Management Commentary

"Bookings for the first quarter of fiscal 2020 were consistent with our expectations for the period," said Clearfield CEO, Cheri Beranek. "From a topline perspective, we saw strong contributions from our National Carrier and MSO markets, which were up 33% and 22% year-over-year, respectively. However, our overall revenue results in the first quarter were impacted by the timing of received orders, resulting in a \$1.6 million increase in backlog over the prior quarter. We remain confident with respect to reaching our previously stated financial guidance for the fiscal year."

"From an efficiency standpoint, we increased our gross profit margin to 39.9%, reflecting operating enhancements in multiple product categories. In fact, this quarter marked our best margin performance for any quarter out of the past seven."

"We are encouraged by this margin expansion, yet recognize we must continually drive down costs as we expand our presence in broader markets. To address this need and to ensure the capacity required for the growth initiatives we are pursuing, we are in the process of signing a lease for a second manufacturing facility in Mexico. This 50,000 square foot facility, which is in the same industrial park as our current Mexico facility, will double our footprint. We aim to establish enhanced lean manufacturing initiatives by dedicating one facility to connectivity and the other to splicing operations associated with our enclosures."

"As it relates to our 'Coming of Age' plan, we are continuing to execute within each of our three mandates and we are especially gaining increased visibility within our third initiative, which involves capitalizing on our 5G opportunities within the wireline markets of National Carriers and all wireless markets. As we look into fiscal Q2, we believe we are entering an early stage of realizing Tier 1 revenue, which is directly tied in with 5G deployment and the hand-off between the wireline and wireless network."

"Based on increased traction with Tier 1 carriers, our robust order backlog and pipeline, we continue to believe fiscal 2020 will be a period of solid growth and profitability for Clearfield, especially in the second half of the year. Going forward, we are well positioned with industry-leading solutions, a strong competitive position, and a proven business model to capitalize on the disruptive growth opportunities within the fiber optics industry."

Financial Results for the Quarter Ended December 31, 2019

Revenue for the first quarter of fiscal 2020 decreased 4% to \$19.4 million from \$20.1 million in the same year-ago quarter. The product mix during the period was relatively consistent with last year with the exception of the company's Active Cabinet products which showed a revenue decline for the period.

Gross profit decreased 3% to \$7.7 million, or 39.9% of revenue, from \$7.9 million, or 39.6% of revenue, in the first quarter of fiscal 2019. The decrease in gross profit was due to decreased sales volume in the period. The increase in gross profit percent was due to cost reduction efforts across the product lines, including expanded use of the

Company's Mexico manufacturing plant, supply chain programs, and initiatives to reduce the impact of tariffs for products sourced from China.

Operating expenses were \$7.3 million, an increase of 8% compared to \$6.8 million in the same year-ago quarter. The increase in operating expenses was primarily due to an expansion of sales resources and the costs associated with product testing required for Tier 1 certification.

Income from operations in the first quarter of fiscal 2020 totaled \$0.4 million compared to \$1.2 million in the same year-ago quarter. This decrease in income from operations was attributable to higher selling, general and administrative expenses. Income tax expense decreased 58% from \$296,000 in the first quarter of fiscal 2019 to \$123,000 in the first quarter of fiscal 2020, primarily due to lower taxable income as well as a lower effective tax rate.

Net income in the first quarter of fiscal 2020 totaled \$501,000, or \$0.04 per diluted share, compared to \$1.0 million, or \$0.08 per diluted share, in the same year-ago quarter.

As of December 31, 2019, cash, cash equivalents and investments totaled \$46.8 million compared to \$47.5 million as of the end of the prior quarter. The Company had no debt as of quarter end.

Order backlog (defined as purchase orders received but not yet fulfilled) as of December 31, 2019 increased 37% to \$5.8 million from \$4.2 million as of September 30, 2019 and increased 31% from \$4.4 million as of December 31, 2018. The increase in backlog was primarily from customers within the Company's Community Broadband market.

Fiscal 2020 Financial Outlook

Clearfield reiterates its revenue guidance for fiscal 2020 to be between \$92 million and \$95 million. The Company also reiterates its gross profit as a percentage of total revenue to range between 37% and 38%, with some variability on a quarter-to-quarter basis. In addition, Clearfield reiterates its operating expense guidance to be between 31% and 33% of total revenue, and net income as a percentage of revenue to be between 3% and 5%.

Cautionary Statement Regarding Forward-Looking Information

Forward-looking statements contained herein and in any related presentation or in the related FieldReport are made

pursuant to the safe harbor provisions of the Private Litigation Reform Act of 1995. Words such as “may,” “will,” “expect,” “believe,” “anticipate,” “estimate,” “outlook,” or “continue” or comparable terminology are intended to identify forward-looking statements. Such forward looking statements include, for example, statements about the Company’s future revenue and operating performance, integration of the acquired active cabinet line, trends in and growth of the FTTx markets, market segments or customer purchases, effectiveness of the Company’s sales and marketing strategies and organization, utilization of manufacturing capacity, and the development and marketing of products. These statements are based upon the Company’s current expectations and judgments about future developments in the Company’s business. Certain important factors could have a material impact on the Company’s performance, including, without limitation: to compete effectively, we must continually improve existing products and introduce new products that achieve market acceptance; our expected growth is based upon the expansion of the telecommunications market; our operating results may fluctuate significantly from quarter to quarter, which may make budgeting for expenses difficult and may negatively affect the market price of our common stock; our success depends upon adequate protection of our patent and intellectual property rights; intense competition in our industry may result in price reductions, lower gross profits and loss of market share; we rely on single-source suppliers, which could cause delays, increases in costs or prevent us from completing customer orders, all of which could materially harm our business; a significant percentage of our sales in the last three fiscal years have been made to a small number of customers, and the loss of these major customers or significant decline in business with these major customers would adversely affect us; further consolidation among our customers may result in the loss of some customers and may reduce sales during the pendency of business combinations and related integration activities; we may be subject to risks associated with acquisitions that could adversely affect future operating results; product defects or the failure of our products to meet specifications could cause us to lose customers and sales or to incur unexpected expenses; we are dependent upon key personnel; we face risks associated with expanding our sales outside of the United States; our business is dependent on effective management information systems and information technology infrastructure; our results of operations could be adversely affected by economic conditions and the effects of these conditions on our customers’ businesses; changes in government funding programs may cause our customers and prospective customers to delay or reduce purchases; and other factors set forth in Part I, Item 1A. Risk Factors of Clearfield’s Annual Report on Form 10-K for the year ended September 30, 2019 as well as other filings with the Securities and Exchange Commission.
