About Trevena

Trevena, Inc. is a biopharmaceutical company focused on the development and commercialization of innovative medicines for patients with CNS disorders. The Company has one approved product in the United States, OLINVYK[®] (oliceridine) injection, indicated in adults for the management of acute pain severe enough to require an intravenous opioid analgesic and for whom alternative treatments are inadequate. The Company's novel pipeline is based on Nobel Prize winning research and includes four differentiated

investigational drug candidates: TRV045 for diabetic neuropathic pain and epilepsy, TRV027 for acute respiratory distress syndrome and abnormal blood clotting in COVID-19 patients, TRV250 for the acute treatment of migraine and TRV734 for maintenance treatment of opioid use disorder.
