Dividend Information

The Board has declared a quarterly cash dividend of \$0.23 per share for the quarter ending March 31, 2022. This represents a 4.5% increase from the fourth quarter dividend of 2021.

The Company's first quarter 2022 dividend will be payable as follows:

First Quarter 2022 Dividend:

Amount per share:	\$0.23
Record date:	February 16, 2022

Dividend Reinvestment Plan

Barings BDC has adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends and distributions on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend or distribution, stockholders who have not opted out of the DRIP will have their cash dividends or distributions automatically reinvested in additional shares of the Company's common stock, rather than receiving cash.

When the Company declares and pays dividends and distributions, it determines the

allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes. The tax status of the Company's distributions can be found on the Investor Relations page of its website.
