Titan Pharmaceuticals Schedules Conference Call to Review Fourth Quarter and Full Year 2013 Financial Results

SOUTH SAN FRANCISCO, CA -- (Marketwired) -- 03/26/14 -- Titan Pharmaceuticals, Inc. (OTCBB: TTNP) today announced that it will host a live conference call at 10 a.m. PT / 1 p.m. ET on Tuesday, April 1, 2014 to discuss the company's financial results as of December 31, 2013. The call will be hosted by Sunil Bhonsle, president; Katherine Glassman-Beebe, Ph.D., executive vice president and chief development officer; Brian Crowley, vice president of finance, and Marc Rubin, M.D., executive chairman.

Highlights of the fourth quarter and full year financial results will be included in a press release to be issued prior to the call.

The live webcast of the call may be accessed by visiting the Titan website at www.titanpharm.com. The call can also be accessed by dialing (888) 221-3887, Participant Code 3001910 five minutes prior to the start time. A replay of the call will be available on the company website approximately two hours after completion of the call and will be archived for two weeks.

About Titan Pharmaceuticals
Titan Pharmaceuticals Inc. (OTCBB: TTNP), based in South San Francisco, CA, is a specialty pharmaceutical company developing proprietary therapeutics primarily for the treatment of serious medical disorders. The company's lead product candidate is Probuphine®, a novel and long-acting formulation of buprenorphine for the long-term maintenance treatment of opioid dependence. Probuphine employs Titan's proprietary drug delivery system ProNeura™, which is capable of delivering sustained, consistent levels of medication for six months or longer. Titan has granted North American commercial rights for Probuphine to Braeburn Pharmaceuticals. If approved, Probuphine would be the first and only commercialized treatment of opioid dependence to provide continuous, round-the-clock blood levels of buprenorphine for six months. The ProNeura technology has the potential to be used in developing products for treating other chronic conditions, such as Parkinson's disease, where maintaining consistent blood levels of a dopamine agonist may benefit the patient and improve medical outcomes. For more information about Titan, please visit www.titanpharm.com.

The press release may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements include, but are not limited to, any statements relating to our product development programs and any other statements that are not historical facts. Such statements involve risks and uncertainties that could negatively affect our business, operating results, financial condition and stock price. Factors that could cause actual results

to differ materially from management's current expectations include those risks and uncertainties relating to the regulatory approval process, the development, testing, production and marketing of our drug candidates, patent and intellectual property matters and strategic agreements and relationships. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations or any changes in events, conditions or circumstances on which any such statement is based, except as required by law.
