GAAP Reconciliation and Management Explanation of Non-GAAP Financial Measures

This press release contains certain non-GAAP financial measures, including adjusted net income, adjusted net income available to common stockholders, adjusted diluted earnings per share, adjusted return on average assets, adjusted return on average common stockholders' equity, and adjusted efficiency ratio. We recorded a one-time expense of \$7.2 million in the fourth quarter of 2023 associated with the FDIC's special assessment to recapitalize the Deposit Insurance Fund following bank failures in the spring of 2023. This assessment was updated in the first quarter of 2024 resulting in additional expense of \$1.8 million. We recognized an \$8.6

million loss on sale of available-for-sale debt securities in non-interest income during the second quarter of 2025. We reversed a \$2.3 million legal reserve from interest expense during the second quarter of 2025 as a result of restructuring the portfolio. These adjustments to our results are unusual, or infrequent, in nature and are not considered to be part of our non-interest expense, non-interest income and interest expense run rates, respectively. Each of adjusted net income, adjusted net income available to common stockholders, adjusted diluted earnings per share, adjusted return on average assets, adjusted return on average common stockholders' equity and adjusted efficiency ratio excludes the impact of these items, net of tax, and are all considered non-GAAP financial measures. This press release also contains the non-GAAP financial measures of tangible common stockholders' equity, total tangible assets, tangible book value per share and tangible common equity to total tangible assets, each of which excludes goodwill associated with our acquisition of Metro Bancshares, Inc. in January 2015.

We believe these non-GAAP financial measures provide useful information to management and investors that is supplementary to our financial condition, results of operations and cash flows computed in accordance with GAAP; however, we acknowledge that these non-GAAP financial measures have a number of limitations. As such, you should not view these disclosures as a substitute for results determined in accordance with GAAP, and they are not necessarily comparable to non-GAAP financial measures that other companies, including those in our industry, use. The following reconciliation table provides a more detailed analysis of the non-GAAP financial measures as of and for the comparative periods presented in this press release.
