# Capstone Green Energy to Present at the LD Micro Main Event XV

*Presentation on Tuesday, October 25 at 10:30 a.m. PT*

LOS ANGELES--(BUSINESS WIRE)-- [Capstone Green Energy Corporation](#) (NASDAQ: CGRN), a global leader in carbon reduction and on-site resilient green energy solutions, will be presenting at the 15<sup>th</sup> annual LD Micro Invitational on Tuesday, October 25 at 10:30 a.m. PT (1:30 p.m. ET) at the Luxe Sunset Boulevard Hotel in Los Angeles, California. Darren Jamison, President and Chief Executive Officer will be giving the presentation.

"15 years ago, we set out to create an event that could benefit our entire industry. It wasn't fast or easy, but we were honorable in our dealings, and worked our tails off to ensure a wonderful time for everyone involved. Today, our community could not be larger, stronger, and more united, as we go through these difficult and turbulent times together. The Main Event is about learning, connecting, and enjoying each other, and it is a hell of a lot more fun than sitting next to your computer," stated Chris Lahiji, Founder of LD Micro.

"Capstone's growing Energy as a Service business is a story investors need to know. We are seeing interest and orders across industries from new and repeat customers. Coupled with the anticipated opportunities created by the new U.S. Inflation Reduction Act (IRA), it's a great time for investors to learn more about Capstone," said Darren Jamison, President and Chief Executive Officer of Capstone Green Energy. "We enjoy participating in LD Micro Main Events each year, not just because it's held in our backyard here in Los Angeles, but because it's a well-coordinated and well-attended event. I look forward to presenting as well as having the opportunity to sit down with interested investors to discuss Capstone Green Energy's business."

**Event:** LD Micro Main Event XV

**Date:** Tuesday, October 25

**Time:** 10:30 a.m. PT in TRACK1

## About Capstone Green Energy

[Capstone Green Energy](#) (NASDAQ: CGRN) is a leading provider of customized microgrid solutions and on-site energy technology systems focused on helping customers around the globe meet their environmental, energy savings, and resiliency goals. Capstone Green Energy focuses on four key business lines. Through its Energy as a Service (EaaS) business, it offers rental solutions utilizing its microturbine energy systems and battery storage systems, comprehensive Factory Protection Plan (FPP) service contracts that guarantee life-cycle costs, as well as aftermarket parts. Energy Generation Technologies (EGT) are driven by the Company's industry-leading, highly efficient, low-emission, resilient microturbine energy systems offering scalable solutions in addition to a broad range of customer-tailored solutions, including hybrid energy systems and larger frame industrial turbines. The Energy Storage Solutions (ESS) business line designs and installs microgrid storage systems creating customized solutions using a combination of battery technologies and monitoring software. Through Hydrogen & Sustainable Products (H2S), Capstone Green Energy offers customers a variety of hydrogen products, including the Company's microturbine energy systems.

To date, Capstone has shipped over 10,000 units to 83 countries and estimates that in FY22, it saved customers over \$213 million in annual energy costs and approximately 388,000 tons of carbon. Total savings over the last four years are estimated to be approximately \$911 million in energy savings and approximately 1,503,100 tons of carbon savings.

For customers with limited capital or short-term needs, Capstone offers rental systems; for more information, contact: [rentals@CGRNenergy.com](mailto:rentals@CGRNenergy.com).
