# Vesta Joins the Mexican Stock Exchange Sustainability Index

**Mexico City, February 03 2015** – Corporación Inmobiliaria Vesta, S.A.B. de C.V. ("Vesta") (BMV: Vesta), a leader in the development of industrial buildings and distribution centers in Mexico, announced that it has been added to the Mexican Stock Exchange Sustainability Index.

Members of the Index were selected from among the 70 most traded stocks on the Mexican Stock Exchange (Índice de Precios y Cotizaciones). Only those companies that score higher than the average of more than 3,500 international companies on Environmental, Social and Governance (ESG) issues are eligible for inclusion in the index. Eligible companies are assessed according to criteria such as performance, impact, and their response to ESG issues. Two independent evaluators hired by the Mexican Stock Exchange determine which companies meet the sustainability requirements to be listed on the index. Having met all the criteria, Vesta was selected as one of the 30 most sustainable public companies in Mexico.

"Vesta's addition to the index reinforces our position as one of Mexico's most sustainable public companies. This important achievement confirms our commitment to sustainability, transparency, and accountability, as we seek to continue creating shared value for all our stakeholders. Vesta is focused on delivering not only shareholder value, but being a responsible member of the communities we serve", said Lorenzo Berho, Chairman and CEO.

Vesta seeks to minimize the environmental impact of its developments by offering its clients the most efficient solutions and establishing long term relationships with stakeholders.

## About VESTA
