Perma-Fix Announces Results for the First Quarter of Fiscal 2008

ATLANTA, May 8 /PRNewswire-FirstCall/ -- Perma-Fix Environmental Services, Inc. (Nasdaq: PESI) today announced results for the first quarter ended March 31, 2008.

Dr. Louis F. Centofanti, Chairman and Chief Executive Officer, stated, "Revenues within our Nuclear Segment increased by 13 percent over the same period last year, aided by the acquisition of our new Perma-Fix Northwest facility during the second quarter of 2007. This was offset by a decline in gross margin, attributable to the shift in product mix towards lower margin waste streams. This shift in product mix was largely due to the continued slowdown of several large projects within the Department of Energy (DOE) as the new bidding cycle is underway. Nevertheless, these cycles have presented opportunities for Perma-Fix to expand beyond our core niche of nuclear waste treatment. Specifically, we have bid on several projects for onsite management of DOE facilities. We believe that the onsite advantage will provide Perma-Fix with the ability to accurately assess waste streams early in the disposal cycle. This unique expertise will not only help to accelerate the cleanup process, but in turn, we believe should expedite the flow of waste sent to our four treatment facilities. Whether or not we win these onsite contracts, we anticipate the DOE will accelerate its cleanup efforts in the second half of 2008. We believe we are uniquely positioned to capture a portion of the planned waste treatment at these sites, since we are the only commercial operator with the licenses and facilities to treat most mixed waste streams that reside in the DOE weapons complex."

Dr. Centofanti continued, "We have made progress regarding the divestiture of our industrial waste business. In the first quarter, we sold both Baltimore, Maryland and Dayton, Ohio facilities for a combined \$6.0 million in all-cash transactions, subject to certain working capital adjustments, including the assumption of certain liabilities by the purchasers. Our goal is to sell the remaining facilities on the industrial side of our business to focus all our resources and attention on the higher margin nuclear waste sector. As previously reported, the Industrial Segment of Perma-Fix has been re-classified as discontinued operations. Under this scenario, we have absorbed a much higher percentage of the corporate overhead within our Nuclear Segment, but plan to adjust these expenses following the divestiture of the remainder of the Industrial Segment."

Financial Results

Revenue for the first quarter of 2008 was \$14.9 million, versus \$12.9 million for the same period last year. Revenue for the Nuclear Segment increased to \$14.0 million versus \$12.3 million for the same period last year. Revenue from the Engineering Segment was \$902,000 versus \$577,000 for the same period last year. Operating loss from continuing operations for the first quarter was \$328,000 versus operating income of \$583,000 for the same period last

year. The decrease in operating income primarily reflects the lower margin waste treated within the Nuclear Segment. Loss from discontinued operations, net of taxes, totaled \$710,000 for the first quarter of 2008 compared to a loss of \$1.7 million for the same period last year. Net income applicable to common stockholders for the first quarter of 2008 was \$1.1 million, or \$0.02 per share, versus net loss of \$1.1 million or \$0.02 per share, for the same period last year. Net income applicable to common stockholders for the first quarter of 2008 included a gain on disposal of discontinued operations, net of taxes, of \$2.1 million.

The company had EBITDA of \$2.6 million during the quarter ended March 31, 2008, as compared to EBITDA of approximately \$.5 million for the same period of 2007. The company defines EBITDA as earnings before interest, taxes, depreciation and amortization. EBITDA is not a measure of performance calculated in accordance with accounting principles generally accepted in the United States ("GAAP"), and should not be considered in isolation of, or as a substitute for, earnings as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. The company believes the presentation of EBITDA is relevant and useful by enhancing the readers' ability to understand the company's operating performance. The company's management utilizes EBITDA as a means to measure performance. The company's measurements of EBITDA may not be comparable to similar titled measures reported by other companies. The table below reconciles EBITDA, a non-GAAP measure, to net income for the three months ended March 31, 2008 and 2007.

(In thousands)	Quarter Ended March 31,	
	2008	2007
Net (loss) Income	\$1,069	\$ (1,084)
Adjustments:		
Depreciation & Amortization	1,121	1,217
Interest Income	(68)	(88)
Interest Expense	392	254
Interest Expense - Financing Fees	52	48
Income Tax Expense	45	126
EBITDA	\$2,611	\$473

The tables below present certain financial information for the business segments, excluding allocation of corporate expenses:

	Nuclear	Engineering	Nuclear	Engineering
Net revenues	\$13,981	\$902	\$12,344	\$577
Gross profit	3,554	255	4,431	169
Segment profit	976	128	2,011	49

About Perma-Fix Environmental Services

Perma-Fix Environmental Services, Inc., a national environmental services company,

provides unique mixed waste and industrial waste management services. The company's increased focus on nuclear services includes radioactive and mixed waste treatment services for hospitals, research labs and institutions, federal agencies, including DOE, DOD, and nuclear utilities. The company's industrial services treat hazardous and non-hazardous waste for a variety of customers including, Fortune 500 companies, federal, state and local agencies and thousands of other clients. Nationwide, the company operates nine major waste treatment facilities.

This press release contains "forward-looking statements" which are based largely on the company's expectations and are subject to various business risks and uncertainties, certain of which are beyond the company's control. Forward-looking statements include, but are not limited to, onsite management of DOE facilities will provide Perma-Fix with the ability to accurately access waste streams early in the disposal cycle; this will help to accelerate the clean-up process and flow of waste sent to our facilities; we are uniquely positioned to capture a portion of the planned waste treatment; sell the remaining facilities within our Industrial Segment; adjust expenses following divestiture of remainder of the Industrial Segment; new onsite contracts representing growth opportunity outside our traditional markets and increase the flow of waste to us; new opportunities for Perma-Fix to expand beyond a core niche of nuclear waste treatment; anticipate DOE will accelerate its cleanup efforts in the second half of 2008. These forward-looking statements are intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. While the company believes the expectations reflected in this news release are reasonable, it can give no assurance such expectations will prove to be correct. There are a variety of factors which could cause future outcomes to differ materially from those described in this release, including, without limitation, future economic conditions; industry conditions; competitive pressures; and our ability to apply and market our technologies; that neither the federal government nor any other party to a subcontract involving the federal government terminates or renegotiates any material contract granted to us prior to expiration of the term of the contract, as such contracts are generally terminable or renegotiable on 30 day notice, at the government's option; or the government or such other party to a contract granted to us fails to abide by or comply with the contract or to deliver waste as anticipated under the contract; that Congress provides funding for the new remediation projects; and the additional factors referred to under "Special Note Regarding Forward-Looking Statements" of our 2007 Form 10-K/A and the Forward-Looking Statements discussed in our Form 10-Q for the quarter ending March 31, 2008.. The company makes no commitment to disclose any revisions to forward-looking statements, or any facts, events or circumstances after the date hereof that bear upon forward- looking statements.
