"We are excited to introduce the PowerView™ U150 as the pinnacle of marine display technology," said Josef Matosevic, President and Chief Executive Officer of Helios. "Our partnership with Nautique, a renowned brand in the boating industry, ensures that the PowerView™ U150 is seamlessly integrated into their recreational boats. This collaboration combines Enovation Controls' expertise in control solutions with Nautique's commitment to delivering exceptional boating experiences."

“We have been working closely with Enovation Controls, a Helios Technologies company, for over a decade and value their dedication to technology and quality leadership. Over this time our partnership has delivered innovative, market driving products that have shaped the marine industry,” said Greg Meloon, President of Nautique Boat Company. “We are thrilled to bring yet another innovation to market in 2024 on our flagship Paragon Series boats with dual 15-inch, high resolution display interfaces on the helm!”

Key Features of the PowerView™ U150:

- **Dual 15-Inch High-Resolution Displays**: With two of the PowerView™ U150 displays, boaters are provided an immersive and comprehensive view of navigation, entertainment, and system monitoring.
- **Flawless Integration with Nautique's Paragon Series**: The PowerView™ U150 is easily integrated into the helm of Paragon Series boats, enhancing the luxurious aesthetics and functionality of the onboard experience.
- **User-Friendly Interface**: The rugged and waterproof touchscreen interface offers an intuitive and user-friendly experience.
- **Highly Connected:** The PowerView™ U150 comes equipped with advanced connectivity options for real-time data sharing and control.

- **Optimal Visibility**: Equipped with high-brightness and anti-glare technology, the PowerView™ U150 guarantees optimal visibility, ensuring a safe and enjoyable navigation even in bright sunlight.

About Nautique
Nautique is celebrating its 99th anniversary of delivering excellence in the marine industry.
