

Disclaimers

This presentation contains certain forward-looking statements as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are subject to the "safe harbor" created by those sections. Forward-looking statements may be identified by words such as "outlook," "expects," "intends," "anticipates," "believes," "seeks," "targets," "estimates," "will," "should," "may" or words of similar meaning, but these words are not the exclusive means of identifying forward-looking statements. Forward-looking statements are based on management's current expectations and assumptions, and are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. As a result, actual results could differ materially from those indicated in these forward-looking statements. Factors that could cause actual results to differ materially include global political, economic, business, competitive, market, regulatory and other factors and risks, such as: the impact of macroeconomic conditions and whether industry trends we have identified develop as anticipated; retaining existing partners and attracting new partners, concentration of our revenue in a small number of Retail Card partners, promotion and support of our products by our partners, and financial performance of our partners; higher borrowing costs and adverse financial market conditions impacting our funding and liquidity, and any reduction in our credit ratings; our ability to securitize our loans, occurrence of an early amortization of our securitized loans; and lower payment rates on our securitized loans; our ability to grow our deposits in the future; changes in market interest rates and the impact of any margin compression; effectiveness of our risk management processes and procedures, reliance on models which may be inaccurate or misinterpreted, our ability to manage our credit risk, the sufficiency of our allowance for loan losses and the accuracy of the assumptions or estimates used in preparing our financial statements; our ability to offset increases in our costs in retailer share arrangements; competition in the consumer finance industry; our concentration in the U.S. consumer credit market; our ability to successfully develop and commercialize new or enhanced products and services; our ability to realize the value of strategic investments; reductions in interchange fees; fraudulent activity; cyber-attacks or other security breaches; failure of third parties to provide various services that are important to our operations; our transition to a replacement third-party vendor to manage the technology platform for our online retail deposits; disruptions in the operations of our computer systems and data centers; international risks and compliance and regulatory risks and costs associated with international operations; alleged infringement of intellectual property rights of others and our ability to protect our intellectual property; litigation and regulatory actions; damage to our reputation; our ability to attract, retain and motivate key officers and employees; tax legislation initiatives or challenges to our tax positions and state sales tax rules and regulations; a material indemnification obligation to GE under the tax sharing and separation agreement with GE if we cause the split-off from GE or certain preliminary transactions to fail to gualify for tax-free treatment or in the case of certain significant transfers of our stock following the split-off; obligations associated with being an independent public company; regulation, supervision, examination and enforcement of our business by governmental authorities, the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the impact of the Consumer Financial Protection Bureau's regulation of our business; changes to our methods of offering our CareCredit products; impact of capital adequacy rules and liquidity requirements; restrictions that limit our ability to pay dividends and repurchase our common stock, and restrictions that limit Synchrony Bank's ability to pay dividends to us; regulations relating to privacy, information security and data protection; use of third-party vendors and ongoing third-party business relationships; and failure to comply with anti-money laundering and anti-terrorism financing laws.

For the reasons described above, we caution you against relying on any forward-looking statements, which should also be read in conjunction with the other cautionary statements that are included elsewhere in this presentation and in our public filings, including in Synchrony Financial's (the "Company") Quarterly Report on Form 10-Q for our most recently completed fiscal quarter and under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as filed on February 25, 2016. You should not consider any list of such factors to be an exhaustive statement of all of the risks, uncertainties, or potentially inaccurate assumptions that could cause our current expectations or beliefs to change. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update or revise any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events, except as otherwise may be required by law.

Non-GAAP Measures

We present certain capital ratios. Our Basel III Tier 1 common ratio, calculated on a fully phased-in basis, is a preliminary estimate reflecting management's interpretation of the final Basel III capital rules adopted in July 2013 by the Federal Reserve Board, which have not been fully implemented, and our estimate and interpretations are subject to, among other things, ongoing regulatory review and implementation guidance. This ratio is not currently required by regulators to be disclosed, and therefore is considered a non-GAAP measure. We believe this capital ratio is a useful measure to investors because it is widely used by analysts and regulators to assess the capital position of financial services companies, although this ratio may not be comparable to similarly titled measures reported by other companies. The reconciliation of our Basel III Tier 1 common ratio, calculated on a fully phased-in basis, to the comparable GAAP component at December 31, 2016 is included at the end of this presentation in "Appendix-Non-GAAP Reconciliations."

We also present a measure we refer to as "tangible common equity" in this presentation. Tangible common equity itself is not a measure presented in accordance with GAAP. We believe tangible common equity is a more meaningful measure to investors of the net asset value of the Company. The reconciliation of tangible common equity, to total equity reported in accordance with GAAP is included at the end of this presentation in "Appendix-Non-GAAP Reconciliations."

We refer to "managed-basis" as presenting certain loan performance measures as if loans sold by us to our securitization trusts were never sold and derecognized in our GAAP financial statements. We believe it is useful to consider these performance measures on a managed-basis for 2009 when comparing to similar GAAP measures in later years since we serviced the securitized and owned loans, and related accounts, in the same manner without regard to ownership of the loans. The reconciliation of the managed-basis loan performance measures in this presentation to the comparable GAAP measures for the twelve months ended December 31, 2009 is included at the end of this presentation in "Appendix-Non-GAAP Reconciliations."

Synchrony Financial Overview

Leading Consumer Finance Business

- Largest Private Label Credit Card (PLCC) provider in US^(a)
- A leader in financing for major consumer purchases and healthcare services
- Long-standing and diverse partner base

Strong Value Proposition for Partners and Consumers

- Advanced data analytics and targeted marketing capabilities
- Dedicated team members support partners to help maximize program effectiveness
- Enhanced sales growth and additional economic benefits for partners
- Access to instant credit, promotional financing, and rewards for customers

Robust Data and Technology Capabilities

- Deep partner integration enables customized loyalty products across channels
- Partner and cardholder focused mobile payments and e-commerce solutions
- Leveraging digital, loyalty, and analytics capabilities to augment growth

Attractive Growth and Ample Opportunities

- Strong receivables growth
- Significant opportunity to leverage longstanding partnerships to increase penetration
- Opportunity to attract new partners
- Developing broad product suite to build a leading, full-scale online bank

Strong Financial Profile and Operating Performance

- Solid fundamentals with attractive returns.
- Strong capital and liquidity with diverse funding profile
- Announced and began execution of initial capital plan—quarterly common stock dividend of \$0.13 per share and share repurchase program of up to \$952 million for the four quarters ending June 30, 2017 (subject to Board and regulatory approval)

Using Data and Analytics to Develop Effective Value Propositions

New Value Proposition Helping to Drive Strong Sales Growth

Partner A Example

- Joint team from Partner A and Synchrony generated multiple new value proposition ideas for Dual CardTM
- Analytics played a key role in providing facts to substantiate new ideas and established foundational insights on:
 - Customer Experience
 - Customer Research
 - Partner Retail Sales View
 - Competitiveness vs. the Marketplace
- Generated projections with multiple scenarios for launch and measured post-launch outcomes

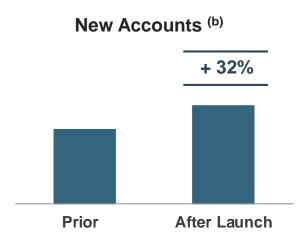

Synchrony (a) Dual Card[™] Total Sales for Partner A. After Launch represents the 6 months post value proposition launch; Prior represents the same period one year prior to the value proposition launch.

Strong Growth in Sales and Accounts Continues One Year After Launch

Partner B Example

- Partner B wanted to broaden the reach of their credit card value propositions
- Analytics provided data insights, test design and performance analysis that helped develop current offers
 - Sales dynamic across different types of purchases
 - Incremental sales and margin impact
 - Methodology and design for in-store testing
 - Tracking adoption from existing and new customers

(b) New Credit Card Accounts for Partner B. After Launch represents the 6 months post value proposition launch; Prior represents the same period one year prior to the value proposition launch.

Innovative Digital Capabilities

Expanding Online and Mobile Capabilities

Expanding Digital Capabilities

Strategic Priorities

Grow our business through our three sales platforms

- Grow existing retailer penetration
- Continue to innovate and provide robust cardholder value propositions
- Add new partners and programs with attractive risk and return profiles

Expand robust data, analytics and digital capabilities

- Accelerate capabilities: marketing, analytics and loyalty
- Continue to leverage SKU level data and invest in CRM to differentiate marketing capabilities
- Deliver leading capabilities across digital and mobile technologies

Position business for long-term growth

- Explore opportunities to expand the core business (e.g., small business and proprietary networks)
- Continue to grow Synchrony Bank enhance offerings to increase loyalty, diversify funding and drive profitability

Operate with a strong balance sheet and financial profile

- · Maintain strong capital and liquidity
- Deliver earnings growth at attractive returns

Leverage strong capital position

- Organic growth, program acquisitions, and start-up opportunities
- Continue capital plan execution through dividends and share repurchase program, subject to Board and regulatory approvals
- Invest in capability-enhancing technologies and businesses

Appendix

Non-GAAP Reconciliation

We present certain capital ratios. Our Basel III Tier 1 common ratio, calculated on a fully phased-in basis, is a preliminary estimate reflecting management's interpretation of the final Basel III capital rules adopted in July 2013 by the Federal Reserve Board, which have not been fully implemented, and our estimate and interpretations are subject to, among other things, ongoing regulatory review and implementation guidance. This ratio is not currently required by regulators to be disclosed, and therefore is considered a non-GAAP measure. We believe this capital ratio is a useful measure to investors because it is widely used by analysts and regulators to assess the capital position of financial services companies, although this ratio may not be comparable to similarly titled measures reported by other companies.

Non-GAAP Reconciliation

The following table sets forth a reconciliation of each component of our capital ratios to the comparable GAAP component at December 31, 2016.

\$ in	\$ in millions at	
COMMON EQUITY MEASURES Dece	mber 31, 2016	
GAAP Total common equity	\$14,196	
Less: Goodwill	(949)	
Less: Intangible assets, net	(712)	
Tangible common equity	\$12,535	
Adjustments for certain deferred tax liabilities and certain items		
in accumulated comprehensive income (loss)	337	
Basel III – Common equity Tier 1 (fully phased-in)	\$12,872	
Adjustments related to capital components during transition	263	
Basel III – Common equity Tier 1 (transition)	\$13,135	
Risk-weighted assets – Basel III (fully phased-in)		
Risk-weighted assets – Basel III (transition)	\$76,179	

Non-GAAP Reconciliation

Securitization adjustments

Managed-basis

The following table sets forth a reconciliation between GAAP results and non-GAAP managed-basis results for 2009.

Twelve months ended

1.4%

9.8%

	December 31, 2009
Net charge-offs as a % of average loan receivables, including held for sale:	
GAAP	11.3%
Securitization adjustments	(0.6)%
Managed-basis	10.7%
Interest and fees on loans as a % of average loan receivables, including held for sa	le:
GAAP	 19.7%
Securitization adjustments	0.8%
Managed-basis	20.5%
Retailer share arrangements as a % of average loan receivables, including held for	sale:
GAAP	3.4%
Securitization adjustments	<u>(1.8)%</u>
Managed-basis	1.6%
Risk-adjusted yield ^(a) :	
GAAP	8.4%

⁽a) Risk-adjusted yield is equal to interest and fees on loans as a % of average loan receivables less net charge-offs as a % of average loan receivables.
