About Nightfood

Nightfood is pioneering the category of sleep-friendly nighttime snacking.

Over 80% of Americans snack regularly at night, resulting in an estimated 700 million nighttime snack occasions weekly, and an annual spend on night snacks of over \$50 billion. The most popular choices are ice cream, cookies, chips, and candy. Recent research confirms such snacks, in addition to being generally unhealthy, can impair sleep, partly due to excess fat and sugar consumed before bed.

Nightfood's sleep-friendly snacks are formulated by sleep and nutrition experts to contain less of those sleep-disruptive ingredients, along with a focus on ingredients and nutrients that research suggests can support nighttime relaxation and better sleep quality.

The brand is currently focused on establishing widespread national distribution of Nightfood ice cream, cookies, and other snack formats in the high-margin hotel vertical.

Nightfood ice cream pints can be found in hundreds of hotels across the United States, including select locations of chains such as Courtyard by Marriott, Holiday Inn Express, Springhill Suites, Hyatt Place, Fairfield Inn & Suites and more.

Hotels are increasingly focused on supporting guest wellness, and one way to do that is by offering healthier and sleep-friendly snacks in their grab-and-go lobby shops.

With an estimated 56,000 hotels across the United States, expanding distribution into a significant number of those hotels is expected to lead to profitability, consumer adoption of the nighttime snack category, and a strategically defensible position from which category leadership can be maintained.
