Empery Digital Announces Update on Share Repurchase Program

Empery Digital Has Repurchased Incremental 167,809 Shares

Empery Digital Has Repurchased Over 26.5 Million Shares

AUSTIN, Texas--(BUSINESS WIRE)-- Empery Digital Inc. (NASDAQ: EMPD) (the "Company" or "Empery Digital") today provided an update on its share repurchases.

In the week ended October 30, 2026, the Company repurchased 167,809 shares of its common stock under its $200 million share repurchase program at an average price of $2.88 per share, including fees and commissions. As of October 30, 2026, the Company has repurchased an aggregate of 26,531,308 shares of its common stock.

Following these repurchases, Empery Digital has 29,527,146 shares outstanding, after giving effect to the potential exercise of 1,653,686 pre-funded warrants, and approximately $50 million remains available under the share repurchase authorization.

As previously announced, the Company has resumed repurchasing shares under its existing share repurchase program, reflecting its continued belief that its shares are significantly undervalued and that repurchasing shares at current levels represents an attractive allocation of capital. Going forward, the Company intends to repurchase shares opportunistically while maintaining sufficient cash to fund its current commitments and capitalize on future AI infrastructure opportunities.

About Empery Digital

Empery Digital is focused on building long-term shareholder value through its disciplined capital allocation strategy. The Company employs a bitcoin treasury strategy and is strategically expanding into AI infrastructure and data center investments, partnering with operators that have decades of real-estate and energy infrastructure development experience to capture growth at the intersection of digital assets and next-generation compute. Empery Digital is committed to transparency, efficiency, and accountability, applying rigorous decision-making to drive sustainable, long-term shareholder value.
