QuickLogic Announces Fiscal 2013 Third Quarter Results

New Product Revenue Increases by 131% Sequentially

SUNNYVALE, CA -- (Marketwired) -- 10/30/13 -- QuickLogic Corporation (NASDAQ: QUIK), the innovator of ultra-low-power Customer Specific Standard Products (CSSPs), today announced financial results for its fiscal third quarter ended September 29, 2013.

Total revenue for the third quarter of 2013 was \$9.1 million. Revenue was up 77% sequentially and up 148% compared to the third quarter of 2012. During the third quarter of 2013, new product revenue increased 131% sequentially to \$7.1 million, representing 79% of total revenue. During the third quarter, mature product revenue decreased 5% sequentially to \$1.9 million, representing 21% of total revenue in the third quarter.

"New product revenue growth was higher than expected due to increased demand and a pull-in of certain shipments that were originally scheduled to ship in the fourth quarter," said Ralph Marimon, Chief Financial Officer. "These shipments were made ahead of schedule due to the timing of a national Chinese holiday."

Under generally accepted accounting principles (GAAP), the net loss for the third quarter of 2013 was \$2.3 million, or \$0.05 per share, compared with a net loss of \$3.2 million, or \$0.07 per share, in the second quarter of 2013 and a net loss of \$2.8 million, or \$0.06 per share, in the third quarter of 2012. Non-GAAP net loss for the third quarter of 2013 was \$2.0 million, or \$0.04 per share, compared with a non-GAAP net loss of \$2.7 million, or \$0.05 per share, in the second quarter of 2013 and a non-GAAP net loss of \$2.2 million, or \$0.05 per share, in the third quarter of 2012.

Conference Call

QuickLogic will hold a conference call at 2:30 p.m. Pacific Daylight Time today, October 30, 2013, to discuss its current financial results. The conference call is being webcast and can be accessed via QuickLogic's website at www.quicklogic.com. To join the live conference, please dial (877) 377-7094 by 2:20 p.m. Pacific Daylight Time. A recording of the call will be available starting one hour after completion of the call. To access the recording, please call (404) 537-3406 and reference the passcode: 89538938. The call recording will be archived until Wednesday, November 6, 2013 and the webcast will be available for 12 months.

About QuickLogic

QuickLogic Corporation (NASDAQ: QUIK) is the inventor and pioneer of innovative, customizable semiconductor solutions for mobile and portable electronics original equipment manufacturers (OEMs) and original design manufacturers (ODMs). These silicon plus software solutions are called Customer Specific Standard Products (CSSPs). CSSPs enable our customers to bring their products to market more quickly and remain in the market

longer, with the low power, cost and size demanded by the mobile and portable electronics market. For more information about QuickLogic and CSSPs, visit www.quicklogic.com. Code: QUIK-G

Non-GAAP Financial Measures

QuickLogic reports financial information in accordance with GAAP, but believes that non-GAAP financial measures are helpful in evaluating its operating results and comparing its performance to comparable companies. Accordingly, the Company excludes charges related to stock-based compensation, restructuring, the gain (loss) from sale of the Company's investment in TowerJazz Semiconductor Ltd., the effect of the write-off of long-lived assets and the tax effect on other comprehensive income in calculating non-GAAP (i) income (loss) from operations, (ii) net income (loss), (iii) net income (loss) per share, and (iv) gross margin percentage. The Company provides this non-GAAP information to enable investors to evaluate its operating results in a manner similar to how the Company analyzes its operating results and to provide consistency and comparability with similar companies in the Company's industry.

Management uses the non-GAAP measures, which exclude gains, losses and other charges that are considered by management to be outside of the Company's core operating results, internally to evaluate its operating performance against results in prior periods and its operating plans and forecasts. In addition, the non-GAAP measures are used to plan for the Company's future periods, and serve as a basis for the allocation of Company resources, management of operations and the measurement of profit-dependent cash and equity compensation paid to employees and executive officers.

Investors should note, however, that the non-GAAP financial measures used by QuickLogic may not be the same non-GAAP financial measures, and may not be calculated in the same manner, as that of other companies. QuickLogic does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures alone or as a substitute for financial information prepared in accordance with GAAP. A reconciliation of GAAP financial measures to non-GAAP financial measures is included in the financial statements portion of this press release. Investors are encouraged to review the related GAAP financial measures and the reconciliation of non-GAAP financial measures with their most directly comparable GAAP financial measures.

Safe Harbor Statement Under The Private Securities Litigation Reform Act of 1995

This press release contains forward-looking statements. Actual results could differ materially from the results described in these forward-looking statements. Factors that could cause actual results to differ materially include: delays in the market acceptance of the Company's new products; the ability to convert design opportunities into customer revenue; our ability to replace revenue from end-of-life products; the level and timing of customer design activity; the market acceptance of our customers' products; the risk that new orders may not result in future revenue; our ability to introduce and produce new products based on advanced wafer technology on a timely basis; our ability to adequately market the low power, competitive pricing and short time-to-market of our new products; intense competition, including the introduction of new products by competitors; our ability to hire and retain qualified personnel; changes in product demand or supply; capacity constraints; and general economic conditions. These factors and others are described in more detail in the Company's public

reports filed with the Securities and Exchange Commission, including the risks discussed in the "Risk Factors" section in the Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and in the Company's prior press releases.
