Under the program, the Company may purchase its shares from time to time in the open market or in privately negotiated transactions. The amount and timing of the purchases will depend on a number of factors including the price and availability of the Company's shares, trading volume, capital availability, Company performance and general economic and market conditions. "We believe our current stock price is at a significant discount to the value of our company," said Michael Nierenberg, Chief Executive Officer of New Residential. "Buying back shares is an attractive investment opportunity and it further demonstrates our commitment to delivering value to our shareholders."
