# UiPath Reports Third Quarter Fiscal 2026 Financial Results

Revenue of \$411 million increased 16 percent year-over-year

ARR of \$1.782 billion increased 11 percent year-over-year

GAAP operating income of \$13 million and non-GAAP operating income of \$88 million

NEW YORK--(BUSINESS WIRE)-- UiPath, Inc. (NYSE: PATH), a global leader in [agentic automation](#), today announced financial results for its third quarter fiscal 2026 ended October 31, 2025.

"I am pleased with our third quarter results delivering ARR of \$1.782 billion, up 11 percent year-over-year, a testament to the team's focus, consistent execution, and the momentum we're seeing as customers scale agentic automation across the enterprise," said Daniel Dines, UiPath Founder and Chief Executive Officer. "Enterprises are accelerating their AI and automation strategies, and they're looking for a unified platform rather than standalone tools. Our ability to bring deterministic automation, agentic automation, and orchestration together in one trusted, governed system is a true differentiator. It's delivering meaningful outcomes for customers and positions us well as we close out the year."

## Third Quarter Fiscal 2026 Financial Highlights

- **Revenue** of \$411 million increased 16 percent year-over-year.
- **ARR** of \$1.782 billion as of October 31, 2025 increased 11 percent year-over-year.
- **Net new ARR** of \$59 million.
- **Dollar based net retention rate** of 107 percent.
- **GAAP gross margin** was 83 percent.
- **Non-GAAP gross margin** was 85 percent.
- **GAAP operating income** was \$13 million.
- **Non-GAAP operating income** was \$88 million.
- **Net cash flow from operations** was \$28 million.
- **Non-GAAP adjusted free cash flow** was \$28 million.
- **Cash, cash equivalents, and marketable securities** were \$1.52 billion as of October 31, 2025.

"We delivered solid third quarter results, exceeding guidance across the board and achieving our first GAAP profitable third quarter," said Ashim Gupta, UiPath Chief Operating Officer and Chief Financial Officer. "The progress we've made in strengthening our operating rhythm and execution is showing up in our results, and we feel well positioned as we head into the end of the year."

## Financial Outlook

For the fourth quarter fiscal 2026, UiPath expects:

- Revenue in the range of \$462 million to \$467 million
- ARR in the range of \$1.844 billion to \$1.849 billion as of January 31, 2026
- Non-GAAP operating income of approximately \$140 million

Reconciliation of non-GAAP operating income guidance to the most directly comparable GAAP measure is not available without unreasonable efforts on a forward-looking basis due to the high variability, complexity, and low visibility with respect to the charges excluded from this non-GAAP measure; in particular, the effects of stock-based compensation expense specific to equity compensation awards that are directly impacted by unpredictable fluctuations in our stock price. We expect the variability of the above charges to have a significant, and potentially unpredictable, impact on our future GAAP financial results.

## Recent Business Highlights

- **Announced New UiPath Platform™ Capabilities:** At FUSION, UiPath introduced new capabilities in the UiPath Platform for Agentic Automation & Orchestration, including pre-built agentic solutions and orchestration capabilities for specific use cases and industries; new tools for building and testing agents and automations; and an expansion of the platform's built-in security and governance, creating a powerful solution that enables organizations to deploy rapid agentic automation to accelerate ROI and time-to-value, simplifying deployment across all stages of agent-building, automation, orchestration, and workflow automation.
- **Integration with Microsoft Azure AI Foundry:** UiPath announced an integration with Microsoft Azure AI Foundry, enabling customers to automate end-to-end processes using UiPath agents interacting with Azure AI Foundry agents and models. The use of a Model Context Protocol (MCP) extends the native, bi-directional integrations with Microsoft 365 Copilot and Microsoft Copilot Studio, allowing UiPath Maestro to deploy and scale end-to-end orchestrated workflows across Microsoft or UiPath agents. This gives process owners and analysts the trust, transparency, and governance needed to deploy AI agents in real-world enterprise workflows and realize business value faster.
- **Announced Collaboration with OpenAI:** UiPath announced a collaboration with OpenAI to build a ChatGPT connector that integrates OpenAI frontier models with enterprise customer workflows, powered by UiPath enterprise orchestration, accelerating time to value and ROI from their agentic AI efforts. UiPath's best-in-class agentic automation capabilities, OpenAI models, and OpenAI APIs will simplify AI agent development and deployment, allowing users to focus on business goals rather than complexities of the underlying infrastructure and enable process owners to build trust in their AI agents.
- **Launched UiPath Conversational Agent with Google's Gemini Models:** UiPath launched the UiPath Conversational Agent with voice interaction enabled by Google's Gemini models. UiPath customers can now build agentic automation into business processes quickly and seamlessly without the need for complex coding and manual effort.
- **Announced Collaboration with NVIDIA:** UiPath announced a collaboration with NVIDIA to help enterprise customers fortify their existing automated workflows with AI capabilities in high-trust scenarios, such as fraud detection or care management in

healthcare. Combining UiPath's agentic automation expertise with open NVIDIA Nemotron models with NVIDIA NIM empowers organizations to quickly and easily deploy the enterprise-ready AI models as microservices - such as natural language processing, image understanding, and predictive analytics - to accelerate agentic AI adoption and automation for those sensitive workflows efficiently, accurately, and at scale.

- **Partnered with Snowflake for Agent-driven Data Insights:** UiPath announced a partnership with Snowflake, uniting the UiPath Platform™ for agentic automation with Snowflake Cortex AI, empowering businesses to quickly turn data insights into faster and smarter autonomous actions. The combination of UiPath's Agentic Automation Platform and Snowflake's Cortex AI Agents integrates best-in-class enterprise-grade automation with one of the leading modern data platforms. The integration expands the ability of UiPath Maestro to orchestrate low-code, no-code, and other specialized agents.
- **UiPath Named a Leader and Star Performer in the Everest Group Intelligent Process Automation Platform (IPAP) and Full Suite IPAP PEAK Matrix® Assessment 2025:** UiPath was named a Leader and Star Performer in the Everest Group Intelligent Process Automation Platform (IPAP) and Full Suite IPAP Peak Matrix® Assessment 2025, recognized for market impact, product vision, and capability.
- **UiPath Positioned as a Leader in the Gartner® Inaugural Magic Quadrant™ for Intelligent Document Processing<sup>1</sup>:** UiPath was positioned as a Leader in the inaugural Gartner® Magic Quadrant™ for Intelligent Document Processing (IDP)<sup>1</sup>. We believe this recognition reflects UiPath's market-leading vision and the ability to deliver on that vision with its core IDP offerings.
- **UiPath Recognized as a Leader in the Gartner® Magic Quadrant™ for AI-Augmented Software Testing Tools<sup>2</sup>:** UiPath was positioned as a Leader in the Gartner® Magic Quadrant™ for AI-Augmented Software Testing Tools<sup>2</sup>. We believe this recognition highlights the growth and criticality of technologies for agentic testing to ensure software quality, productivity, and market responsiveness.
- **UiPath Platform™ Named to TIME Magazine's "Best Inventions of 2025":** UiPath announced the UiPath Platform™ was named one of TIME's Best Inventions of 2025, an annual list recognizing the world's most groundbreaking inventions making a difference and redefining how we live.
- **Launched Automation Cloud in UAE:** UiPath announced an integration with Microsoft Azure. This new cloud-based enterprise SaaS solution enables private and public sector organizations in UAE to strategically position their infrastructure, applications, and data, while complying with local data residency regulations as they scale up Agentic AI adoption.
- **Achieved ISO 42001 Certification for AI Adoption & Deployment:** UiPath announced UiPath Platform™ certification for the ISO/IEC 42001:2023, the world's first international standard for Artificial Intelligence Management Systems (AIMS) governing how AI technologies are designed, developed, deployed, and continuously improved, reinforcing the built-in governance in the platform to safeguard data, reduce risk, and help organizations adopt and scale agentic automation.
- **Announced UiPath is a Founding Contributor to AIUC-1, Joining AIUC in Promoting Security Standards for Enterprise AI Adoption:** UiPath announced it has become a founding technical contributor to AIUC-1, the leading security framework

for AI agent adoption in the enterprise, to reinforce the framework to ensure high levels of security and trust for enterprises looking to adopt agents into their everyday business-critical processes and workflows.

### **Conference Call and Webcast**

UiPath will host a conference call today, Wednesday, December 3, 2025, at 5:00 p.m. Eastern Time, to discuss the Company's third quarter fiscal 2026 financial results and its guidance for the fourth quarter fiscal 2026. To access this call, dial 1-201-689-8057 (domestic) or 1-877-407-8309 (international). The passcode is 13756820. A live webcast of this conference call will be available on the "Investor Relations" page of UiPath's website (<https://ir.uipath.com>), and a replay will also be archived on the website for one year.

### **About UiPath**

UiPath (NYSE: PATH) is a global leader in agentic automation, empowering enterprises to harness the full potential of AI agents to autonomously execute and optimize complex business processes. The UiPath Platform™ uniquely combines controlled agency, developer flexibility, and seamless integration to help organizations scale agentic automation safely and confidently. Committed to security, governance, and interoperability, UiPath supports enterprises as they transition into a future where automation delivers on the full potential of AI to transform industries. For more information, visit [www.uipath.com](http://www.uipath.com).

## **Forward-Looking Statements**

Statements we make in this press release may include statements which are not historical facts and are considered forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995, which are usually identified by the use of words such as “anticipates,” “believes,” “estimates,” “expects,” “intends,” “may,” “plans,” “possible,” “projects,” “outlook,” “seeks,” “should,” “will,” and variations of such words or similar expressions, including the negatives of these words or similar expressions.

We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are making this statement for purposes of complying with those safe harbor provisions.

These forward-looking statements include, but are not limited to, statements regarding: our financial guidance for the fourth fiscal quarter 2026; our ability to drive and accelerate future growth and operational efficiency and grow our platform, product offerings, and market opportunity; our business strategy; plans and objectives of management for future operations; the estimated addressable market opportunity for our platform and the growth of the enterprise automation market; the success of our platform and new releases including the incorporation of AI; the success of our collaborations with third parties; our customers’ behaviors and potential automation spend; and details of UiPath’s stock repurchase program. Forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause our actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by the forward-looking statements. These risks include, but are not limited to, risks and uncertainties related to: our expectations regarding our revenue, annualized renewal run-rate (ARR), expenses, and other operating results; our ability to effectively manage our growth and achieve or sustain profitability; our ability to acquire new customers and successfully retain existing customers; the ability of the UiPath Platform™ to satisfy and adapt to customer demands and our ability to increase its adoption; our ability to grow our platform and release new functionality in a timely manner; future investments in our business, our anticipated capital expenditures, and our estimates regarding our capital requirements; the costs and success of our marketing efforts and our ability to evolve and enhance our brand; our growth strategies; the estimated addressable market opportunity for our platform and for automation in general; our reliance on key personnel and our ability to attract, integrate, and retain highly-qualified personnel and execute management transitions; our ability to obtain, maintain, and enforce our intellectual property rights and any costs associated therewith; the effect of significant events with macroeconomic impacts, including but not limited to military conflicts and other changes in geopolitical relationships and inflationary cost trends, on our business, industry, and the global economy; our reliance on

third-party providers of cloud-based infrastructure; our ability to compete effectively with existing competitors and new market entrants, including new, potentially disruptive technologies; the size and growth rates of the markets in which we compete; and the price volatility of our Class A common stock.

Further information on risks that could cause actual results to differ materially from our guidance and other forward-looking statements can be found in our Annual Report on Form 10-K for the fiscal year ended January 31, 2025 filed with the United States Securities and Exchange Commission (SEC) on March 24, 2025, and other filings and reports that we may file from time to time with the SEC. Any forward-looking statements contained in this press release are based on assumptions that we believe to be reasonable as of this date. Except as required by law, we assume no obligation to update these forward-looking statements.

### **Key Performance Metric**

Annualized Renewal Run-rate (ARR) is the key performance metric we use in managing our business because it illustrates our ability to acquire new subscription customers and to maintain and expand our relationships with existing subscription customers. We define ARR as annualized invoiced amounts per solution SKU from subscription licenses and maintenance and support obligations assuming no increases or reductions in customers' subscriptions. ARR does not include the costs we may incur to obtain such subscription licenses or provide such maintenance and support. ARR also does not reflect nonrecurring rebates payable to partners (upon establishing sufficient history of their nonrecurring nature), the impact of nonrecurring incentives (such as one-time discounts provided under sales promotional programs), and any actual or anticipated reductions in invoiced value due to contract non-renewals or service cancellations other than for certain reserves (for example those for credit losses or disputed amounts). ARR does not include invoiced amounts associated with perpetual licenses or professional services. ARR is not a forecast of future revenue, which is impacted by contract start and end dates and duration. ARR should be viewed independently of revenue and deferred revenue as ARR is an operating metric and is not intended to replace these items.

Dollar-based net retention rate represents the rate of net expansion of our ARR from existing customers over the preceding 12 months. We calculate dollar-based net retention rate as of a period end by starting with ARR from the cohort of all customers as of 12 months prior to such period end (Prior Period ARR). We then calculate the ARR from these same customers as of the current period end (Current Period ARR). Current Period ARR includes any expansion and is net of any contraction or attrition over the preceding 12 months but does not include ARR from new customers in the current period. We then divide total Current Period ARR by total Prior Period ARR to arrive at dollar-based net retention rate. Dollar-based net retention rate may fluctuate based on the customers that qualify to be included in the cohort used for calculation and may not reflect our actual performance.

Investors should not place undue reliance on ARR or dollar-based net retention rate as an indicator of future or expected results. Our presentation of these metrics may differ from similarly titled metrics presented by other companies and therefore comparability may be limited.

### **Non-GAAP Financial Measures**

Non-GAAP financial measures are financial measures that are derived from the consolidated financial statements, but that are not presented in accordance with generally accepted accounting principles in the United States (GAAP). This earnings press release includes financial measures defined as non-GAAP financial measures by the SEC, including non-GAAP cost of licenses, non-GAAP cost of subscription services, non-GAAP cost of professional services and other, non-GAAP gross profit and margin, non-GAAP sales and marketing expenses, non-GAAP research and development expenses, non-GAAP general and administrative expenses, non-GAAP operating income and margin, and non-GAAP net income and non-GAAP net income per share. These non-GAAP financial measures exclude:

- stock-based compensation expense;
- amortization of acquired intangibles;
- employer payroll tax expense related to employee equity transactions;
- restructuring costs;
- charitable donation of Class A common stock;
- change in fair value of contingent consideration; and
- in the case of non-GAAP net income, release of valuation allowance on deferred tax assets and estimated tax adjustments associated with the add-back items, as applicable.

Additionally, this earnings release presents non-GAAP adjusted free cash flow, which is calculated by adjusting GAAP operating cash flows for the impact of purchases of property and equipment, cash paid for employer payroll taxes related to employee equity transactions, net payments/receipts of employee tax withholdings on stock option exercises, and cash paid for restructuring costs.

UiPath uses these non-GAAP financial measures internally in analyzing its financial results and believes they are useful to investors by excluding the effects of items that do not reflect the ordinary earnings of our operations, and as a supplement to GAAP measures. UiPath believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing its financial results with other companies in UiPath's industry, many of which present similar non-GAAP financial measures to investors. Investors should consider these non-GAAP financial measures in addition to, and not as a substitute for, our financial performance measures prepared in accordance with GAAP. Further, our non-GAAP information may be different from the non-GAAP information provided by other companies. The information below provides a reconciliation of non-GAAP financial measures used in this earnings press release to the most directly comparable GAAP financial measures. We encourage investors to consider our GAAP results alongside our supplemental non-GAAP measures, and to review the reconciliation between GAAP results and non-GAAP measures that is included at the end of this earnings press release. This earnings press release and any future releases containing such non-GAAP reconciliations can also be found on the Investor Relations page of UiPath's website at <https://ir.uipath.com>.
