Montrose Environmental Group Announces Second Quarter 2020 Results

- Delivered Strong Second Quarter Results and Cash Flow Performance -

- Completed Initial Public Offering in July 2020 -

- Provides Full Year 2020 Double-Digit Growth Outlook -

IRVINE, Calif.--(BUSINESS WIRE)-- Montrose Environmental Group, Inc. (the “Company,” “Montrose” or “MEG”) (NYSE: MEG) today announced results for the second quarter ended June 30, 2020 and provided full year 2020 outlook.

Second Quarter 2020 Highlights

- Total revenue of \$73.8 million increased 28.5% compared to the prior year quarter
- Net income of \$13.2 million compared to a net loss of \$0.3 million in the prior year quarter
- Adjusted EBITDA¹ of \$13.9 million grew 74.1% compared to the prior year quarter
- Adjusted EBITDA margin¹ improved to 18.8% compared to 13.9% in the prior year quarter
- Second quarter cash flow from operations of \$7.4 million, or \$13.6 million excluding contingent earnout payments, up from \$4.3 million in the prior year quarter

First Six Months 2020 Highlights

- Total revenue of \$134.8 million increased 24.4% compared to the prior year period
- Net loss of \$28.0 million compared to a net loss of \$5.6 million in the prior year period
- Adjusted EBITDA¹ of \$19.4 million grew 53.7% compared to the prior year period
- Adjusted EBITDA margin¹ expanded 270 basis points year-over-year to 14.4%

(1) Adjusted EBITDA and Adjusted EBITDA margin are non-GAAP measures. See the appendix to this release for a discussion of these measures, including how they are calculated and the reasons why we believe they provide useful information to investors, and a reconciliation of Adjusted EBITDA to net income (loss), the most directly comparable GAAP measure.

Vijay Manthripragada, Montrose’s Chief Executive Officer, stated, “We are pleased to have produced strong top line growth, continued margin improvement and strong cash generation during the second quarter and first half of 2020. Our team executed well, worked hard to support each other and met the needs of our customers during the COVID-19 pandemic. I am thankful and grateful for the ongoing commitment of all our colleagues around the world. The environment is our business and the aggregate demand for our services has remained firm during these challenging times, so we remain optimistic about the strong trajectory and outlook for our business.”

Mr. Manthripragada continued, “In July 2020, we completed our initial public offering and listing on the New York Stock Exchange. With our reinforced balance sheet and solid financial position, we plan to continue pursuing innovative and value-enhancing opportunities for our rapidly growing company. We will also continue executing on our multi-faceted growth strategy, bolstered by our robust M&A pipeline and resilient business model. Overall, we believe that positive trends in our markets, solid execution of our strategy and continued new business wins provide us with a solid footing to achieve our goals in 2020 and beyond.”

Second Quarter 2020 Results

Total revenue in the second quarter of 2020 increased 28.5% to \$73.8 million, compared to \$57.4 million in the prior year quarter. Excluding discontinued services, which generated revenues of \$1.3 million and \$5.8 million in the 2020 and 2019 quarters, respectively, total revenue increased 40.5%. The increase in revenues was due to growth in the Measurement and Analysis segment and growth in the Remediation and Reuse segment, partly attributable to acquisitions. Revenues in the Assessment, Permitting and Response segment increased significantly, mainly due to the acquisition of CTEH in April 2020. Growth in all segments was partly offset by temporary delays in project start dates due to the impact of shelter-in-place orders and travel restrictions related to COVID-19. Many of the delayed projects have subsequently been awarded and started.

Net income was \$13.2 million, compared to a net loss of \$0.3 million in the prior year quarter. The year-over-year change was primarily driven by a net gain related to a fair value adjustments, partially offset by increases in interest expense, amortization of intangibles on acquisitions, acquisition-related transaction costs, and a loss from discontinued service lines.

Adjusted EBITDA¹ increased to \$13.9 million, compared to \$8.0 million in the prior year quarter. The increase in Adjusted EBITDA¹ was primarily driven by higher revenues and favorable shifts in business mix. Adjusted EBITDA margin¹ improved 490 basis points to 18.8%, compared to 13.9% in the prior year quarter, mainly due to operating leverage at the segment level and temporary cost containment in response to COVID-19, which more than offset investments to support the Company’s public company infrastructure.

Cash flow from operations increased to \$7.4 million, or \$13.6 million excluding contingent earnout payments of \$6.2 million, compared to \$4.3 million in the prior year quarter, primarily driven by higher Adjusted EBITDA¹ and working capital improvements.

First Six Months 2020 Results

Total revenue in the first six months of 2020 increased 24.4% to \$134.8 million, compared to \$108.4 million in the prior year period. Excluding discontinued services, which generated revenues of \$3.8 million and \$11.0 million in the 2020 and 2019 periods, respectively, total revenue increased 34.5%. The increase in revenues was driven by growth in the Measurement and Analysis segment and growth in the Remediation and Reuse segment, partly attributable to acquisitions. Growth in the Assessment, Permitting and Response segment mostly reflected the acquisition of CTEH.

Net loss was \$28.0 million, compared to a net loss of \$5.6 million in the prior year period. The year-over-year difference in net loss primarily reflected an increase in net expenses

from fair value adjustments and from amortization of intangibles on acquisitions, as well as an increase in interest expense, acquisition-related transaction costs and a loss from discontinued service lines.

Adjusted EBITDA¹ increased 53.7% to \$19.4 million, compared to \$12.7 million in the prior year period. The increase in Adjusted EBITDA¹ was primarily due to higher revenues and favorable shifts in business mix. Adjusted EBITDA margin¹ improved 270 basis points to 14.4%, compared to 11.7% in the prior year period.

Cash outflow used by operations, which included \$6.2 million in contingent earnout payments, was \$1.6 million. Excluding contingent earnout payments cash flow from operations was \$4.6 million, compared to \$4.4 million in the prior year period, primarily driven by higher Adjusted EBITDA¹ and working capital improvements, partly offset by higher interest expense and investments in new customer relationship management and enterprise resource management systems.

Acquisitions

In April 2020, the Company acquired CTEH®, an Arkansas-based firm that primarily specializes in environmental emergency preparedness, response and recovery. The addition of CTEH and its over 170 highly credentialed employees is strategically additive to the Permitting, Response and Assessment segment and represents substantial potential revenue synergies for various service lines that are mainly in the Measurement and Analysis and Remediation and Reuse segments. CTEH is very additive to Montrose's focus on technology and environmental infrastructure. The environmental emergency response component of CTEH's revenues may add to the Company's quarterly earnings variability. CTEH typically exhibits more predictable earnings growth on an annualized basis.

Liquidity and Capital Resources

In April 2020, the Company entered into a new \$225 million credit facility, comprised of a \$175 million term loan and a \$50 million revolving credit facility, and used a portion of the proceeds to repay all amounts outstanding under the prior senior secured credit facility. As of June 30, 2020, the Company had cash of \$44.8 million and total debt of \$207.3 million.

In July 2020, Montrose completed its initial public offering of common stock, raising approximately \$161.3 million, net of underwriting discounts and commissions. In connection with the offering, the Company used \$131.8 million of the proceeds and shares of common stock to redeem all outstanding shares of its Series A-1 preferred stock, and used approximately \$9.8 million of the proceeds to pay IPO related expenses, with the remaining \$19.6 million available for general corporate purposes and acquisitions. Following the IPO and application of proceeds, Montrose had total debt of \$182.3 million and \$89.5 million of liquidity, including \$39.5 million of cash and \$50.0 million of availability on its credit facility, with a leverage ratio of 2.7 times as calculated pursuant to the Company's credit agreement. The Company has a flexible balance sheet to pursue investments in innovation and acquisitions in its highly fragmented industry. As of August 26, 2020, the Company had 24,955,430 outstanding shares of common stock.

Full Year 2020 Outlook

Demand for the Company's services remains resilient amid broader macro-economic uncertainty related to COVID-19. The Company expects 2020 to be another year of revenue

growth in excess of 20%. The Company is providing a full year outlook for Adjusted EBITDA¹ to be in the range of \$47 million to \$55 million, reflecting year-over-year growth of 63% at the mid-point. The Company expects Adjusted EBITDA margin¹ to be in the range of 16.0% to 17.5% for the full year 2020.

Webcast and Conference Call

The Company's senior management will host a webcast and conference call on Monday, August 31, 2020 at 5:00 p.m. Eastern time to discuss second quarter financial results. Their prepared remarks will be followed by a question and answer session. A live webcast of the conference call will be available in the Investor Relations section of the Montrose website at www.montrose-env.com. The conference call will also be accessible by dialing 1-877-407-9208 (Domestic) and 1-201-493-6784 (International). For those who are unable to listen to the live broadcast, an audio replay of the conference call will be available on the Montrose website for 30 days.

About Montrose

Montrose is a leading environmental services company focused on supporting commercial and government organizations as they deal with the challenges of today, and prepare for what's coming tomorrow. With 1,700 employees across 70 locations around the world, Montrose combines deep local knowledge with an integrated approach to design, engineering, and operations, enabling the Company to respond effectively and efficiently to the unique requirements of each project. From comprehensive air measurement and laboratory services to regulatory compliance, emergency response, permitting, engineering, and remediation, Montrose delivers innovative and practical solutions that keep its clients on top of their immediate needs – and well ahead of the strategic curve. For more information, visit montrose-env.com.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements may be identified by the use of words such as "intend," "expect", and "may", and other similar expressions that predict or indicate future events or that are not statements of historical matters. Forward-looking statements are based on current information available at the time the statements are made and on management's reasonable belief or expectations with respect to future events, and are subject to risks and uncertainties, many of which are beyond the Company's control, that could cause actual performance or results to differ materially from the belief or expectations expressed in or suggested by the forward-looking statements. Further, many of these factors are, and may continue to be, amplified by the COVID-19 pandemic. Additional factors or events that could cause actual results to differ may also emerge from time to time, and it is not possible for the Company to predict all of them. Forward-looking statements speak only as of the date on which they are made, and the Company undertakes no obligation to update any forward-looking statement to reflect future events, developments or otherwise, except as may be required by applicable law. Investors are referred to the Company's filings with the Securities and Exchange Commission, including its final prospectus dated July 22, 2020, for additional information regarding the risks and uncertainties that may cause actual results to differ materially from those expressed in any forward-looking statement.

Non-GAAP Financial Information

In addition to our results under GAAP, in this release we also present certain other supplemental financial measures of financial performance that are not required by, or presented in accordance with, GAAP, including Adjusted EBITDA and Adjusted EBITDA margin. We calculate Adjusted EBITDA as net income (loss) before interest expense, income tax expense (benefit) and depreciation and amortization, adjusted for the impact of certain other items, including stock-based compensation expense and acquisition-related costs, as set forth in greater detail in the table below. Adjusted EBITDA margin represents Adjusted EBITDA as a percentage of revenues for a given period.

Adjusted EBITDA and Adjusted EBITDA margin are two of the primary metrics used by management to evaluate our financial performance and compare it to that of our peers, evaluate the effectiveness of our business strategies, make budgeting and capital allocation decisions and in connection with our executive incentive compensation. These measures are also frequently used by analysts, investors and other interested parties to evaluate companies in our industry. Further, we believe they are helpful in highlighting trends in our operating results because they allow for more consistent comparisons of financial performance between periods by excluding gains and losses that are non-operational in nature or outside the control of management, as well as items that may differ significantly depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which we operate and capital investments.

These non-GAAP measures do, however, have certain limitations and should not be considered as an alternative to net income (loss) or any other performance measure derived in accordance with GAAP. Our presentation of Adjusted EBITDA and Adjusted EBITDA margin should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items for which we may make adjustments. In addition, Adjusted EBITDA and Adjusted EBITDA margin may not be comparable to similarly titled measures used by other companies in our industry or across different industries, and other companies may not present these or similar measures. Management compensates for these limitations by using these measures as supplemental financial metrics and in conjunction with our results prepared in accordance with GAAP. We encourage investors and others to review our financial information in its entirety, not to rely on any single measure and to view Adjusted EBITDA and Adjusted EBITDA margin in conjunction with the related GAAP measures.

Additionally, we have provided estimates regarding Adjusted EBITDA and Adjusted EBITDA margin for 2020. These projections account for estimates of revenue, operating margins and corporate and other costs. However, we cannot reconcile our projection of Adjusted EBITDA to net income (loss), the most directly comparable GAAP measure, without unreasonable efforts because of the unpredictable or unknown nature of certain significant items excluded from Adjusted EBITDA and the resulting difficulty in quantifying the amounts thereof that are necessary to estimate net income (loss). Specifically, we are unable to estimate for the second half of 2020 the impact of certain items, including income tax (expense) benefit, stock-based compensation expense, fair value changes and the accounting for the issuance of the Series A-2 preferred stock. We expect the variability of these items could have a significant impact on our reported GAAP financial results.

Adjusted EBITDA	\$ 13,895	\$ 7,979	\$ 19,448	\$ 12,653

(1) Represents non-cash stock-based compensation expenses related to option awards issued to employees and restricted stock grants issued to directors.

(2) Represent start-up losses related to losses incurred on (i) the expansion of lab testing methods and lab capacity, including into new geographies, (ii) expansion of our Canadian testing capacity in advance of new regulations and (iii) expansion into Europe in advance of projects driven by new regulations.

(3) Acquisition costs include financial and tax diligence, consulting, legal, valuation, accounting, travel costs, acquisition-related incentives and fair value changes to contingent liabilities, which reflect the difference between the expected settlement value of acquisition-related earn-out payments at the time of the closing of acquisitions and the expected (or actual) value of earn-outs at the end of the relevant period.

(4) Amount relates to changes in various financial options, which include the fair value of the contingent put option attached to the Series A-1 preferred stock and the warrant options attached to the Series A-1 and Series A-2 preferred stock, and changes in fair value of the Series A-2 preferred stock compound embedded derivative.

(5) Represents (earnings) loss from the Discontinued Service Lines. See the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations—Key Factors that Affect Our Business and Our Results" in our Quarterly Report on Form 10-Q for the three months ended June 30, 2020.

(6) Other adjustments which include a purchase accounting fair value adjustment to the carrying value of deferred revenue related to the ECT2 acquisition as of the date of

acquisition, IPO preparation costs, non-operational charges incurred as a result of lease abandonments, and non-capitalizable expenses associated with the issuance of the Series A-2 Preferred Stock.
