"We recently announced a [transformative acquisition](#) of Laboratory Services MSO, LLC, a

premier reference laboratory,” stated David Jin, M.D., Ph.D., President and Chief Executive Officer of Avalon GloboCare. “Not only is Laboratory Services MSO expected to be highly accretive to earnings, it also adds strong clinical synergies to the existing Avalon portfolio. In order to better reflect Avalon’s new focus on laboratory services and biotherapeutics, we also decided to cease all operations in the People’s Republic of China with the exception of a small administrative office, Avalon Shanghai. Additionally, we are restructuring the board and will not be renewing three of our China Board members as directors. We believe we have multiple upcoming inflection points, which we expect will create significant value for our shareholders in the years ahead and we encourage all shareholders to vote on the outlined proposals in the upcoming annual shareholders meeting as soon as possible.”
