DETAILED FINANCIALS

ServisFirst Bancshares, Inc. reported net income and net income available to common stockholders of \$40.4 million for the quarter ended June 30, 2020, compared to net income and net income available to common stockholders of \$35.6 million for the same quarter in 2019. Basic and diluted earnings per common share were \$0.75 and \$0.75, respectively, for the second quarter of 2020, compared to \$0.67 and \$0.66, respectively, for the second quarter of 2019.

Annualized return on average assets was 1.55% and annualized return on average common stockholders' equity was 18.40% for the second quarter of 2020, compared to 1.69% and 18.72%, respectively, for the second quarter of 2019.

Net interest income was \$83.2 million for the second quarter of 2020, compared to \$77.6 million for the first quarter of 2020 and \$70.1 million for the second quarter of 2019. The net interest margin in the second quarter of 2020 was 3.32% compared to 3.58% in the first quarter of 2020 and 3.44% in the second quarter of 2019. Origination of PPP loans and increased excess liquidity drove unfavorable rate and mix changes while lower deposit rates and increases in noninterest bearing demand balances drove favorable rate and mix changes, respectively. Accretion of net fees on PPP loans of \$2.6 million during the second quarter of 2020 offset the decrease in loan yield by approximately 12 basis points.

Average loans for the second quarter of 2020 were \$8.33 billion, an increase of \$972.6 million, or 52% annualized, over average loans of \$7.36 billion for the first quarter of 2020, and an increase of \$1.54 billion, or 23%, over average loans of \$6.79 billion for the second quarter of 2019. We originated over 4,800 PPP loans during the second quarter of 2020 for a total of \$1.05 billion. Average total balances of PPP loans for the second quarter of 2020 were \$885.5 million. Excluding PPP loans, average loans for the second quarter of 2020 were \$7.45 billion, an increase of \$87.0 million over average loans for the first quarter of 2020, and an increase of \$659.1 million, or 10%, over average loans for the second quarter of 2019.

Average total deposits for the second quarter of 2020 were \$8.87 billion, an increase of \$1.23 billion, or 64% annualized, over average total deposits of \$7.64 billion for the first quarter of 2020, and an increase of \$1.69 billion, or 24%, over average total deposits of \$7.18 billion for the second quarter of 2019.

Nonperforming assets to total assets were 0.26% for the second quarter of 2020, a decrease of 18 basis points compared to 0.44% for the first quarter of 2020 and a decrease of 17 basis points compared to 0.43% for the second quarter of 2019. Annualized net charge-offs to average loans were 0.20%, a six basis-point decrease compared to 0.26% for the first quarter of 2020 and a decrease of two basis points compared to 0.22% for the second quarter of 2019. We recorded a \$10.3 million provision for loan losses in the second quarter of 2020 compared to \$13.6 million in the first quarter of 2020 and \$4.9 million in the second quarter of 2019. The allowance for loan loss as a percentage of total loans was 1.10% at June 30, 2020, a decrease of 3 basis points compared to 1.13% at March 31, 2020 and an increase of 8 basis points compared to 1.02% at June 30, 2019. Excluding PPP loans, the allowance for loan loss as a percentage of total loans was 1.26% at June 30, 2020. The CARES Act, passed into law on March 27, 2020 as a result of the COVID-19 outbreak, allows companies to delay their adoption of Accounting Standards Update (ASU) 2016-13, *Measurement of Credit Losses on Financial Instruments* (CECL), including the current expected credit losses methodology for estimating allowances for credit losses. We have elected to delay adoption of ASU 2016-13 until the date on which the national emergency concerning the COVID-19 outbreak terminates or December 31, 2020, with an effective retrospective implementation date of January 1, 2020. In management's opinion, the allowance is adequate and was determined by consistent application of ServisFirst Bank's methodology for calculating its allowance for loan losses.

Noninterest income for the second quarter of 2020 increased \$1.2 million, or 22%, to \$7.0 million from \$5.8 million in the second quarter of 2019. Mortgage banking revenue increased \$1.0 million, or 94%, from the second quarter of 2019 to the second quarter of 2020. Mortgage loan origination volumes increased approximately 65% during the second quarter of 2020 when compared to the same quarter in 2019. Additionally, more of the originations in 2020 were sellable loans, driving higher gains on sale. Credit card revenue decreased \$343,000, or 20%, to \$1.4 million during the second quarter of 2020, compared to \$1.7 million during the second quarter of 2019. The amount of spend on purchase cards increased \$20.5 million while the amount of spend on business credit cards decreased \$14.3 million during the second quarter of 2020 when compared to the second quarter of 2019. Purchase card spend carries lower profit margins than credit cards due to their higher rebates. Income on life insurance policies increased \$686,000, or 88%, to \$1.5 million during the second quarter of 2019. Other income for the second quarter of 2020 decreased \$151,000, or 39%, to \$241,000 from \$392,000 in the second quarter of 2019. On May 4, 2020 we bought an interest rate cap with a term of three years and a notional amount of \$300 million. The cap is tied to one-month LIBOR with a strike rate of 0.50%. We wrote down the value of the cap by \$252,000 during the second quarter of 2020 through other income and are amortizing the fee paid to our counterparty over the life of the cap.

Noninterest expense for the second quarter of 2020 increased \$2.8 million, or 11%, to \$28.8 million from \$26.0 million in the second quarter of 2019, and increased \$896,000, or 3%, on a linked quarter basis. Salary and benefit expense for the second quarter of 2020 increased \$1.5 million, or 10%, to \$15.8 million from \$14.3 million in the second quarter of 2019, and increased \$134,000, or 1%, on a linked quarter basis. Costs to originate PPP loans totaling \$2.4 million were incurred during the second quarter of 2020. These costs were credited against salary and benefits as a deferred expense and will be amortized over the life of the loans by netting them against accretion of deferred origination fees. Bonuses of approximately \$2.5 million were paid during the second quarter of 2020 related to work performed on the PPP. Additional bonuses of \$71,000 were paid to front-line employees who continued to assist customers during the peak of the pandemic. Equipment and occupancy expense increased \$147,000, or 6%, to \$2.4 million in the second quarter of 2020, from \$2.3 million in the second quarter of 2019. Third party processing expenses increased \$789,000, or 29%, to \$3.5 million in the second quarter of 2020, from \$2.7 million in the second quarter of 2019. Limited-term licenses were added to our loan origination systems to enable more employees to assist customers with their PPP loans. These licenses added \$514,000 to third party processing expenses during the second quarter of 2020. Professional services expense decreased \$100,000, or 8%, to \$1.1 million in the second quarter of 2020, from \$1.2 million in the second quarter of 2019, and increased \$143,000, or 15%, from \$948,000 on a linked-quarter basis. FDIC and other regulatory assessments decreased \$486,000, or 45%, to \$595,000 in the second quarter of 2020, from \$1.1 million in the second quarter of 2019. Lower growth in assets during the second quarter of 2020, excluding PPP loans, resulted in us adjusting our accrual for assessments to be paid at the end of the third quarter of 2020. Expenses associated with other real estate owned increased \$1.1 million to \$1.3 million in the second quarter of 2020, from \$212,000 in the second quarter of 2019. Updated appraisals resulted in write-downs in values on two properties in our Birmingham, Alabama market. Other operating expenses for the second quarter of 2020 decreased \$100,000, or 2%, to \$4.1 million from \$4.2 million in the second quarter of 2019, and increased \$452,000, or 12%, on a linked-quarter basis. The efficiency ratio was 31.92% during the second quarter of 2020 compared to 34.30% during the second quarter of 2019 and compared to 33.11% during the first quarter of 2020.

Income tax expense increased \$1.4 million, or 15%, to \$10.7 million in the second quarter of 2020, compared to \$9.3 million in the second quarter of 2019. Our effective tax rate was 20.95% for the second quarter of 2020 compared to 20.74% for the second quarter of 2019. State of Alabama tax credit investments matured at the end of 2019, causing our state credit amounts to decrease from \$497,000 during the second quarter of 2020. We recognized a reduction in provision for income taxes resulting from excess tax benefits from the exercise and vesting of stock options and restricted stock during the second quarters of 2020 and 2019 of \$136,000 and \$186,000, respectively.
