Company Profile for ShotSpotter, Inc.

ShotSpotter, Inc., the leading developer of gunshot location systems and technology, is based in Santa Clara, CA. ShotSpotter's flagship product, which detects gunfire across large urban areas using a small number of inexpensive and easy-to-deploy sensors, currently protects the citizens of cities nationwide, from Los Angeles, CA to Washington, DC. Its products assisted the FBI and the Franklin County Sheriff's Office in identifying and capturing the Columbus, OH highway sniper suspect. In 2000, ShotSpotter was honored for its technology vision and leadership when it won the Computerworld Smithsonian Laureate Award, having been nominated by William H. Gates, chairman and chief software architect of Microsoft Corporation, and the Smithsonian added its technology to the museum's permanent collection. With technology covered by numerous patents, the company offers products to the law enforcement, homeland security and military markets. ShotSpotter technology has consistently produced arrests and weapons confiscations nationwide and has helped reduce gunfire and crime rates in cities that deploy it.
