Intellinetics Expands Partnership with Skyward to Include Payables Automation Solution for K-12 School Districts

Leverages artificial intelligence and integration capabilities to streamline AP invoice processing

COLUMBUS, Ohio--(BUSINESS WIRE)-- Intellinetics, Inc. ([NYSE American: INLX](#)), a digital transformation solutions provider, is proud to announce the growth of its IntelliCloud Payables Automation Solution (IPAS) into the K-12 market through an expansion of its partnership with Skyward, a school administration software provider committed to helping K-12 leaders spend less time on tasks and more time with students.

The partnership builds on the existing collaboration established between Skyward and YellowFolder, Intellinetics' K-12 purpose-built records management system, and enables finance departments to leverage artificial intelligence and system interoperability to save the district time, money, and resources.

Intellinetics IPAS for K-12 utilizes AI to virtually eliminate all paper and manual steps in the scanning, capture, indexing, and filing of a school district's AP Invoices and automates the approval process while improving transparency and audit capabilities.

Invoices sent to email inboxes are categorized according to the school district's criteria and have all relevant data extracted from the documents. Invoices are automatically routed to the respective departments for approval and coding with each department instantly notified that invoices have arrived and are ready to be reviewed. Once approved, invoices are systematically and securely stored in the electronic document management system for fingertip auditing and archiving.

"As school districts look to modernize manual accounts payable processes to free up time for higher-value activities, reduce fraud and increase audit readiness, we are thrilled to complement Skyward's industry-leading K-12 school administrative software," said [James F. DeSocio](#), President & CEO at Intellinetics. "Skyward has worked with over 2,500 school districts. Expansion of our partnership with them marks a significant step forward in the K-12 sector as a key market for generating significant IPAS SaaS revenue growth."

"We are excited to grow our partnership with Intellinetics and offer this functionality to our clients who want to automate their AP invoice processing," said Dave Ilkka, VP of Business Development at Skyward. "Together, we are committed to providing tailored solutions that enable school districts to focus on what matters most - students."

About Intellinetics, Inc.

Intellinetics, Inc. (NYSE American: INLX) is enabling the digital transformation. Intellinetics empowers organizations to manage, store and protect their important documents and data. Intellinetics' flagship solution, the IntelliCloud™ content management platform, delivers advanced security, compliance, workflow and collaboration features critical for highly regulated, risk-intensive markets. IntelliCloud connects documents to users and the processes they support anytime, anywhere to accelerate innovation and empower organizations to think and work in new ways. In addition, Intellinetics offers business process outsourcing (BPO), document and micrographics scanning services, and records storage. From highly regulated industries like Healthcare/Human Service Providers, K-12, Public Safety, and State and Local Governments, to businesses looking to move away from paper-based processes, Intellinetics is the all-in-one, compliant, document management solution. Intellinetics is headquartered in Columbus, Ohio. For additional information, please visit www.intellinetics.com.

About Skyward

Since 1980, Skyward's SIS and ERP solutions have helped more than 2,500 school districts save time, connect with families, and empower success. By blending advanced technology guided by actual users with world-class support delivered with a personal touch, Skyward is the clear choice for K-12 leaders who want to spend less time on tasks and more time with students.
