

## Intellinetics, Inc.™ Continues to Expand Suite of Services Through Strategic Collaboration

Increased Security and Threat Detection Will Heighten Protection of Clients' Mission-Critical Services

COLUMBUS, Ohio, May 07, 2019 (GLOBE NEWSWIRE) -- Intellinetics, Inc., (OTCQB: INLX) a provider of cloud-based content services solutions, announced today a new collaboration with SkyNet Managed Technology Services (SkyNet), a provider of tailored IT services and solutions for small- and medium-sized businesses. This strategic collaboration is another step in the company's plan to increase efficiencies and reduce risks for its clients.

Intellinetics will utilize SkyNet, in conjunction with Amazon Web Services, to better scale its  $\mathsf{IntelliCloud}^\mathsf{TM}$  suite of solutions and services, including its innovative new Incident Case Management System  $\mathsf{IM}$  (ICMS), IntelliCloud content services, and Electronic Visitation Verification (EVV) platforms. This strategic collaboration offers customers the ability to embed additional hosting, security and managed services within any IntelliCloud offering, with assured inter-operability for peace of mind.

SkyNet's security platform also represents Intellinetics' formal introduction of artificial intelligence (AI) into the IntelliCloud model, and enables a new level of threat-detection not possible with traditional approaches. These new security and threat-detection features expand upon IntelliCloud's law-enforcement grade security and compliance tools.

"We are integrating best-in-class capabilities from benchmark partners as an accelerator to our goals," said <u>James F. DeSocio</u>, President & CEO of Intellinetics. "We will continue to expand our suite of services to offer out-of-the-box solutions with increased efficiencies and risk mitigation. This approach is part of our overall strategy to expand the value we can offer the market and increase the ways we gain new customers all supported by a common core set of assets and strengths to scale."
