- The Company ended the quarter with low leverage measured by a debt-to-enterprise value ratio of 11.1%.
- During the second quarter of 2019, the Company acquired 16 industrial properties for an aggregate purchase price of \$340.0 million.
- During the second quarter of 2019, the Company sold one industrial property for a sales price of \$11.6 million.

"We are very pleased with our second quarter results as we continue to drive organic and external growth through our focused strategy within the infill Southern California industrial market, with Core FFO growth of 40.1%, and 11.1% on a per share basis," stated Michael Frankel and Howard Schwimmer, Co-Chief Executive Officers of the Company. "Our exceptional performance across all fronts reflects the quality of our team, the strength and execution of our value-driven business model, and our ability to capitalize upon the superior market and tenant demand fundamentals within the infill Southern California industrial market. We've so far completed \$489 million of acquisitions year-to-date through 16 transactions, bringing our consolidated portfolio to 23.9 million square feet. We closed the quarter with a fortress-like, low-leverage balance sheet as measured by Company debt-to-enterprise value of about 11.1%, which positions us well to capitalize upon emerging opportunities as we work to drive cashflow growth and shareholder value over the long term."

In May 2019, the Company acquired:

- 15385 Oxnard Street, a 100% leased single-tenant industrial building, containing 71,467 square feet on 4.9 acres of land, located in the Los Angeles - San Fernando Valley submarket, for \$16.8 million or \$235 per square foot;
- 9750-9770 San Fernando Road, a 100% leased 2.69 acre paved land site, located in the Los Angeles - San Fernando Valley submarket, for \$7.4 million or \$63 per land square foot; and

- 218 South Turnbull Canyon Road, a 100% leased single-tenant industrial building, containing 190,900 square feet on 8.79 acres of land, located in the Los Angeles - San Gabriel Valley submarket, for \$27.1 million or \$142 per square foot.

In June 2019, the Company acquired a fully entitled development site, containing 15.47 acres of land, located in the Inland Empire West submarket, for \$18.2 million plus an additional \$5 million held back in escrow to be released to the seller/developer upon meeting certain development milestones.

In June 2019, the Company sold 2350-2384 Orangethorpe Avenue and 1631 Placentia Avenue, a two building complex containing 62,395 square feet, located in the North Orange County submarket, for \$11.6 million or \$186 per square foot.

#### **Balance Sheet:**

During the quarter ended June 30, 2019, the Company issued 5,669,424 shares of common stock under its at-the-market equity offering program (ATM program). The shares were issued at a weighted average price of \$38.21 per share, providing gross proceeds of approximately \$216.6 million and net proceeds of approximately \$213.4 million. As of June 30, 2019, the current ATM program had approximately \$535 million of remaining capacity.

As of June 30, 2019, the Company had \$761.0 million of outstanding debt, with an average interest rate of 3.46% and an average term-to-maturity of 5.0 years. As of June 30, 2019, \$552.5 million, or 73%, of the Company's outstanding debt was fixed-rate with an average interest rate of 3.27% and an average term-to-maturity of 4.9 years. The remaining \$208.5 million, or 27%, of the Company's outstanding debt was floating-rate, with an average interest rate of LIBOR + 1.56% and an average term-to-maturity of 5.4 years. During the fourth quarter of 2018, the Company executed an interest rate swap to hedge \$150 million of its remaining floating-rate debt beginning in July 2019 when the swap becomes effective. If this interest rate swap was effective as of June 30, 2019, the Company's debt would be 92% fixed.

#### **Guidance**

The Company is reiterating and increasing its full year 2019 guidance as follows:

- Net income attributable to common stockholders within a range of \$0.35 to \$0.37 per diluted share
- Company share of Core FFO within a range of \$1.19 to \$1.21 per diluted share
- Year-end Same Property Portfolio occupancy within a range of 96.0% to 97.0%
- Year-end Stabilized Same Property Portfolio occupancy within a range of 97.0% to 97.5%
- Same Property Portfolio NOI growth for the year of 5.0% to 6.5%
- Stabilized Same Property Portfolio NOI growth for the year of 3.5% to 4.0%
- General and administrative expenses of \$29.0 million to \$30.0 million

The Core FFO guidance refers only to the Company's in-place portfolio as of July 30, 2019, and does not include any assumptions for acquisitions, dispositions or balance sheet activities that may or may not occur through the end of the year. A number of factors could impact the Company's ability to deliver results in line with its guidance, including, but not limited to, interest rates, the economy, the supply and demand of industrial real estate, the availability and terms of financing to the Company or to potential acquirers of real estate and the timing and yields for divestment and investment. There can be no assurance that the Company can achieve such results.

#### **Dividends:**

On July 29, 2019, the Company's Board of Directors declared a dividend in the amount of \$0.185 per share for the third quarter of 2019, payable in cash on October 15, 2019, to common stockholders and common unit holders of record as of September 30, 2019.

On July 29, 2019, the Company's Board of Directors declared a dividend of \$0.367188 per share of its Series A Cumulative Redeemable Preferred Stock and \$0.367188 per share of its Series B Cumulative Redeemable Preferred Stock, in each case, payable in cash on September 30, 2019, to preferred stockholders of record as of September 13, 2019.

#### **Supplemental Information:**

Details regarding these results can be found in the Company's supplemental financial package available on the Company's investor relations website at [ir.rexfordindustrial.com](http://ir.rexfordindustrial.com).

#### **Earnings Release, Investor Conference Webcast and Conference Call:**

The Company will host a webcast and conference call on Wednesday, July 31, 2019, at 1:00 p.m. Eastern Time to review second quarter results and discuss recent events. #### **Forward Looking Statements:**

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates,"

"predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, they are not guarantees of future performance. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2018, and subsequent filings with the Securities and Exchange Commission. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

#### Definitions / Discussion of Non-GAAP Financial Measures:

**Funds from Operations (FFO):** We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, impairment losses, real estate related depreciation and amortization (excluding amortization of deferred financing costs) and after adjustments for unconsolidated partnerships and joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below.

**Core Funds from Operations (Core FFO):** We calculate Core FFO by adjusting FFO to exclude the impact of certain items that we do not consider reflective of our core revenue or expense streams. These adjustments consist of acquisition expenses. Management believes that Core FFO is a useful supplemental measure as it provides a more meaningful and consistent comparison of operating performance and allows investors to more easily compare the Company's operating results. Because certain of these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs' Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of FFO to Core FFO is set forth below.

**Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company share of Core FFO per Diluted Share Guidance:** The following is a reconciliation of the Company's 2019 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2019 Estimate	
	Low	High
Net income attributable to common stockholders	\$ 0.35	\$ 0.37
Company share of depreciation and amortization	\$ 0.88	\$ 0.88
Company share of gains on sale of real estate	\$ (0.04)	\$ (0.04)
Company share of Core FFO	\$ 1.19	\$ 1.21

**Net Operating Income (NOI):** NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as rental income from real estate operations less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio and Stabilized Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio and Stabilized Same Property Portfolio, is set forth below.

**Cash NOI:** Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI i) fair value lease revenue and ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio and Stabilized Same Property Portfolio, is set forth below.

**Same Property Portfolio:** Our Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly-owned by us as of January 1, 2018, and still owned by us as of June 30, 2019. Therefore, we excluded from our Same Property Portfolio

any properties that were acquired or sold during the period from January 1, 2018 through June 30, 2019. The Company's computation of same property performance may not be comparable to other REITs.

**Stabilized Same Property Portfolio:** Our Stabilized Same Property Portfolio represents the properties included in our Same Property Portfolio, adjusted to exclude the properties listed in the table below that were under repositioning/lease-up during comparable years.

Stabilized Same Property Portfolio occupancy/leasing statistics excludes vacant/unleased repositioning space at each of these properties as of the end of each reporting period. Stabilized Same Property Portfolio NOI excludes the NOI for the entire property for all comparable periods.

Our Stabilized Same Property Portfolio excludes the following Same Property Portfolio properties that were in various stages of repositioning or lease-up during the year ended December 31, 2018 and the six months ended June 30, 2019:

14748-14750 Nelson Avenue	301-445 Figueroa Street
15401 Figueroa Street	3233 Mission Oaks Boulevard
1601 Alton Parkway	7110 E. Rosecrans Avenue
2700-2722 Fairview Street	9615 Norwalk Boulevard
28903 Avenue Paine	

As of June 30, 2019, the difference between our Same Property Portfolio and our Stabilized Same Property Portfolio is 205,855 rentable square feet of space at three of our properties that were classified as repositioning or lease-up.

As of June 30, 2018, the difference between our Same Property Portfolio and our Stabilized Same Property Portfolio is space aggregating 502,115 rentable square feet at eight of our properties that were in various stages of repositioning or lease-up.

**Properties and Space Under Repositioning:** Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. We define a significant amount of space at a property as the lower of (i) 35,000 square feet of space or (ii) 50% of a property's square footage. Typically, we would include properties or space where the repositioning and lease-up time frame is estimated to be greater than six months. A repositioning is considered complete once the investment is fully or nearly fully deployed and the property is marketable for leasing. We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work. We look to update this definition on an annual basis based on the growth and size of the Company's consolidated portfolio.
