Hangar X Studios to Attend Verticon 2025 Conference and Host Live Podcast

ENGLEWOOD, Colo., Feb. 25, 2025 /PRNewswire/ -- XTI Aerospace (Nasdaq: XTIA) announces that Hangar X Studios podcast, a podcast that features thought leadership in aerospace media and innovation, will be participating in the [Verticon 2025](#) conference being held March 11-13, 2025 in Dallas, Texas. Verticon 2025 is one of the premier events for aerospace professionals, bringing together thought leaders, innovators, and experts from across the sector.

Hangar X Studios will be stationed at booth 7340 during Verticon 2025 and hosting live recordings of their popular podcast, featuring in-depth interviews and discussions with leaders in the aerospace industry. In addition to live podcast recordings, Hangar X Studios production staff and host, John Ramstead, will engage with conference attendees to discuss the latest developments in aerospace innovation, providing valuable insight and commentary throughout the event. Attendees interested in signing up to be a guest during Verticon or on a future episode of the Hangar X Podcast can reach out directly to john@hangarxstudios.com.

"We are excited to bring Hangar X Studios to Verticon 2025 and make history by introducing the event's first-ever live podcast recording studio," said John Ramstead, former fighter pilot for the United States Navy and Podcast Host at Hangar X Studios. "This unique setup will allow us to capture dynamic, on-the-ground conversations with some of the most influential voices in the aerospace industry. Our podcasts will provide attendees with an immersive experience with top aviation professionals who are driving innovation and shaping the future of aerospace technology."

"We're thrilled to be part of Verticon 2025, an event that celebrates innovation and collaboration in the aerospace community," said Tobin Arthur, Chief Strategy Officer of XTI Aerospace, the sponsor of Hangar X Studios. "Our live podcast sessions are designed to

provide a dynamic platform for thought-provoking discussions and share valuable insights directly from some of the brightest minds in aerospace."

About Verticon 2025

Verticon, formerly called HELI-EXPO, is a leading conference dedicated to exploring the latest advancements in vertical takeoff and landing (VTOL) technology, powered-lift aircraft, and the broader aerospace industry. With more than 15,000 attendees and 600+ exhibitors expected, the conference provides a collaborative environment for professionals to showcase cutting-edge technologies, engage in thought-provoking discussions, and build connections that will shape the future of aviation.

About XTI Aerospace, Inc.

XTI Aerospace (XTIAerospace.com) (Nasdaq: XTIA) is the parent company of XTI Aircraft Company, an aviation business based near Denver, Colorado, currently developing the TriFan 600, a fixed-wing business aircraft designed to have the vertical takeoff and landing (VTOL) capability of a helicopter, speeds of 345 mph and a range of 700 miles, creating an entirely new category – the vertical lift crossover airplane (VLCA). Additionally, the Inpixon (inpixon.com) business unit of XTI Aerospace is a leader in real-time location systems (RTLS) technology with customers around the world who use the Company's location intelligence solutions in factories and other industrial facilities to help optimize operations, increase productivity, and enhance safety. For more information about XTI Aerospace, please visit XTIAerospace.com and HangerXStudios.com (aviation innovation podcast), and follow the company on [LinkedIn](#), [Instagram](#), [X](#), and [YouTube](#).

Cautionary Statement Regarding Forward-Looking Statements

This press release contains certain "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act, and Section 21E of the Exchange Act. All statements other than statements of historical fact contained in this press release, including without limitation, statements about the products under development by XTI, the advantages of XTI's technology, and XTI's customers, plans and strategies are forward-looking statements.

Some of these forward-looking statements can be identified by the use of forward-looking words, including "believe," "continue," "could," "would," "will," "estimate," "expect," "intend," "plan," "target," "projects," or the negatives of these terms or variations of them or similar expressions. All forward-looking statements are subject to risks, uncertainties, and other factors which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. All forward-looking statements are based upon estimates, forecasts, and assumptions that, while considered reasonable by XTI Aerospace and its management, are inherently uncertain, and many factors may cause the actual results to differ materially from current expectations. XTI undertakes no obligation to revise any forward-looking statements in order to reflect events or circumstances that might subsequently arise. Readers are urged to carefully review and consider the risk factors discussed from time to time in XTI's filings with the SEC, including those factors discussed under the caption "Risk Factors" in its most recent annual report on Form 10-K, filed with the SEC on April 16, 2024, and in subsequent reports filed with or furnished to the SEC.
