QuickLogic's CTO to Present at Telit DevCon IoT Innovation Conference

SUNNYVALE, CA -- (Marketwired) -- 01/22/16 -- QuickLogic® Corporation (NASDAQ: QUIK), the innovator of ultra-low power programmable sensor processing solutions, today announced that Dr. Timothy Saxe will be presenting at the Telit IoT Innovation Conference in Florida. This event brings together a diverse set of development, sales, marketing and executive professionals to learn how industry leaders are using the IoT to create new markets, transform their business and achieve measurable ROI.

Dr. Saxe will give a presentation showing how it is possible to use the intelligence of QuickLogic's low power EOS™ sensor processing platform to achieve multi-year battery life in IoT sensor nodes and end points that use Telit's M2M (machine-to-machine) AIR cloud to report on room occupancy and air quality.

Location: Fort Lauderdale Convention Center (Grand Ballroom A/B)
Presentation: Monday, January 25 at 12:00 noon EST
Event URL: http://iotinnovation.telit.com/2016

About QuickLogic
QuickLogic Corporation is a leading provider of ultra-low power, customizable sensor processing platforms, Display, and Connectivity semiconductor solutions for smartphone, tablet, wearable, and mobile enterprise OEMs. Called Customer Specific Standard Products (CSSPs), these programmable 'silicon plus software' solutions enable our customers to bring hardware-differentiated products to market quickly and cost effectively. For more information about QuickLogic and CSSPs, visit www.quicklogic.com.

QuickLogic and the QuickLogic logo are registered trademarks and EOS is a trademark of QuickLogic Corporation. All other brands or trademarks are the property of their respective holders and should be treated as such.
