

Intellinetics Expands Offering in K-12 Market

Intelligent Data Processing Solution has a Strong Launch

COLUMBUS, Ohio--(BUSINESS WIRE)-- Intellinetics, Inc. ([NYSE American: INLX](#)), a digital transformation solutions provider, today announced a successful launch of a solution which expands its footprint in the K-12 Education vertical market.

Powered by AI, the Intelligent Data Processing solution virtually eliminates all paper and manual steps in the scanning, capture, indexing, and filing of a school district's AP Invoices and automates the approval process while improving transparency and audit capabilities. Administrative staff realize an immediate time savings following the extremely short implementation period, usually just a couple of weeks. The solution is an advanced capture tool that leverages the intellectual property of out Intellinetics' content management and payables automation solutions, without the complexity of the general ledger coding, and is fully agnostic to any end point GL or ERP system.

Following effective new marketing and messaging, and leveraging strong partner channel relationships and customer testimonials, the pre-launch marketing campaign culminated in a webinar in October conducted in partnership with Software Unlimited, Inc. (SUI), a major software developer of fund accounting solutions tailored to meet the state specific reporting requirements for K-12 schools. The webinar was attended by 67 different school districts and drove sales of 24 orders in the weeks that followed, adding numerous opportunities to the pipeline.

"I'm extremely encouraged by this launch," said [James F. DeSocio](#), President & CEO of Intellinetics. "We have a solution that hits square in the center of a market pain point, and it is cost-effective and low-risk for customers to implement. The initial response following the webinar was so strong that we needed to assign other resources to address the interest it generated. This Intelligent Data Processing solution, and other similar solutions and enhancements, will have a clear, positive impact on our future."
