Rexford Industrial Acquires Five Industrial Properties for \$73.2 Million

- Acquires 434,000 Square Feet in Prime Infill Southern California Markets

- 2020 Acquisitions total \$342.9 Million

LOS ANGELES, July 2, 2020 /PRNewswire/ -- Rexford Industrial Realty, Inc. (the "Company" or "Rexford Industrial") (NYSE: REXR), a real estate investment trust focused on creating value by investing in and operating industrial properties located in Southern California infill markets, today announced the acquisition of five industrial properties for \$73.2 million. The acquisitions were funded using cash on hand.

"Our recent transaction activity reflects the strength of Rexford's proprietary originations platform, providing a deep well of growth opportunities in Southern California's supply-constrained infill industrial markets," stated Howard Schwimmer and Michael Frankel, Co-Chief Executive Officers of the Company. These recent transactions totaling 434,000 square feet, represent a blend of value-add and institutional-quality, core investments, providing favorable cash flow growth through the rolling of in-place, below-market rents to higher market rents, value-add property repositioning, and lease up of newly constructed, state-of-the-art vacant space. With over \$342 million of investments completed year-to-date, we remain well-positioned with a low-leverage balance sheet and substantial liquidity to capitalize on emerging internal and external growth opportunities with the capacity to create shareholder value over time."

The Company acquired a three-property industrial portfolio located in Sun Valley, within the LA – San Fernando Valley submarket, for \$35.1 million, or \$169 per square foot. Acquired through an off-market transaction, the 100% occupied portfolio contains 207,374 square feet on 8.38 acres of land. The acquisition presents a range of short- and long-term opportunities to drive cash flow growth through the completion of value-add enhancements and the renewal or re-leasing of in-place leases estimated to be approximately 35% below market, on average, at higher market rates. According to CBRE, the vacancy rate in the 175 million square foot LA – San Fernando Valley submarket was 1.8% at the end of the first quarter 2020.

The Company acquired 15650-15700 S. Avalon Boulevard, located in Los Angeles within the LA – South Bay submarket, for \$28.1 million, or \$169 per square foot. Acquired through an off-market transaction, the two-building property contains 166,088 square feet on 7.24 acres of land. Upon expiration of a short-term leaseback, the Company intends to immediately reposition the property as a Class A single-tenant, low coverage industrial site with substantial dock-high loading and an oversized container storage yard, designed to appeal to a wide range of last-mile distribution users. According to CBRE, the vacancy rate in the 224 million LA – South Bay submarket was 0.8% at the end of the first quarter 2020.

The Company also acquired 15850 Slover Avenue, located in Fontana within the Inland Empire – West submarket, for \$10.0 million, or \$166 per square foot. Acquired through a lightly marketed transaction, the just completed and newly-constructed, vacant single-tenant industrial property contains 60,127 square feet on 2.79 acres of land. The property features modern, best-in-class functionality, including 30' clear heights, ESFR sprinklers, a secured truck court and favorable freeway access. According to CBRE, the vacancy rate in the 305 million square foot Inland Empire – West submarket was 2.4% at the end of the first quarter 2020.
