Intellinetics, Inc. Offers Portal for Independent Providers

This Cost-Effective Solution Provides Time and Cost Savings

COLUMBUS, Ohio, Aug. 22, 2018 (GLOBE NEWSWIRE) -- [Intellinetics, Inc.](#) ([OTCQB: INLX](#)) a cloud-based document content services provider, announced today a new cloud-based document management solution specifically for the Independent Providers market called the Provider Portal™.

Intellinetics' Provider Portal provides a cost-effective solution that allows Independent Providers to get up and running within 24 hours. An Independent Provider is a self-employed person who provides services to people with developmental disabilities (Consumers) and who must provide and fund their own technology solutions.

The Provider Portal allows them to:

- Fill out, print and store critical compliant necessary documents online.
- Know that they will not lose their important Consumer documents either by misplacing them or through a disaster.
- Access their Consumers' documentation at all times with any Internet-connected device while still being HIPAA compliant.
- Quickly and easily prepare for audits and even provide the auditor the ability to review everything online.

The Independent Provider marketplace has quickly realized the value of Intellinetics' Provider Portal.

"The industry's response to this new solution has been very rewarding," said [James F. DeSocio](#), President & CEO of Intellinetics. "We understand what Independent Providers need and designed the Provider Portal to meet that need as well as to save them time and money – things that are in short supply for these people. We are pleased that our solution is helping those that have traditionally been overlooked when it comes to technology solutions."

Independent Providers are already recognizing the Provider Portal benefits.

"I have reduced my daily printing significantly, which will reduce my paper and toner costs, as well as the storage space and paper folders I used to keep," said Billie McGillivray, an Independent Provider. "I also like the fact that I can access and fill out the paperwork right on site. Not to mention my confidence that my Consumer documents are backed up and safe from loss, theft or a fire."

About Intellinetics, Inc.

Intellinetics, Inc., located in Columbus, Ohio, is a cloud-based document content services

provider. Its flagship IntelliCloud™ platform provides easy to use, affordable, secure document management to organizations that have critical document requirements and must always be audit-ready, including health and human services, education and law enforcement.
