### **About Viveve**

Viveve Medical, Inc. is a medical technology company focused on women's intimate health. Viveve is committed to advancing new solutions to improve women's overall well-being and quality of life. The internationally patented Viveve® System incorporates CMRF technology to uniformly deliver volumetric heating while gently cooling surface tissue to generate neocollagenesis in a single in-office session. In the United States, the Viveve System is cleared by the Food and Drug Administration (FDA) for use in general surgical procedures for electrocoagulation and hemostasis. International regulatory approvals and clearances have been received for vaginal laxity and/or improvement in sexual function indications in more than 50 countries.

Viveve continues to advance its clinical development program in SUI. The positive topline results reported from the 3-arm feasibility study and the preclinical study outcomes are intended to support the initiation of the pivotal PURSUIT Trial and strengthen its potential to achieve its primary efficacy endpoint. As announced on July 7, 2020, Viveve received FDA approval of its Investigational Device Exemption application to conduct the multicenter, randomized, double-blinded, sham-controlled PURSUIT Trial for improvement of SUI in women.
