<u>James F. DeSocio</u>, President & CEO of Intellinetics, stated, "We have begun implementation of our strategy focusing a core group of customers in the Human Services Provider space. We have a unique and differentiated product value proposition, including auditing, compliance and reporting. We have reallocated resources within the company to support this strategy, while at the same time investing in select tools to assist us in demand and lead generation, which will allow us to better control our destiny. These steps are essential for us to scale and grow."

"Looking forward, we plan on reaping the rewards of these focused initiatives during 2018 and beyond. As we continue to focus on increasing our SaaS-based revenues we recognize that short-term revenue recognition on subscription services is generally lower than upfront premise license sales and that the new programs will take some months to bear fruit. We believe this investment and strategic focus will provide greater revenue consistency, higher growth, and deliver the best long-term value to shareholders," DeSocio concluded.

Non-GAAP Financial Measure

Intellinetics uses non-GAAP Adjusted EBITDA as a supplemental measure of our

performance that is not required by, or presented in accordance with, accounting principles generally accepted in the United States (GAAP).

A non-GAAP financial measure is a numerical measure of a company's financial performance that excludes or includes amounts so as to be different from the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows of a company. Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered as an alternative to net income, operating income, or any other performance measure derived in accordance with GAAP, or as an alternative to cash flow from operating activities or a measure of our liquidity. Intellinetics urges investors to review the reconciliation of non-GAAP Adjusted EBITDA to the comparable GAAP Net Loss, which is included in this press release, and not to rely on any single financial measure to evaluate Intellinetics' financial performance.

We believe that Adjusted EBITDA is a useful performance measure and is used by us to facilitate a comparison of our operating performance on a consistent basis from period-to-period and to provide for a more complete understanding of factors and trends affecting our business than measures under GAAP can provide alone. We define "Adjusted EBITDA" as earnings before interest expense, any income taxes, depreciation and amortization expense, and other non-cash expenses such as share-based compensation, note conversion warrant expense and other financing related transaction costs.
