51,456,063

Restricted cash represents balances held by the Entity that are only available for use under certain conditions pursuant to the loan agreements entered into by the Entity. Such conditions include payment of monthly debt service and compliance with certain covenants set forth in the loan agreement. These restrictions are classified according to their restriction period: less than 12 months and over one year, considering the period of time in which such restrictions are expected to be fulfilled. Non-current restricted cash was classified within guarantee deposits made in the accompanying consolidated statements of financial positon.

5. Financial assets held for trading

The portfolio of financial assets that the Entity has classified as held for trading relates to investments used by the Entity to manage its cash surplus. Such financial assets were acquired in active markets and are principally comprised of investment funds with no maturity date and which mainly invest in AAA debt instruments, such as government bonds; they are classified as level 1 in the IFRS fair value hierarchy.

6. Recoverable taxes

	31/03/2017 (Unaudited)	31/12/2016
Recoverable value-added tax ("VAT")	$ 9,254,866	$ 10,438,157
Recoverable income taxes	11,087,423	11,320,220
Other receivables	64,908	36,104
	$ 20,407,197	$ 21,794,481

7. Operating lease receivables

7.1 The aging profile of operating lease receivables as of the dates indicated below are as follows:

	31/03/2017 (Unaudited)	31/12/2016
0-30 days	$ 5,074,823	$ 4,541,467
30-60 days	1,105,054	1,588,869
60-90 days	263,214	551,533
Over 90 days	433,373	347,106
Total	$ 6,876,464	$ 7,028,975

Pursuant to the lease agreements, rental payments should be received within 30 days following their due date; thereafter the payment is considered past due. As shown in the table above, 74% and 64% of all operating lease receivables are current as of March 31, 2017 and December 31, 2016, respectively.

All rental payments past due are monitored by the Entity; for receivables outstanding from 30 to 90 days, efforts are made to collect payment from the respective client. Operating lease receivables outstanding for more than 30 days but less than 60 days represent 16% and 22% of all operating lease receivables as of March 31, 2017 and December 31, 2016, respectively. Operating lease receivables outstanding for more than 60 and less than 90 days represent 4% and 8% of all operating lease receivable as of March 31, 2017 and December 31, 2016. Operating lease receivable outstanding greater than 90 days represent 6% and 5% of all operating lease receivable as of March 31, 2017 and December 31, 2016.

7.2 Movement in the allowance for doubtful accounts receivable

The Entity individually reviews each of its operating lease receivables and according to the aging report determines the need to create an allowance for the recoverability of such receivables. The balance as of March 31, 2017 and December 31, 2016 are $160,682 and $41,314, respectively. Past due accounts receivable for $1,640,958 have not been reserved sine the Entity does not consider such amounts to be impaired.

7.3 Client concentration risk

As of March 31, 2017 and December 31, 2016, one of the Entity's client accounts for 35% or $2,370,254 and 29% or $2,040,061, respectively, of the operating lease receivables balance. The same client accounted for 8% and 11% of the total rental income of Entity for the three month periods ended March 31, 2017 and 2016, respectively. No other client accounted for more than 10% of the total rental income of the Entity for the three months ended March 31, 2017 and 2016.

7.4 Leasing agreements

Operating leases relate to non-cancellable lease agreements over the investment properties owned by the Entity, which generally have terms ranging between 5 to15 years, with options to extend the term up to a total term of 20 years. Rents are customarily payable on a monthly basis, and are adjusted annually according to applicable inflation indices (US and Mexican inflation indices). Security deposits are typically equal to one or two months' rent. Obtaining property insurance (third party liability) and operating maintenance are obligations of the tenants. All lease agreements include a rescission clause that entitles the Entity to collect all unpaid rents during the remaining term of the lease agreement in the event that the client defaults in its rental payments, vacates the properties, terminates the lease agreement or enters into bankruptcy or insolvency proceedings. All lease agreements are classified as operating leases and do not include purchase options, except for two lease agreements which contain a purchase option at market conditions at the end of the lease term.

7.5 Non-cancellable operating lease receivables

Future minimum lease payments receivable under non-cancellable operating lease agreements are as follows:

	31/03/2017 (Unaudited)	31/12/2016
Not later than 1 year	$ 104,748,912	$ 100,997,236
Later than 1 year and not later than 3 years	178,554,997	170,779,851
Later than 3 year and not later than 5 years	195,167,940	191,181,511
Later than 5 years	139,760,538	159,893,939
	$ 618,232,387	$ 622,852,537

8. Investment property

The Entity uses external appraisers in order to determine the fair value for all of its investment properties. The independent appraisers, who hold recognized and relevant professional qualifications and have vast experience in the types of investment properties, owned by the Entity, use valuation techniques such as the discounted cash flows approach, replacement cost approach and income cap rate approach. The techniques used include assumptions, the majority of which are not directly observable in the market, to estimate the fair value of the Entity's investment property such as discount rates, long-term NOI, inflation rates, absorption periods and market rents.

The values, determined by the external appraisers annually, are recognized as the fair value of the Entity's investment property at the end of each reporting period. The appraisers use a discounted cash flow approach to determine the fair value of land and buildings (using the expected net operating income ("NOI") of the investment property) and a market approach to determine the fair value of land reserves. Gains or losses arising from changes in the fair values are included in the consolidated statements of profit and comprehensive income in the period in which they arise.

The Entity's investment properties are located in México and they are classified as Level 3 in the IFRS fair value hierarchy. The following table provides information about how the fair values of the investment properties are determined (in particular, the valuation technique(s) and inputs used).

Property	Fair value hierarchy	Valuation techniques	Significant unobservable inputs	Value/range	Relationship of unobservable inputs to fair value
Buildings and land	Level 3	Discounted cash flows	Discount rate	9.75%	The higher the discount rate, the lower the fair value.
			Long-term NOI	Based on contractual rent and then on market related rents	The higher the NOI, the higher the fair value.
			Inflation rates	Mexico: 4.2% U.S.: 2.5%	The higher the inflation rate, the higher the fair value.
			Absorption period	From 3 to 9 months	The shorter the absorption period, the higher the fair value.
			Market related rents	Depending on the park/state	The higher the market rent, the higher the fair value
			Exchange rate	20 Mexican pesos per $1	The higher the exchange rate, the lower the fair value
Land reserves	Level 3	Market value	Price per acre	Weighted average price per acre $125,146	The higher the price, the higher the fair value.

The table below sets forth the aggregate values of the Entity's investment properties for the years indicated:

	31/03/2017 (Unaudited)	31/12/2016
Buildings and land	$ 1,448,000,000	$ 1,393,000,000
Advances for acquisition of land	11,183,950	9,652,444
Land reserves	79,377,000	79,377,000

A total of $1,077,234 additions to investment property related to a land reserve and new buildings which were acquired from a third party, were not paid as of December 31, 2016; these additions were paid during the three months ended March 31, 2017. A total of $500,996 additions to investment property related to a land reserve and new buildings which was acquired from a third party, were not paid as of December 31, 2015; these additions were paid during the three months ended March 31, 2016.

During 2007, the Entity entered into an agreement to build the Querétaro Aerospace Park, which consists of a trust created by the Government of the State of Querétaro, as grantor (*fideicomitente)*, Aeropuerto Intercontinental de Querétaro, S. A. de C. V., as a participant for the purposes of granting its consent, Bombardier Aerospace México, S.A. de C.V., as beneficiary (*fideicomisario*), and BBVA Bancomer, S.A., as trustee (*fiduciario*), to which the Entity, through its subsidiary, Proyectos Aeroespaciales, adhered as grantee and beneficiary. The Government of the State of Queretaro contributed certain rights to the trust, including rights to use the land and the infrastructure built by the state of Queretaro, allowing Proyectos Aeroespaciales to build and lease buildings for a total period equivalent to the term of the concession granted to the Aerospace Park; the remaining term is approximately 42 years as of December 31, 2016.

Proyectos Aeroespaciales is the only designated real estate developer and was granted the right to use the land and infrastructure to develop industrial facilities thereon, lease such industrial facilities to companies in the aerospace and related industries and to collect the rents derived from the lease of the industrial facilities, for a period of time equivalent to the remaining term of the airport concession (approximately 42 years as of December 31, 2016). With respect to such rights, all construction, addition and improvements made by Proyectos Aeroespaciales to the contributed land (including without limitation, the industrial facilities) will revert in favor of the Government of the State of Queretaro at the end of the term of the trust, for zero consideration.

During 2013, the Company entered into an agreement with Nissan Mexicana, S.A. de C.V. ("Nissan") to build and lease to Nissan the Douki Seisan Park ("DSP Park") located in Aguascalientes, Mexico. The land where the DSP Park is located is owned by Nissan. On July 5, 2012, Nissan created a trust (trust No. F/1704 with Deutsche Bank México, S.A. as trustee) to which the Company (through one of its subsidiaries, Vesta DSP, S. de R.L. de C.V), is beneficiary and was granted the use of the land for a period of 40 years. The infrastructure and all the related improvements were built by and are managed by the Company.

As of March, 2017 and December 31, 2016, the Entity's investment properties have a gross leasable area (unaudited) of 23,926,247 square feet (or 2,222,821 square meters) and 22,569,585 square feet (or 2,096,783 square meters), respectively and they were 87.6% and 89.2% occupied by tenants, respectively. As of March 31, 2017 and December 31, 2016, investment properties with a gross leasable area of 1,278,255 square feet (or 118,754 square meters) and 2,008,397 square feet (or 186,586 square meters), respectively, were under construction, representing an additional 5.36% and 8.9% of the Entity's total leasable area.

9. Long-term debt

On July 22, 2016, the Entity entered into a new five-year credit agreement with various financial institutions for an aggregated amount of $150,000,000; the proceeds were received on the same date (the "Syndicated Loan"). The Syndicated Loan also includes a revolving credit facility up to $100,000,000 from which a total of $35,000,000 were utilized during the three month period ended on such date. On July 27, 2016, the Entity entered into a 10-year loan agreement with Metropolitan Life Insurance Company ("MetLife") for a total amount of $150,000,000. The long-term debt is as follows:

Loan	Amount	Annual interest rate	Monthly amortization	Maturity	31/03/2017	31/12/2016
Syndicated Loan	$150,000,000	Variable rate plus margin (1)	(1)	July 2021	$150,000,000	$150,000,000
Revolving facility	35,000,000	Variable rate plus margin (2)	(2)	July 2019	35,000,000	-

Total long-term debt					$ 376,070,725	$ 340,871,417

(1) Five-year Syndicated Loan, interest is paid on a quarterly basis and calculated using LIBOR (London interbank offered rate) plus an applicable margin. The applicable margin varies depending on the Entity's leverage ratio (higher or lower than 40%) and the number of months that the Syndicated Loan has been outstanding. Currently the applicable margin is 200 basis points; if leverage ratio is higher than 40% the margin would increase to 225 basis points. Principal amortization will commence on July 22, 2019; thereafter the Syndicated Loan will have quarterly principal payments equal to 1.25% of the loan amount.

(2) Three-year revolving facility, interest is paid on a monthly basis calculated using LIBOR plus 225 basis points. The loan matures on July 22, 2019.

(3) 10-year loan agreement with MetLife, interest on this loan is paid on a monthly basis and calculated using an annual fixed rate of 4.55%. Principal amortization will commence on September 1, 2023.This loan is guaranteed with 48 of the Entity's properties.

(4) On March 9, 2015, the Entity entered into a 7-year loan with MetLife, interest on this loan is paid on a monthly basis and calculated using an annual rate of 4.35%. The loan has monthly interest only payments for 42 months and thereafter monthly amortization of principal and interest until it matures on April 1, 2022. The loan is secured by 6 of the Entity's investment properties.

As of March 31, 2017, the fair value of the long-term debt is $365,666,411 and it would be classified as level 3 in the fair value hierarchy. These credit agreements require the Entity to maintain certain financial ratios (such as Cash-on-Cash and debt service coverage ratios) and to comply with certain affirmative and negative covenants. The Entity was in compliance with these covenants under the credit agreement as of March 31, 2017 and December 31, 2016.

The credit agreements also entitles MetLife to withhold certain amounts deposited by the Entity in a separate fund as guarantee deposits for the debt service and tenants guarantee deposits of the Entity's investment properties pledged as collateral. Such amounts are presented as guarantee deposit assets in the statement of financial position.

Scheduled maturities and periodic amortization of long-term debt are as follows:

As of March 2018	$	123,019
As of March 2019		763,388
As of March 2020		35,791,939
As of March 2021		833,388
Thereafter		344,988,266

	$ 2,970,703	$ 2,665,496

13. Income taxes

The Entity is subject to ISR. The rate of current income was 30%.

13.1 Income taxes are as follows:

	Three Months ended 31/03/2017	Three Months ended 31/03/2016
ISR expense:		
Current	$ 8,745,962	$ 792,930
Expired ISR credit on dividends	-	216,279
Deferred	(2,439,696)	3,940,020
Total income taxes	$ 6,306,266	$ 4,949,229

13.2 The main items originating the deferred ISR liability are:

	31/03/2017 (Unaudited)	31/12/2016
Deferred ISR liability:		
Investment properties	$ (192,347,312)	$ (199,134,089)
Effects of tax loss carryforwards	10,635,316	14,205,287
Other provisions and prepaid expenses	(1,581,372)	(804,262)
Deferred income taxes – Net	$ (183,293,368)	$ (185,733,064)

To determine deferred ISR, the Entity applied the applicable tax rates to temporary differences based on their estimated reversal dates. The effective rate differs from the statutory rate mainly due to the impact of the appreciation of the Peso during the period as compared to the dollar which had an impact on the tax basis of the Entity's assets which for tax purposes are peso denominated.

13.3 A reconciliation of the changes in the deferred tax liability balance is presented as follows:

	31/03/2017 (Unaudited)	31/12/2016
Deferred tax liability at the beginning of the period	$ (185,733,065)	$ (144,140,530)
Movement included in profit or loss	2,439,696	(48,862,618)
Movement included in other comprehensive income	-	7,270,084
Deferred tax liability at the end of the period	$ (183,148,862)	$ (185,733,064)

13.4 The benefits of restated tax loss carryforwards for which the deferred ISR asset has been recognized can be recovered subject to certain conditions. Restated amounts as of March 31, 2017 and expiration dates are:

Year of Expiration	Tax Loss Carryforwards
2023	$ 7,207,633
2024	-
2025	2,759,848
2026	15,540,908
2027	9,942,665
	$ 35,451,054

14. Transactions and balances with related parties

14.1 Compensation of key management personnel

	$ 1,676,991	$ 1,784,245

15. Share-based payments

15.1 Details of the share-based plans of the Entity

The Entity has granted shares to its executives and employees under two different plans as follows:

i. Under the Vesta 20-20 Long-term Incentive Plan (the Vesta 20-20 Incentive Plan), as approved by the Board of Directors, the Entity will use a "Relative Total Return" methodology to calculate the total number of shares to be granted. The shares granted each year will vest over the three years following the grant date.

   The total number of shares to be granted during the six year period is 10,428,222 shares, the shares to be used to settle this plan were issued by the Entity during January 2015; no awards will be paid in cash and the shares will be contributed to a trust and delivered in three equal settlement dates to the executives after 24, 36 and 48 months from the grant date, provided that the eligible executives remain in the employment of the Entity.

   The total number of shares to be granted in each of the six years ranges from 695,215 to 1,738,037 shares, at the expected performance level, to a maximum of 2,607,055 shares, if the Entity's shares perform at peak performance compared to other publicly traded entities in each year.

   The shares to be granted in each of the six years will be contributed to a trust and delivered in three equal settlement dates to the executives after 24, 36 and 48 months from the grant date, provided that the eligible executives remain in the employment of the Entity.

ii. Under the 2014 Long-term Incentive Plan (the 2014 Incentive Plan), the Entity has a share-based plan for 12 top executives of the Entity. In accordance with the terms of the plan, as approved by the board of directors, based on certain performance metrics, the Entity executed a long-term incentive plan that will be settled by the Entity with its own shares which have been repurchased in the market. Under this plan, eligible executives will receive compensation, based on their performance during 2014, settled in shares and delivered over a three-year period. For this plan shares are kept in treasury and may be placed in a trust; they will be delivered to the executives in three equal settlement dates to the executives after 24, 36 and 48 months from the grant date, provided that the eligible executives remain in the employment of the Entity.

15.2 Fair value of share options granted in the year

i. Vesta 20-20 Incentive plan - Based on the performance of the Entity's shares for the year ended December 31, 2016, the shares granted were 993,678. This expense was calculated as the grant date fair value of the awards as determined using a Monte Carlo model which took into consideration the probability of the performance of the Entity's shares during the year. As this performance is considered a market vesting condition in accordance with IFRS 2, *Share-based Payments*, the compensation expense, as determined on grant date, is not revised even if no awards are ultimately granted.

ii. 2014 Incentive Plan - The fair value of the share awards granted under the 2014 Plan, was determined based on a fixed amount of cash determined as per the Entity's plan. It is assumed that executives will receive the awards after vesting date.

15.3 Compensation expense recognized

The long-term incentive expense for the three months ended March 31, 2017 and 2016 was as follows:

	Three Months ended 31/03/2017	Three Months ended 31/03/2016
Vesta 20-20 Incentive Plan	$ 324,397	$ 335,308
2014 Incentive Plan	10,883	40,229
Total long-term incentive expense	$ 335,280	$ 375,537

Compensation expense related to these plans will continue to be accrued through the end of the service period.

15.4 Share awards outstanding at the end of the year

As of March, 31, 2017 and December 31, 2016, there are 1,076,329 shares outstanding with a weighted average remaining contractual life of 33 months.

16. Litigation, other contingencies and commitments

Litigation

In the ordinary course of business, the Entity is party to various legal proceedings. The Entity is not involved in any litigation or arbitration proceeding for which the Entity believes it is not adequately insured or indemnified, or which, if determined adversely, would have a material adverse effect on the Entity or its financial position, results of operations or cash flows.

Commitments

As mentioned in Note 8, all rights to construction, improvements and infrastructure built by the Entity in the Queretaro Aerospace Park and in the DSP Park automatically revert back to the government of the State of Queretaro and to Nissan at the end of the concessions, which is approximately in 41 and 35 years, respectively.

17. Subsequent events

On April 21, 2017, the Entity renewed in advanced the Nestle and Nestle related CPW lease agreements for a combined leasable area of 1,713,600 square feet. The leases were extended for 7 and 8 years, beginning on January 1, 2017 to December 31, 2023 and December 31, 2024, respectively.
Rental rates were adjusted to market, this change represents a reduction of approximately $1,000,000 during the year 2017. The lease agreement will remain in indexed to Mexican investment units (UDIS per its acronym in Spanish) having monthly rent increases according to the increase in the value of UDIS. During the three months ended March 31, 2017 no adjustments have been recognized since this amendment occurred after the date of the reporting period. This new lease conditions will have an impact on the value of the Entity’s investment properties since they are valued at their fair value using the income approach as descried in Note 8 which will be recognized in the period on which the agreement was signed.

18. Unaudited condensed consolidated interim financial statements issuance authorization

On April 27, 2017 the issuance of the accompanying unaudited condensed consolidated interim financial statements was authorized the Board of Directors and consequently do not reflect events after this date.
