1. Overview and Purpose of Document

This document contains the Pillar 3 disclosures as at 30 June 2020 in respect of the capital and risk management of Bank of America Merrill Lynch International Designated Activity Company, ("BAMLI DAC"), an Irish credit institution.

Capital Requirements Directive IV ("CRD IV"), the European Union ("EU") legislation implementing Basel III, came into effect on 1 January 2014. This mandates the quantity and quality of capital that firms are required to hold, introducing an EU wide liquidity regime and establishing leverage requirements. This legislation consists of three Pillars. Pillar 1 is defined as "Minimum Capital Requirement", Pillar 2 "Supervisory Review Process" and Pillar 3 "Market Discipline". The aim of Pillar 3 is to encourage market discipline by allowing market participants to access key pieces of information regarding the capital adequacy of institutions through a prescribed set of disclosure requirements.

This document provides detail on BAMLI DAC's available Capital Resources and regulatory defined Pillar 1 Minimum Capital Requirement. It demonstrates that BAMLI DAC has capital resources in excess of this requirement and maintains robust risk management and controls.

To further increase transparency, no information has been omitted from this disclosure that is proprietary or confidential and the disclosure also includes information on BAMLI DAC's liquidity position.

For further information on BAMLI DAC's risk management objectives and policies, liquidity and asset encumbrance, please refer to BAMLI DAC's annual Pillar 3 disclosure for the year ended 31 December 2019 on Bank of America's corporate website: <http://investor.bankofamerica.com/financial-information/basel-pillar-3-disclosures>

1.1. BAMLI DAC

BAMLI DAC is a registered credit institution in the Republic of Ireland which is authorised and regulated by the Central Bank of Ireland ("CBI") and supervised under the single supervisory mechanism ("SSM"). BAMLI DAC is classified as an Other Systemically Important Institution ("O-SII").

BAMLI DAC is headquartered in Dublin with branches in Amsterdam, Brussels, Frankfurt, London, Madrid, Milan, Paris, Stockholm and Zurich.

BAMLI DAC is a wholly owned subsidiary of Bank of America N.A. ("BANA") and the ultimate parent continues to be Bank of America Corporation ("BAC"). BAMLI DAC's activities form part of BAC's Global Banking and Markets operations in Europe, Middle East and Africa ("EMEA"). Clients include large multinational groups, financial institutions, governments, and government entities. As at 30 June 2020, BAMLI DAC was rated by Fitch Ratings, Inc ("Fitch") (AA- / F1+) and Standard & Poor's Financial Services LLC ("S&P") (A+/A-1).

Bank of America Merrill Lynch International Designated Activity Company

Pillar 3 Disclosure for the Quarter Ended 30 June 2020

1.2. BAMLI DAC's Capital Position at 30 June 2020

BAMLI DAC's Capital Resources ("Capital Resources") consist predominantly of Common Equity Tier 1 ("CET1") capital. As at 30 June 2020, BAMLI DAC's CET1 ratio was 21.1% which significantly exceeds the regulatory Pillar 1 minimum CET1 requirement of 4.5% and the reported Leverage ratio of 13.4% is far in excess of the proposed regulatory minimum regulatory requirement of 3%.

Figure 1. Summary of BAMLI DAC's Key Metrics as at 30 June 2020

Note: All of BAMLI DAC's Tier 1 capital is CET1, therefore CET1 Capital Ratio and Tier 1 Capital ratio are the same.

2. Basis of Preparation

BAMLI DAC financial statements have been prepared in accordance with the Companies Act 2014, Financial Reporting Standard 100 ("FRS 100") - Application of Financial Reporting Requirements and Financial Reporting Standard 101 ("FRS 101") - Reduced Disclosure Framework. In accordance with these it applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards that have been adopted in the EU ("EU-adopted IFRS").

The information contained in these disclosures has been prepared in accordance with the Capital Requirement Directive, on a solo basis. All Tables included in these disclosures are as at 30 June 2020, with comparatives presented in line with Part Eight of the Capital Requirements Regulation.

The regulatory exposures, capital resources, capital requirements, liquidity requirements and leverage ratio information contained within this document have been prepared using data from the relevant prudential reporting returns (e.g. Common Reporting ("COREP"), Financial Reporting ("FINREP"), and Liquidity Coverage Ratio ("LCR")) and are presented in a way that is consistent with the relevant disclosure requirements in Part Eight of the Capital Requirements Regulation.

In addition, the report does not constitute any form of forward looking record or opinion on BAMLI DAC. Although the Pillar 3 disclosure is intended to provide transparent information on a common basis, the information contained in this document may not be directly comparable with the information provided by other banks. Any financial information included herein is unaudited.

This Pillar 3 disclosure is published on BAC's corporate website: <http://investor.bankofamerica.com/financial-information/basel-pillar-3-disclosures>.

3. Capital Resources

Capital Resources represent the amount of regulatory capital available to an entity to cover all risks. Defined under Capital Requirements Directive CRD IV, Capital Resources are designated into two tiers, Tier 1 and Tier 2. Tier 1 capital consists of CET1 and Additional Tier 1 (“AT1”). CET1 is the highest quality of capital and typically represents equity and audited reserves; AT1 usually represents contingent convertible bonds; Tier 2 capital typically consists of subordinated debt and hybrid debt capital instruments.

BAMLI DAC adopted IFRS9 for the accounting of financial instruments on 1 January 2018. The introduction of the expected credit loss (“ECL”) model did not result in a material adjustment to equity as at the date of adoption of IFRS9. For this reason, BAMLI DAC is not applying the transitional arrangements for IFRS9.

BAMLI DAC’s Capital Resources of €12.2bn (Q4 2019: €12.3bn) consist of Tier 1 and Tier 2 capital. All of BAMLI DAC’s Tier 1 capital is made up of CET1, and Tier 2 capital is comprised of subordinated debt.

The decrease in capital resources is driven by movements in exchange rates. The Euro: US Dollar exchange rate used at quarter end was 1.1198.

Table 1: Regulatory Capital Resources and Ratios Summary

(Euros in Millions)	Q2 2020	Q4 2019
Ordinary Share Capital	29	29
Share Premium	8,091	8,065
Other Reserves	13	14
Profit and Loss Account	2,250	2,384
Tier 1 Capital	10,382	10,492
Tier 2 Capital	1,786	1,780
Total Capital Resources	12,168	12,272

4. Minimum Capital Requirement

BAMLI DAC is subject to a Minimum Capital Requirement set out in the Regulation (EU) 575/2013 on prudential requirements for credit institutions and investment firms Capital Requirements Regulation (“CRR”) and Central Bank of Ireland (“CBI”) requirements in order to meet its total SREP capital requirement. BAMLI DAC is required to hold capital in addition to its Minimum Capital Requirement to meet CRD IV buffers and local CBI obligations.

The Minimum Capital Requirement principally comprises of Credit Risk, Counterparty Credit Risk, and Operational Risk requirements. BAMLI DAC has a minimum capital requirement of €3.9bn (Q1: €4.2bn) comprising of the risk requirements outlined in Table 2.

Table 2 EU OV1 shows RWA and minimum regulatory capital requirements broken down by risk types and model approaches compared to the previous quarter-end.

28 Floor adjustment	-	-	-	-
29 Total	49,103	3,929	52,400	4,192

4.1 Key Movements in the Quarter

BAML DAC's Minimum Capital Requirement decrease of €0.3bn during the quarter was primarily driven by a decrease in Credit Risk of €0.1bn, Counterparty Credit Risk of €0.1bn and Securitisations of €0.1bn.

4.2 Minimum Capital Requirement Approach

BAMLI DAC has adopted the standardised approach for calculating Counterparty Credit Risk, Credit Risk, and Operational Risk Capital Requirements. In order to adhere to the standardised rules set out in the CRR, BAMLI DAC uses ratings from External Credit Assessment Institutions (“ECAIs”) this includes, Moody’s Investors Service, Inc. (“Moody’s”), S&P, and Fitch. ECAI ratings are used where available for all exposure classes.

4.3 Counterparty and Credit Risk

Counterparty and Credit Risk is the risk of loss arising from a borrower or counterparty failing to meet its financial obligations. Counterparty and Credit Risk requirements are derived from risk-weighted exposures, determined using the standardised approach. BAMLI DAC has Counterparty and Credit Risk exposure as a result of loans and advances, derivative trades, securities financing transactions, and other trading and non-trading book exposures.

BAMLI DAC measures counterparty and credit risk exposure on derivatives using a mark-to-market method, defined as mark-to-market plus a notional add-on.

Tables 3 and 4 EU CR1-A and Tables 5 and 6 CR1-B provide asset quality information of the Company’s on- and off-balance sheet exposures subject to the credit risk framework for the IRB and Standardised approach, broken down by regulatory exposure classes and industries respectively.

Tables 7 and 8 Sec 1 detail the total banking book outstanding exposure split by the bank acting as originator, sponsor and investor.

Tables 9 and 10 Sec 3 and Tables 11 and 12 Sec 4 detail the total exposure values by risk weight bands and regulatory approach, the RWA by regulatory approach and the capital charge after cap for the bank acting as originator / sponsor and investor respectively.

4.4 Market Risk

Market risk is the potential change in an instrument's value caused by fluctuations in interest and currency exchange rates, credit spreads or other risks. BAML I DAC uses a standardised rules maturity based calculation for general market risk. Table 13 presents a breakdown of BAML I DAC's market risk under the standardised approach.

Table 13: EU MR1 Market risk under the standardised approach

(Euros in Millions)	Q2 2020		Q4 2019	
	a	b	a	b

9 Total	1,254	100	608	48

BAML I DAC's uses the standardised approach for Market Risk. At the year end 31 December 2019 BAML I DAC used a combination of models approved by the CBI, including Value at Risk (VaR) and the standardised approach. The ("VaR") model was de-activated within Q1 2020.

The Tables 14 through to Table 18 below detail a breakdown of BAML I DAC's Market Risk under the IMA for Q4 2019 (€nil Q2 2020 following transition to standardised approach) and a reconciliation of movements in RWAs under the IMA.

Table 14: EU MR2-A Market Risk under IMA

No comparative data is presented for Q2 2020 following full transition to standardised in Q1 2020

5. Leverage Ratio

The leverage ratio is a measure of Tier 1 capital as a percentage of exposure as defined under the CRR rules.

The requirement for the calculation and reporting of leverage ratios was introduced as part of CRD IV in 2014, and amended by the European Commission Delegated Act (EU) 2015/62 in 2015.

The CRR does not currently include a binding minimum Leverage Ratio requirement. In June 2019, amendments to the CRR were published in the Official Journal of the EU as Regulation (EU) 2019/876. These amendments included a binding minimum Leverage Ratio requirement of 3%, as well as a number of changes to the calculation of the exposure measure. These amendments will apply from 28th June 2021 and currently BAMLI DAC's leverage ratio at 13.4% (Q1 2020: 13.1%) is in excess of the proposed 3% minimum requirement.

The increase in the Leverage Ratio is driven by a decrease in leverage exposure due to a reduction in other assets.

Table 19: Leverage Ratio Summary

(Euros in Millions)	Q2 2020	Q1 2020	Q4 2019
Tier 1 Capital	10,382	10,503	10,492
Total Leverage Ratio Exposures	77,467	80,332	70,669
Leverage Ratio	13.4%	13.1%	14.9%

Bank of America Merrill Lynch International Designated Activity Company

Pillar 3 Disclosure for the Quarter Ended 30 June 2020

6. Liquidity Coverage Ratio (“LCR”) Disclosures

6.1 LCR Disclosure Guidelines

BAMLI DAC is subject to the LCR, which requires BAMLI DAC to hold a sufficient buffer of eligible High Quality Liquid Assets (“HQLA”) to cover potential cash outflows during the first 30 days of a liquidity stress event.

6.2 LCR Disclosure Template

Table 20 discloses average weighted values of the liquidity buffer, total net cash outflows and the LCR of BAMLI DAC.

Table 20: LCR Disclosure

<i>(Euros in Millions)</i>	Total weighted value (average)			
Quarter ending on	Q3 2019	Q4 2019	Q1 2020	Q2 2020
Number of data points used in the calculation of averages	12	12	12	12
Liquidity Buffer	13,656	16,209	17,536	18,804
Total Net Cash Outflows	8,936	10,576	11,142	12,290
Liquidity Coverage Ratio (%)	304%	153%	158%	155%

Note: The disclosed values and figures within the liquidity buffer, total net cash outflows, and LCR are simple averages of the preceding twelve LCR monthly reporting observations for each quarter. The twelve month average LCR of 304% includes 2 months of activity prior to the Cross Border Merger with Bank of America Merrill Lynch International Limited, which was completed on 1 December 2018. As at 30 September 2019, BAMLI DAC’s actual LCR was 145%.

7. Additional Detail on Capital Resources, MREL, Leverage and COVID-19

7.1 Additional Detail on Capital Resources

Table 21 shows a reconciliation between the accounting balance sheet values and the regulatory capital values of the items included in BAMLI DAC's capital resources. Further details on the composition of BAMLI DAC's capital resources are shown in Tables 22 and 23. The Euro: US Dollar exchange rate used at quarter end was 1.1198.

7.2 Additional Detail on Minimum Requirements for Own Funds & Eligible Liabilities

As part of amendments to the CRR which were published in the Official Journal of the EU as Regulation (EU) 2019/876, the international standard to meet a minimum amount of Total Loss Absorbing Capacity (“TLAC”) became effective for certain types of Investment Firms and Credit Institutions in June 2019. Under CRR, material subsidiaries of non EU G-SIs are those that meet the criteria set out in CRR2 (Art.4 para 135). As part of its Brexit application BAMLI DAC was set an iTLAC requirement by the Central Bank of Ireland.

For BAMLI DAC the institution specific internal Minimum Requirements for Own Funds & Eligible Liabilities (“MREL”) Target will be set by the Single Resolution Board (“SRB”) in early 2021.

MREL resources are comprised of qualifying own funds and eligible liabilities. In order for liabilities that are not capital resources to qualify as eligible they must meet certain criteria, such as having a minimum residual maturity of at least one year and being subordinated to other operating liabilities.

Total MREL resources for BAMLI DAC are equal to Tier 1 capital, Tier 2 instruments plus eligible liabilities issued.

- BAMLI DAC has €10.4bn of Tier 1 capital
- BAMLI DAC has €1.8bn of Tier 2 instruments.
- Eligible Liabilities: On 10 February 2020 BAMLI DAC converted €1.8bn (\$2.0bn) of term BANA funding into MREL eligible liabilities. In the event that BAMLI DAC is projected to fall below iTLAC or MREL requirements then BAMLI DAC can convert additional funding into eligible liabilities with agreement from its parent company BANA. This conversion is subject to the BANA Reg K limit of circa €2.7bn (the Reg K limit is equivalent to 2% of BANA’s share capital so this limit can fluctuate).

Table 24: MREL Disclosures

<i>(Euros in Millions)</i>	Q2 2020
Total MREL Resources Available	13,954
Total RWA	49,104
MREL as a percentage of RWA	28.4%
Leverage Ratio Exposure Measure	77,467
MREL as a percentage of Leverage Ratio Exposure Measure	18.0%
Excluded Liabilities	35,935

7.3 Additional Detail on Leverage Ratio

The following Tables reconcile the accounting assets to the leverage ratio exposures, detail the leverage ratio common disclosure and provide a split of the on-balance sheet exposures, excluding derivatives and SFTs. BAMLI DAC's leverage ratio is disclosed on a fully phased in basis.

Table 25: Summary Reconciliation of Accounting Assets and Leverage Ratio Exposures Current and Prior

<i>(Euros in Millions)</i>		Q2 2020	Q4 2019
1	Total assets as per financial statements	62,387	52,506
2	Adjustment for entities which are consolidated for accounting purposes but are outside the scope of regulatory consolidation (Adjustment for fiduciary assets recognised on the balance sheet pursuant to the applicable accounting framework but excluded from the leverage ratio exposure measure in accordance with Article 429(13) of Regulation (EU) No 575/2013)	-	-
3	Adjustments for derivative financial instruments	(1,763)	(1,082)
4	Adjustments for securities financing transactions (SFTs)	-	-

EU-1	Total on-balance sheet exposures (excluding derivatives and SFTs), of which:	50,524	45,262
EU-2	Trading book exposures	1,724	585
EU-3	Banking book exposures, of which:	48,800	44,669
EU-4	Covered bonds	-	-
EU-5	Exposures treated as sovereigns	13,873	10,107
EU-6	Exposures to regional governments, MDB, international organisations and PSE not treated as sovereigns	-	1
EU-7	Institutions	4,629	6,451
EU-8	Secured by mortgages of immovable properties; of which	2,612	2,175
EU-9	Retail exposures	-	-
EU-10	Corporate	20,242	18,416
EU-11	Exposures in default	800	665
EU-12	Other exposures (eg equity, securitisations, and other non-credit obligation assets)	6,644	6,855

7.4 Additional Detail relating to COVID-19

On the 2nd April 2020 the EBA issued its Guidelines on legislative and non-legislative moratoria on loan repayments applied in light of the COVID-19 crisis. Member States have introduced legislative moratoria on loan repayments and various forms of public guarantees to be applied to new lending, amongst other measures. These measures do not automatically trigger forbearance classification or do not automatically lead to the classification of default.

The Tables 28 to 30 below disclose the loans and advances subject to legislative and non-legislative moratoria (including residual maturity) and information on newly originated loans and advances provided under the public guarantee schemes. At 30th June 2020 BAMLI DAC, as shown in the nil disclosure in Tables 28 and 29, does not have any loans and advances subject to legislative and non-legislative moratoria. There are €22.8m of newly originated loans and advances, to other financial and non-financial corporation counterparties, provided under the newly applicable public guarantee schemes which are presented under Table 30.

Table 28: Information on loans and advances subject to legislative and non-legislative moratoria

Q2 2020
