Datavault AI Appoints U.S. Navy Veteran Pete Scobell as Vice President, Global Security

Strengthens Executive Leadership to Support Anti-Stolen Valor Initiative, Real-World Asset (RWA) Growth, and Global Launch of the International Elements Exchange™

BEAVERTON, Ore., Oct. 21, 2025 (GLOBE NEWSWIRE) -- via IBN -- Datavault AI Inc. (Nasdaq: DVLT), leading the way in AI data experience, valuation, and monetization, today announced the appointment of Pete Scobell as Vice President, Global Security. A decorated U.S. Navy SEAL veteran, Scobell will oversee Datavault AI's global security operations, risk management, and the execution of real-world asset logistics activity across all regions.

Scobell's appointment comes as Datavault AI continues to advance its Anti-Stolen Valor initiative, first announced earlier this year, honoring military service, integrity, and accountability through a values-driven, data-backed ecosystem. The program reinforces Datavault's mission to merge measurable value creation with national service principles and operational excellence.

"Pete's leadership embodies the discipline, trust, and precision that define the Datavault brand," said Nathaniel Bradley, CEO of Datavault AI. "As our real-world asset operations — particularly with the launch of our International Elements Exchange — continue to expand globally, Pete's experience in mission execution and protective strategy ensures the same level of rigor and reliability that clients expect from world-class security organizations."

With an extensive background in mission-critical operations, logistics execution, and leadership under pressure, Scobell brings the same focus and decisiveness to Datavault AI's expanding portfolio that guided his service as a U.S. Navy SEAL.

"True security is about precision in execution and strength in culture," said Pete Scobell. "I'm honored to join Datavault AI's mission to protect and move value securely and responsibly on a global scale — because real protection isn't just physical, it's moral. It's about defending what's genuine, earned, and right. I couldn't be more excited to work alongside Datavault's trailblazing leadership team, whose vision for integrity and innovation is setting a new global standard for accountability and trust."

About Datavault AI Inc.

Datavault AI™ (Nasdaq: DVLT) is leading the way in AI driven data experiences, valuation and monetization of assets in the Web 3.0 environment. The company's cloud-based platform provides comprehensive solutions with a collaborative focus in its Acoustic Science and Data Science Divisions. Datavault AI's Acoustic Science Division features WiSA®, ADIO® and Sumerian® patented technologies and industry-first foundational spatial and multichannel wireless HD sound transmission technologies with IP covering audio timing, synchronization and multi-channel interference cancellation. The Data Science Division leverages the power of Web 3.0 and high-performance computing to provide solutions for experiential data perception, valuation and secure monetization. Datavault AI's cloud-based platform provides comprehensive solutions serving multiple industries, including HPC software licensing for sports & entertainment, events & venues, biotech, education, fintech, real estate, healthcare, energy and more. The Information Data Exchange® (IDE) enables Digital Twins, licensing of name, image and likeness (NIL) by securely attaching physical real-world objects to immutable metadata objects, fostering responsible AI with integrity. Datavault AI's technology suite is completely customizable and offers AI and Machine Learning (ML) automation, third-party integration, detailed analytics and data, marketing automation and advertising monitoring. The company is headquartered in Beaverton, OR. Learn more about Datavault AI at www.dvlt.ai.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, and other securities laws. Words such as "expect," "will," "anticipates," "continues" and variations of such words and similar future or conditional expressions are intended to identify forward-looking statements. Such forward-looking statements, including statements herein regarding our business opportunities and prospects, strategy, future revenue expectations, licensing initiatives, patent initiatives as well as the successful implementation of the patented technologies, are necessarily based upon estimates and assumptions that, while considered reasonable by us and our management, are inherently uncertain. Readers are cautioned not to place undue reliance on these forward-looking statements. Actual results may differ materially from those indicated by these forward-looking statements as a result of various risks and uncertainties including, but not limited to, the following: our ability to successfully utilize all intellectual property that has been issued and granted Notices of Allowance; risks regarding our ability to utilize the assets we acquire to successfully grow our market share; risks regarding our ability to open up new revenue streams as a result of the various patents mentioned in this press release; our current liquidity position and the need to obtain additional financing to support ongoing operations; general market, economic and other conditions; our ability to continue as a going concern; our ability to maintain the listing of our common stock on Nasdaq; our ability to manage costs and execute on our operational and budget plans; our ability to achieve our financial goals; the degree to which our licensees implement our technologies into their products, if at all; the timeline to any such implementation; risks related to technology innovation and intellectual property, and other risks as more fully described in our filings with the U.S. Securities and Exchange Commission. The information in this press release is provided only as of the date of this press release, and we undertake no obligation to update any forward-looking statements contained in this communication based on new information, future events, or otherwise, except as required by law.
