Bitfarms Provides Corporate Update

TORONTO, Ontario and BROSSARD, Québec, June 09, 2021 (GLOBE NEWSWIRE) -- [Bitfarms Ltd.](#) ("**Bitfarms**", or the "**Company**") (TSXV: BITF // OTC:BFARF), today provides a corporate update.

Expansion of Mining Fleet

Bitfarms is pleased to announce that it is scheduled to receive and deploy the previously announced 1,500 M31S+ order from MicroBT next week. These new miners are expected to increase the Company's installed hashrate by 120 PH/s to a total of 1.54 EH/s, among the largest installed Bitcoin hashrates currently reported in North America by a public company. As with all the Company's current mining infrastructure, the new miners will be powered with 100% hydroelectricity. Bitfarms is also scheduled to receive an identical order of 1,500 M31S+ from MicroBT in July that will increase our installed hashrate to approximately 1.66 EH/s. This new equipment will be installed in our existing infrastructure as well as our new Cowansville expansion set to be completed within the next four weeks.

Nasdaq Update and Change in Escrow Release Schedule

On May 7, 2021, Bitfarms announced its application to list its common shares on the Nasdaq Global Market® was approved by The Nasdaq Stock Market ("Nasdaq") under the symbol "BITF". The Company is pleased to announce that the final steps to listing on Nasdaq are expected to be completed shortly. The Company also announces that, as a result of the Company's listing on Nasdaq, the Company will become an "established issuer" pursuant to the terms of an escrow agreement among the Company, TSX Trust Company and certain securityholders of the Company, dated June 12, 2019, which was entered into at the time of listing the Company's common shares on the TSX Venture Exchange (the "Escrow Agreement"). Pursuant to the terms of the Escrow Agreement, the release schedule for the securities subject to escrow shall change upon the Company becoming an "established issuer". Under the new release schedule, the 28,327,212 common shares and 4,341,576 options to purchase common shares currently held in escrow shall be released from escrow immediately upon completion of the Nasdaq listing.

About Bitfarms Ltd.

Founded in 2017, Bitfarms is a Bitcoin mining company, running vertically integrated mining operations with onsite technical repair, proprietary data analytics and Company-owned electrical engineering and installation services to deliver high operational performance and uptime.

Having demonstrated rapid growth and stellar operations, Bitfarms became the first Bitcoin mining company to complete its long form prospectus with the Ontario Securities Commission and started trading on the TSX-V in July 2019. On February 24, 2021, Bitfarms was honoured to be announced as a Rising Star by the TSX-V.

Bitfarms has a diversified production platform with five industrial scale facilities located in Québec. Each facility is 100% powered with environmentally friendly hydro power and secured with long-term power contracts. Bitfarms is currently the only publicly traded pure-play mining company audited by a Big Four audit firm.

Defined Terms

Cautionary Statement

Trading in the securities of the Company should be considered highly speculative. No stock exchange, securities commission or other regulatory authority has approved or disapproved the information contained herein. Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Forward-Looking Statements

This news release contains certain "forward-looking information" and "forward-looking statements" (collectively, "forward-looking information") that are based on expectations, estimates and projections as at the date of this news release. The information in this release regarding expectations in respect to the future delivery and deployment of mining infrastructure, escrowed shares, and about future plans and objectives of the Company, including in respect of listing and trading on Nasdaq, are forward-looking information. Other forward-looking information includes, but is not limited to, information concerning: the intentions, plans and future actions of the Company, as well as Bitfarms' ability to successfully mine digital currency, revenue increasing as currently anticipated, the ability to profitably liquidate current and future digital currency inventory, volatility of network difficulty and digital currency prices and the potential resulting significant negative impact on the Company's operations, the construction and operation of expanded blockchain infrastructure as currently planned, and the regulatory environment for cryptocurrency in the applicable jurisdictions.

Any statements that involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, future events or performance (often but not always using phrases such as "expects", or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "budget", "scheduled", "forecasts", "estimates", "believes" or "intends" or variations of such words and phrases or stating that certain actions, events or results "may" or "could", "would", "might" or "will" be taken to occur or be achieved) are not statements of historical fact and may be forward-looking information and are intended to identify forward-looking information.

This forward-looking information is based on assumptions and estimates of management of the Company at the time they were made, and involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking information. Such factors include, among others, risks relating to: the global economic climate; dilution; the Company's limited operating history; future capital needs and uncertainty of additional financing; the competitive nature of the industry; currency exchange risks; the need for the Company to manage its planned growth and expansion; the effects of product development and need for continued technology change; protection of proprietary rights; the effect of government regulation and compliance on the Company and the industry; network security risks; the ability of the Company to maintain properly working systems; reliance on key personnel; global economic and financial market deterioration impeding access to capital or increasing the cost of capital; and volatile securities markets impacting security pricing unrelated to operating performance. In addition, particular factors that could impact future results of the business of Bitfarms include, but are not limited to: the construction and operation of blockchain infrastructure may not occur as currently planned, or at all; expansion may not materialize as currently anticipated, or at all; the digital currency market; the ability to successfully mine digital currency; revenue may not increase as currently anticipated, or at all; it may not be possible to profitably liquidate the current digital currency inventory, or at all; a decline in digital currency prices may have a significant negative impact on operations; an increase in network difficulty may have a significant negative impact on operations; the volatility of digital currency prices; the anticipated growth and sustainability of hydroelectricity for the purposes of cryptocurrency mining in the applicable jurisdictions, the ability to complete current and future financings, any regulations or laws that will prevent Bitfarms from operating its business; historical prices of digital currencies and the ability to mine digital currencies that will be consistent with historical prices; an inability to predict and counteract the effects of COVID-19 on the business of the Company, including but not limited to the effects of COVID-19 on the price of digital currencies, capital market conditions, restriction on labour and international travel and supply chains; and, the adoption or expansion of any regulation or law that will prevent Bitfarms from operating its business, or make it more costly to do so. For further information concerning these and other risks and uncertainties, refer to the Company's filings on www.SEDAR.com including the annual information form for the year ended December 31, 2020, filed on April 7, 2021. The Company has also assumed that no significant events occur outside of Bitfarms' normal course of business. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those expressed in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on any forward-looking information. The Company undertakes no obligation to revise or update any forward-looking information other than as required by law.
