## Transaction Activity:

During the fourth quarter of 2023, the Company completed four investments totaling \$314.5 million including 1.1 million square feet of buildings on 92 acres of land and a \$125.0 million loan securitized by a 150-acre industrial development site. In aggregate, these investments are projected to generate a weighted average unlevered initial yield of 6.4% and a stabilized yield on total investment of 6.8%. Additionally, the Company sold one property for a sales price of \$11.3 million which generated a 28.0% unlevered IRR on investment.

During the full year of 2023, the Company completed \$1.5 billion of investments comprised of 4.3 million square feet of buildings on 250 acres of land and the aforementioned securitized loan. In aggregate, these investments are projected to generate a weighted average unlevered initial yield of 5.4% and a weighted average unlevered stabilized yield on total investment of 6.1%. Additionally, the Company sold two properties for an aggregate sales price of \$28.3 million, which generated a 21.4% weighted average unlevered IRR on investment.

Subsequent to the fourth quarter of 2023, the Company acquired:

- 5000 & 5010 Azusa Canyon Road, Irwindale, located in the LA San Gabriel Valley submarket, through an off-market transaction for \$84.0 million or \$359 per square foot. The aggregate 10.6-acre site features two 100% leased Class A single-tenant buildings, totaling 233,984 square feet. The investment generates an initial unlevered cash yield of 5.4%. According to CBRE, the vacancy rate in the 161 million square foot LA - San Gabriel Valley submarket was 2.0% at the end of the fourth quarter 2023.

During the fourth quarter of 2023, the Company stabilized two repositioning projects, including one building totaling 116,158 square feet and a 128,532 square foot industrial outdoor storage site, representing a total investment of \$66 million. The projects achieved a weighted average unlevered stabilized yield on total investment of 7.0%. For the full year 2023, the Company stabilized six repositioning and redevelopment projects totaling 490,722 square feet of buildings and two industrial outdoor storage sites totaling 337,508 square feet, representing a total investment of \$197.0 million. The six projects achieved a weighted average unlevered stabilized yield on total investment of 6.9%.

### **Balance Sheet:**

The Company ended the fourth quarter with \$33.4 million in cash on hand and \$1.0 billion available under its unsecured revolving credit facility. As of December 31, 2023, the Company had \$2.2 billion of outstanding debt, with an average interest rate of 3.6%, an average term-to-maturity of 4.6 years and no floating rate debt exposure. Including extension options available at the Company's option, the Company has no significant debt maturities until 2026.

### **Forward Looking Statements:**

This press release may contain forward-looking statements within the meaning of the federal securities laws, which are based on current expectations, forecasts and assumptions that involve risks and uncertainties that could cause actual outcomes and results to differ materially. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. While forward-looking statements reflect the Company's good faith beliefs, assumptions and expectations, they are not guarantees of future performance. In addition, projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described above. These and other factors could cause results to differ materially from those expressed in our estimates and beliefs and in the estimates prepared by independent parties. For a further discussion of these and other factors that could cause the Company's future results to differ materially from any forward-looking statements, see the reports and other filings by the Company with the U.S. Securities and Exchange Commission, including the Company's Annual Report on Form 10-K for the year ended December 31, 2022, and other filings with the Securities and Exchange Commission. The Company disclaims any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes.

### **Definitions / Discussion of Non-GAAP Financial Measures:**

**Funds from Operations (FFO):** We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts ("NAREIT"). FFO represents net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable operating property, gains (or losses) from sales of assets incidental to our business, impairment losses of depreciable operating property or assets incidental to our business, real estate related depreciation and amortization (excluding amortization of deferred financing costs and amortization of above/below-market lease intangibles) and after adjustments for unconsolidated joint ventures. Management uses FFO as a supplemental performance measure because, in excluding real estate related depreciation and amortization, gains and losses from property dispositions, other than temporary impairments of unconsolidated real estate entities, and impairment on our investment in real estate, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of performance used by other REITs, FFO may be used by investors as a basis to compare our operating performance with that of other REITs. However, because FFO excludes depreciation and amortization and captures neither the changes in the value of our properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. Other equity REITs may not calculate or interpret FFO in accordance with the NAREIT definition as we do, and, accordingly, our FFO may not be comparable to such other REITs' FFO. FFO should not be used as a measure of our liquidity and is not indicative of funds available for our cash needs, including our ability to pay dividends. FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. A reconciliation of net income, the nearest GAAP equivalent, to FFO is set forth below in the Financial Statements and Reconciliations section. "Company Share of FFO" reflects FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

**Core Funds from Operations (Core FFO):** We calculate Core FFO by adjusting FFO for non-comparable items outlined in the "Reconciliation of Net Income to Funds From Operations and Core Funds From Operations" table which is located in the Financial Statements and Reconciliations section

below. We believe that Core FFO is a useful supplemental measure and that by adjusting for items that are not considered by the Company to be part of its on-going operating performance, provides a more meaningful and consistent comparison of the Company's operating and financial performance period-over-period. Because these adjustments have a real economic impact on our financial condition and results from operations, the utility of Core FFO as a measure of our performance is limited. Other REITs may not calculate Core FFO in a consistent manner. Accordingly, our Core FFO may not be comparable to other REITs' Core FFO. Core FFO should be considered only as a supplement to net income computed in accordance with GAAP as a measure of our performance. "Company Share of Core FFO" reflects Core FFO attributable to common stockholders, which excludes amounts allocable to noncontrolling interests, participating securities and preferred stockholders.

#### **Reconciliation of Net Income Attributable to Common Stockholders per Diluted Share Guidance to Company Share of Core FFO per Diluted Share Guidance:**

The following is a reconciliation of the Company's 2024 guidance range of net income attributable to common stockholders per diluted share, the most directly comparable forward-looking GAAP financial measure, to Company share of Core FFO per diluted share.

	2024 Estimate	
	Low	High
Net income attributable to common stockholders	\$ 1.11	\$ 1.14
Company share of depreciation and amortization	1.16	1.16
Company share of FFO	\$ 2.27	\$ 2.30

**Net Operating Income (NOI):** NOI is a non-GAAP measure, which includes the revenue and expense directly attributable to our real estate properties. NOI is calculated as rental income from real estate operations less property expenses (before interest expense, depreciation and amortization). We use NOI as a supplemental performance measure because, in excluding real estate depreciation and amortization expense and gains (or losses) from property dispositions, it provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that NOI will be useful to investors as a basis to compare our operating performance with that of other REITs. However, because NOI excludes depreciation and amortization expense and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties (all of which have a real economic effect and could materially impact our results from operations), the utility of NOI as a measure of our performance is limited. Other equity REITs may not calculate NOI in a similar manner and, accordingly, our NOI may not be comparable to such other REITs' NOI. Accordingly, NOI should be considered only as a supplement to net income as a measure of our performance. NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs.

NOI should not be used as a substitute for cash flow from operating activities in accordance with GAAP. We use NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of NOI for our Same Property Portfolio, as well as a reconciliation of net income to NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

**Cash NOI:** Cash NOI is a non-GAAP measure, which we calculate by adding or subtracting from NOI: (i) amortization of above/(below) market lease intangibles and amortization of other deferred rent resulting from sale leaseback transactions with below market leaseback payments and (ii) straight-line rent adjustments. We use Cash NOI, together with NOI, as a supplemental performance measure. Cash NOI should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs. Cash NOI should not be used as a substitute for cash flow from operating activities computed in accordance with GAAP. We use Cash NOI to help evaluate the performance of the Company as a whole, as well as the performance of our Same Property Portfolio. A calculation of Cash NOI for our Same Property Portfolio, as well as a reconciliation of net income to Cash NOI for our Same Property Portfolio, is set forth below in the Financial Statements and Reconciliations section.

**Same Property Portfolio:** Our 2023 Same Property Portfolio is a subset of our consolidated portfolio and includes properties that were wholly owned by us for the period from January 1, 2022 through December 31, 2023, and excludes (i) properties that were acquired or sold during the period from January 1, 2022 through December 31, 2023, and (ii) properties acquired prior to January 1, 2022 that were or will be classified as repositioning/redevelopment (current and future) or lease-up during 2022 and 2023 and select buildings in "Other Repositioning," which we believe will significantly affect the properties' results during the comparative periods. As of December 31, 2023, our 2023 Same Property Portfolio consisted of buildings aggregating 32,476,716 rentable square feet at 254 of our properties.

**Properties and Space Under Repositioning:** Typically defined as properties or units where a significant amount of space is held vacant in order to implement capital improvements that improve the functionality (not including basic refurbishments, i.e., paint and carpet), cash flow and value of that space. A repositioning is generally considered complete once the investment is fully or nearly fully deployed and the property is available for occupancy. We consider a repositioning property to be stabilized at the earlier of the following: (i) upon reaching 90% occupancy or (ii) one year from the date of completion of repositioning construction work.

**Net Debt to Enterprise Value:** As of December 31, 2023, we had consolidated indebtedness of \$2.2 billion, reflecting a net debt to enterprise value of approximately 15.0%. Our enterprise value is defined as the sum of the liquidation preference of our outstanding preferred stock and preferred units plus the market value of our common stock excluding shares of nonvested restricted stock, plus the aggregate value of common units not owned by us, plus the value of our net debt. Our net debt is defined as our consolidated indebtedness less cash and cash equivalents.
