

Rexford Industrial Announces Third Quarter 2023 Financial Results

LOS ANGELES, Oct. 18, 2023 /PRNewswire/ -- Rexford Industrial Realty, Inc. (the "Company" or "Rexford Industrial") (NYSE: REXR), a real estate investment trust ("REIT") focused on creating value by investing in and operating industrial properties within Southern California infill markets, today announced financial and operating results for the third quarter of 2023.

Third Quarter 2023 Financial and Operational Highlights:

- Net income attributable to common stockholders of \$56.3 million, or \$0.27 per diluted share, as compared to \$36.8 million, or \$0.21 per diluted share, for the prior year quarter.
- Company share of Core FFO of \$115.0 million, an increase of 33.5% as compared to the prior year quarter.
- Company share of Core FFO per diluted share of \$0.56, an increase of 12.0% as compared to the prior year quarter.
- Consolidated Portfolio Net Operating Income (NOI) of \$156.1 million, an increase of 27.0% as compared to the prior year quarter.
- Same Property Portfolio NOI increased 8.9% and Same Property Portfolio Cash NOI increased 9.5% as compared to the prior year quarter.
- 97.8% Average Same Property Portfolio occupancy.
- Comparable rental rates on 1.5 million rentable square feet of new and renewal leases increased by 64.8% compared to prior rents on a GAAP basis and by 51.4% on a cash basis.
- Completed six acquisitions for an aggregate purchase price of \$314.8 million.
- Ended the quarter with a low-leverage balance sheet measured by a net debt-to-enterprise value ratio of 16.7%.

"Rexford Industrial's third quarter results continue to demonstrate the strength of our value creation driven business model, our entrepreneurial team and the favorable long-term tenant demand fundamentals associated with our infill Southern California industrial markets," stated Michael Frankel and Howard Schwimmer, Co-Chief Executive Officers of the Company. "In the third quarter, our team increased Core FFO by 33% and Core FFO per diluted share by 12% compared to the prior year quarter. The Company's differentiated, high-quality portfolio delivered superior results driving 434,000 square feet of positive net absorption, equal to 100 basis points, through the execution of 1.5 million square feet of leases generating leasing spreads of 65% and 51% on a GAAP and cash basis, respectively. As we look forward, the Company remains well-positioned with an estimated 33% embedded cash NOI growth within our in-place portfolio realizable over the subsequent two years. The Company's unique positioning includes a near-term pipeline of over 4.0 million square feet of value-add repositioning and redevelopment projects projected to deliver an aggregate 6.4% unlevered stabilized yield on total investment. We are also well-positioned as we continue to roll expiring leases to higher market rents, capitalizing upon today's 56% net effective mark-to-market comparing our in-place lease rates to current market rental rates. In addition, we have completed approximately \$1.2 billion of accretive investments year-to-date with approximately \$400 million of additional investments under contract or accepted offer, which are subject to customary closing conditions. Looking forward, our investment grade, low-leverage balance sheet favorably positions the Company to capitalize upon our value creation strategies and opportunities on behalf of our stakeholders."

Forward Looking Statements:

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, they are not guarantees of future performance. In addition, projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described above. These and other factors could cause results to differ materially from those expressed in our estimates and beliefs and in the estimates prepared by independent parties. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2022, and other filings with the Securities and Exchange Commission. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

Definitions / Discussion of Non-GAAP Financial Measures:

Funds from Operations (FFO): We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, gains (or losses) from sales of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs and amortization of above/below-market lease intangibles) and after adjustments for unconsolidated joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below in the Financial Statements and Reconciliations section. "Company Share of FFO" reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Core Funds from Operations (Core FFO): We calculate Core FFO by adjusting FFO for non-comparable items outlined in the "Reconciliation of Net Income to Funds From Operations and Core Funds From Operations" table which is located in the Financial Statements and Reconciliations section below. We believe that Core FFO is a useful supplemental measure and that by adjusting for items that are not considered by the Company to be part of its on-going operating performance, provides a more meaningful and consistent comparison of the Company's operating and financial performance period-over-period. Because these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs' Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. "Company Share of Core FFO" reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company Share of Core FFO per Diluted Share Guidance:

The following is a reconciliation of the Company's 2023 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2023 Estimate	
	Low	High
Net income attributable to common stockholders	\$ 1.06	\$ 1.08
Company share of depreciation and amortization	1.16	1.16
Company share of gains on sale of real estate	(0.06)	(0.06)
Company share of FFO	\$ 2.16	\$ 2.18

Net Operating Income (NOI): NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as rental income from real estate operations less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

Cash NOI: Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI: (i) fair value lease revenue and (ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

Same Property Portfolio: Our 2023 Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly owned by us for the period from January 1, 2022 through September 30, 2023, and excludes (i) properties that were acquired or sold during the period from January 1, 2022 through September 30, 2023, and (ii) properties acquired prior to January 1, 2022 that were or will be classified as repositioning/redevelopment (current and future) or lease-up during 2022 and 2023 and select buildings in "Other Repositioning," which we believe will significantly affect the properties' results during the comparative periods. As of September 30, 2023, our 2023 Same Property Portfolio consists of buildings aggregating 32,496,313 rentable square feet at 256 of our properties.

Properties and Space Under Repositioning: Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy. We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work.

Net Debt to Enterprise Value: As of September 30, 2023, we had consolidated indebtedness of \$2.2 billion, reflecting a net debt to enterprise value of approximately 16.7%. Our enterprise value is defined as the sum of the liquidation preference of our outstanding preferred stock and preferred units plus the market value of our common stock excluding shares of nonvested restricted stock, plus the aggregate value of common units not owned by us, plus the value of our net debt. Our net debt is defined as our consolidated indebtedness less cash and cash equivalents.
