# Aethlon Medical Discloses Head and Neck Cancer Collaboration

SAN DIEGO, April 2, 2015 /PRNewswire/ -- Aethlon Medical, Inc. (OTCQB:AEMD), the pioneer in developing targeted therapeutic devices to address infectious diseases and cancer, disclosed today that its majority owned subsidiary Exosome Sciences, Inc. has entered into a research collaboration with Thomas Jefferson University. The goal of the collaboration is to advance a "liquid biopsy" that could improve the diagnoses and monitoring of head and neck cancer. In this regard, researchers will seek to determine whether exosome-based molecular signatures correlate with and predict patient responses to therapy.

## About Aethlon Medical, Inc.

Aethlon Medical creates medical devices that target unmet therapeutic needs in infectious disease and cancer. The company's lead product is the Aethlon Hemopurifier®, a first-in-class device that selectively targets the rapid elimination of circulating viruses and tumor-secreted exosomes that promote cancer progression. Exosome Sciences, Inc. is a majority owned subsidiary that is advancing exosome-based products to diagnose and monitor cancer, infectious disease and neurological disorders.
