Helios Technologies Launches Purezone™, Bringing Smart Water to the Spa Experience

SARASOTA, Fla.--(BUSINESS WIRE)-- Helios Technologies, Inc. (NYSE: HLIO) (“Helios” or the “Company”), a global leader in highly engineered motion control and electronic control technologies, today announced the launch of Purezone™, an advanced water quality management solution now available through its operating company Balboa Water Group. Designed in collaboration with WaterGuru, Purezone™ delivers a smarter, simpler, and more connected way to manage spa water quality for users across the wellness industry.

This press release features multimedia. View the full release here: https://www.businesswire.com/news/home/20250603179897/en/

Purezone™ Dock & Purezone™ Hover models with Purezone™ App

Purezone™ is a compact, intelligent in-spa water monitoring device that takes the guesswork out of spa maintenance. It measures key water parameters: pH, free chlorine, total alkalinity, and temperature providing real-time insights and personalized recommendations delivered on the Purezone™ mobile app to help users maintain optimal water quality with ease and confidence.

“Helios Technologies is committed to advancing wellness through connected solutions,” said Sean Bagan, President, Chief Executive Officer and Chief Financial Officer of Helios. “Purezone™ exemplifies this vision, offering spa owners a smart, reliable, and intuitive way to manage their water chemistry. It is a breakthrough for users, OEMs and retailers alike.”

To accommodate a variety of spa configurations, Purezone™ is available in two models:

- Purezone™ Dock which mounts securely to the spa wall for a sleek, low-profile installation and usually fits easily in the filter well.
- Purezone™ Hover that floats freely in the water for easy placement and flexibility.

Both models offer the same intelligent monitoring capabilities, allowing users to choose the setup that best fits their spa environment.

“Purezone™ reflects our continued commitment to delivering health-driven, data-enabled wellness solutions,” said Jean-Pierre “JP” Parent, SVP, Managing Director – Balboa Water Group. “It offers a high-value feature for OEMs, spa builders, and consumers creating a spa experience that’s not just relaxing, but reassuring.”

This technology enables spa owners to consistently attain healthy spa water by fully automating the monitoring of spa water chemistry, with real-time data on the mobile app. For

commercial applications, property and hotel managers overseeing multiple spas, viewing their water health data in a real-time single dashboard is a game changer for detecting and eliminating water quality issues.

About Balboa Water Group

Balboa Water Group is a leading and innovative manufacturer of electronic control systems, pumps, and components for the global spa and wellness industry.
