About Can-Fite Biopharma Ltd.

Can-Fite Biopharma Ltd is an Israeli public company, the ordinary shares of which are traded on the Tel Aviv Stock Exchange (TASE: CFBI). Level II American Depositary Receipts of the company are traded on the over-the-counter market (OTCQB: CANFY). The company, which commenced business activity in 2000, was founded by Pnina Fishman, Ph.D., researcher in the Rabin Medical Center, and Ilan Cohn Ph.D., patent attorney and senior partner at Reinhold Cohn Patent Attorneys. Pnina Fishman serves as CEO of the company. The company was founded on the basis of Fishman's scientific findings, and is focused on the development of small molecule orally bioavailable drugs, ligands to the A3 adenosine receptor. The latter mediates anti-inflammatory and anti-cancer effects and is suggested as a biological predictive marker. The company's lead drug, CF101, is in clinical development for the treatment of autoimmune inflammatory diseases. The CF102 drug candidate is being developed for the treatment of liver diseases. Can-Fite has a wealth of clinical experience: to date, more than 700 patients have participated in clinical trials

conducted by the company. Can-Fite previously licensed its activity in the ophthalmic field to OphthaliX Inc., in which it holds a controlling interest (OTCQB: OPLI).
