Creating value by fulfilling our purpose

Advancing the World of Health™

November 4, 2021
Caution Concerning Forward-Looking Statements

This presentation contains certain estimates and other forward-looking statements (as defined under Federal securities laws) regarding BD’s future prospects and performance, including, but not limited to, future revenues, margins, earnings per share, leverage targets, capital deployment, and the proposed spinoff of the diabetes business, including strategies of BD and the independent company following the proposed spinoff, the anticipated benefits of the spinoff, and the expected timing of completion of the spinoff. All such statements are based upon current expectations of BD and involve a number of business risks and uncertainties. Actual results could vary materially from anticipated results described, implied or projected in any forward-looking statement. With respect to forward-looking statements contained herein, a number of factors could cause actual results to vary materially. These factors include, but are not limited to, risks relating to any impact of the current disruptions in the global supply chain on our operations, including our ability to source raw materials and components needed to manufacture our products and inflationary pressures, the impact of the COVID-19 pandemic on our business (including decreases in the demand for our products, any disruptions to our operations and our supply chain, and factors such as vaccine utilization rates and competitive factors that could impact the demand and pricing for our COVID-19 diagnostics testing); product efficacy or safety concerns resulting in product recalls or actions being taken with respect to our products; new or changing laws and regulations impacting our business (including the imposition of tariffs, changes in tax laws, new environmental laws and regulations, or changes in laws impacting international trade) or changes in enforcement practices with respect to such laws; fluctuations in costs and availability of raw materials, labor shortages or increased labor costs and BD’s ability to maintain favorable supplier arrangements and relationships; legislative or regulatory changes to the U.S. or foreign healthcare systems, potential cuts in governmental healthcare spending (including China’s volume-based procurement tender process), or governmental or private measures to contain healthcare costs, including changes in pricing and reimbursement policies, each of which could result in reduced demand for our products or downward pricing pressure; changes in interest or foreign currency exchange rates; adverse changes in regional, national or foreign economic conditions, including inflation, deflation and fluctuations in interest rates, particularly in emerging markets, including any impact on our ability to access credit markets and finance our operations; the demand for our products and services, or our suppliers’ ability to provide products needed for our operations; the adverse impact of cyber-attacks on our information systems or products; competitive factors including technological advances and new products introduced by competitors; risks related to our overall indebtedness; interruptions in our supply chain, manufacturing or sterilization processes; pricing and market pressures; difficulties inherent in product development, delays in product introductions and uncertainty of market acceptance of new products; adverse changes in geopolitical conditions; increases in energy costs and their effect on, among other things, the cost of producing BD’s products; the remediation of our infusion pump business (including risks relating to our ability to obtain regulatory clearance and market acceptance of the BD Alaris® System); our ability to achieve our projected level or mix of product sales; our ability to successfully integrate any businesses we acquire; uncertainties of litigation and/or investigations and/or subpoenas (as described in BD’s filings with the Securities and Exchange Commission); issuance of new or revised accounting standards; risks associated with the proposed spin-off of our Diabetes Care business, including factors that could delay, prevent or otherwise adversely affect the completion, timing or terms of the spin-off, our ability to realize the expected benefits of the spin-off, or the qualifications of the spin-off as a tax-free transaction for U.S. federal income tax purposes, as well as other factors discussed in BD’s filings with the Securities and Exchange Commission. There can be no assurance that BD’s spinoff will in fact be completed in the manner described or at all. In addition, we have made certain assumptions in making these forward-looking statements, particularly regarding the COVID-19 pandemic. If any of these assumptions are incorrect, BD’s actual results could differ materially from those described in these forward-looking statements. We do not intend to update any forward-looking statements to reflect events or circumstances after the date hereof except as required by applicable laws or regulations.

The guidance in this presentation is only effective as of the date given, November 4, 2021, and will not be updated or affirmed unless and until we publicly announce updated or affirmed guidance.
Caution Concerning Non-GAAP Financial Measures

These non-GAAP financial measures are not in accordance with generally accepted accounting principles in the United States. BD management believes that the use of non-GAAP measures to adjust for items that are considered by management to be outside of BD’s underlying operational results or that affect period to period comparability helps investors to gain a better understanding of our performance year-over-year, to analyze underlying trends in our businesses, to analyze our base operating results, and understand future prospects. Management uses these non-GAAP financial measures to measure and forecast the company’s performance, especially when comparing such results to previous periods or forecasts. We believe presenting such adjusted metrics provides investors with greater transparency to the information used by BD management for its operational decision-making and for comparison for other companies within the medical technology industry. Although BD’s management believes non-GAAP results are useful in evaluating the performance of its business, its reliance on these measures is limited since items excluded from such measures may have a material impact on BD’s net income, earnings per share or cash flows calculated in accordance with GAAP. Therefore, management typically uses non-GAAP results in conjunction with GAAP results to address these limitations. BD strongly encourages investors to review its consolidated financial statements and publicly filed reports in their entirety and cautions investors that the non-GAAP measures used by BD may differ from similar measures used by other companies, even when similar terms are used to identify such measures. Non-GAAP measures should not be considered replacements for, and should be read together with, the most comparable GAAP financial measures.

Reconciliations of these and other non-GAAP measures to the comparable GAAP measures are included in the financial tables at the end of this presentation. Within these financial tables, certain columns and rows may not add due to the use of rounded numbers. Percentages and earnings per share amounts presented are calculated from the underlying amounts. Current, prior-quarter and prior-year adjusted diluted earnings per share results exclude, among other things, the impact of purchase accounting adjustments, integration and restructuring costs, spin-off related charges, certain transaction gains, certain legal defense and product remediation costs, certain regulatory costs, certain investment gains and asset impairments and the impact of the extinguishment of debt.

We also provide these measures, as well as revenues, on a currency-neutral basis after eliminating the effect of foreign currency translation, where applicable. We calculate foreign currency-neutral percentages by converting our current-period local currency financial results using the prior period foreign currency exchange rates and comparing these adjusted amounts to our current-period results. Reconciliations of these amounts to the most directly comparable GAAP measures are included in the financial tables at the end of this presentation and in our November 4, 2021, earnings press release.
BD is an innovative medtech leader with global reach and scale addressing healthcare’s most pressing challenges.

**FY21 Revenues by segment**

- **$20.2 billion**
- **#1 in nearly all major served categories**

**FY21 Revenues by region**

- **United States**: 54%
- **Europe**: 22%
- **China**: 18%
- **Rest of World**: 7%
- **46% International Revenue**
- **14% Emerging Markets**

Note: BD financial information presented is for fiscal 2021. Share information and rank based on internal estimates and publicly available information. Percentages may not add due to rounding.
BD is helping reinvent healthcare, driven by our purpose of advancing the world of health™ to improve diagnosis, medication delivery and treatment.
Executive overview

Tom Polen
Chairman, CEO, and President
### Strong base business momentum

<table>

<td><strong>$13.08</strong></td>
<td><strong>$4.6B</strong></td>
</tr>
<tr>
<td>+15.6% FXN growth</td>
<td>+28.2% growth</td>
<td>Up over $1.1B vs. prior year</td>
</tr>
<tr>
<td>Base business(^1) +8.1% FXN growth</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Covid Dx revenue of ~$2B</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- ✓ **Base business momentum** drove outperformance versus initial expectations
- ✓ Proud of our impact **helping the world diagnose, treat and prevent COVID-19**

Full-year revenues, adjusted EPS and cash flows ahead of our expectations

\(^1\) See Basis of Presentation on slide 29. Please see Appendix for non-GAAP reconciliations
Our strategy expands our leadership position in our core, while purposefully shifting into higher-growth spaces transforming the future of healthcare

Smart connected care

AI, informatics, and robotics will transform healthcare processes, tools and treatments

New care settings

Shift into new settings creates major opportunities to improve patient outcomes and costs

Chronic disease outcomes

Medical technology will have a growing role in improving outcomes in chronic diseases
Advanced our BD2025 strategy to drive growth in FY22 and beyond

✔ **Strengthened balance sheet and cash flows** enabling increased R&D and tuck-in M&A

✔ **Accelerated value creation** through reinvestment of COVID testing proceeds

✔ Purposefully **shifting innovation** towards **higher-impact and higher-growth markets**

✔ Returned capital to shareholders through **share repurchases and dividends**
Diabetes Care spin represents value creation opportunity for all stakeholders

**Diabetes Care**
- FY21 revenues: ~ $1.2 billion
- Global leader in insulin injection devices
- Serving an estimated 30 million patients worldwide

**Key Benefits**
- **Strengthens the growth profile** of RemainCo and NewCo
- Allows RemainCo and NewCo to have more efficient business processes and allocation of resources and capital
- Enables NewCo to invest its capital in growth opportunities including high-growth markets and next-generation products
- **Strong NewCo leadership team** in place
- Proposed spin remains on track for the first half of calendar 2022

NewCo refers to the diabetes care business unit as an independent publicly traded company. RemainCo refers to BD post the separation of the diabetes care business.

The spinoff of the diabetes care business is subject to final approval by the BD Board of Directors and the effectiveness of a Form 10 registration statement filed with the SEC.
2030+ Sustainability goals support human health, communities and the planet
‘Together We Advance’ ESG strategy builds on two decades of achievement

- **Company Health**: Building a strong business foundation through good governance and transparent reporting
- **Planet Health**: Implementing sustainable solutions to reduce our environmental footprint
- **Community Health**: Collaborating with communities and investing our resources to do what’s right
- **Human Health**: Empowering employees to innovate new products and solutions, delivering what’s next in healthcare
Financial performance

Christopher DelOrefice
EVP & CFO
Fourth quarter results driven by strong base recovery

**Q4 FY21 Revenue Highlights**

(Commentary refers to FXN Y/Y basis unless specified)

- **Strong base business performance** across all three segments
- **Higher acuity**, continued improvement in overall **healthcare utilization**, routine testing and lab utilization
- **Increased demand for our broad portfolio of products** more than offset the impact on elective procedures from the Delta variant

Please see Appendix for non-GAAP reconciliations
## BD Medical: Continued strength in Medication Delivery Solutions & Pharmaceutical Systems

Net leverage is on an adjusted basis, please see Appendix for non-GAAP reconciliations
Guidance

Christopher DelOrefice
EVP & CFO
**FY22 assumptions and considerations**

- Continued easing of COVID-19 restrictions
- No further significant disruptions to elective procedures
- Not anticipating supply chain constraints and inflationary pressures to worsen or for conditions to return to normal levels
- Assumes ~$200M COVID only Dx testing revenues
- Alaris capital revenue generally in-line with FY21
- Base business revenue includes our combination flu/COVID assays at levels comparable to a “normal” flu season of~$75M to $100M
- No incremental revenue from BD Alaris system; does not assume 510k clearance
- Does not assume legislation changes that would impact the broader market

<table>
<thead>
<tr>

FY22 operating margins are on the path to recovery

21.7%  

Volume utilization (incl. COVID recovery)  

Continuous Improvement / Price/Mix / Expense Leverage  

Above normal inflation (COGS and Shipping)  

Estimated FX Impact  

FY22 Adjusted Base Operating Margin

~100 bps

~50 bps

~200 bps

(1) Please see slide 34 for a reconciliation of adjusted operating margin to base operating margin.
FY22 adjusted EPS guidance

FY21 Adjusted EPS $13.08

Y/Y change COVID only testing profit net of reinvestment ~19%

Base business operational EPS growth\(^{(1)}\) ~14%

Base business revenue\(^{(2)}\)

Base business margins\(^{(2)}\)

FY22 adjusted EPS $12.30 – $12.50

\(^{(1)}\) Base business operational growth also includes the net impact of the benefit of improvement in Interest / Other offset by the unfavorable Y/Y increase in our effective tax rate

\(^{(2)}\) Please see Basis of Presentation on slide 29

Note: This guidance is only effective as of the date given, November 4, 2021, and will not be updated or affirmed unless and until we publicly announce updated or affirmed guidance. Please see Appendix for non-GAAP reconciliations.
NewCo refers to the diabetes care business unit as an independent publicly traded company. RemainCo refers to BD post the separation of the diabetes care business.

The spinoff of the diabetes care business is subject to final approval by the BD Board of Directors and the effectiveness of a Form 10 registration statement filed with the SEC.

**Diabetes Care spin represents significant value creation opportunity for all stakeholders**

### RemainCo considerations
- **RemainCo revenue and adjusted EPS growth profile enhanced** as the Diabetes Care growth rate is dilutive
- Diabetes Care margin profile, above corporate average, but declining. **Margins will be restated to adjust for the spin-off.**
- Proposed spin-off creates value through an **upfront cash infusion equal to multiple years of cash generated** from Diabetes Care unit. (details to be provided at a later date)
- **Increasing Dividend payout** on a proforma basis post spin
- Intended to be **tax-free for U.S. federal income tax purposes**
- **Transition Service Agreement mitigates stranded costs**

### NewCo Considerations
- One of the **largest pure-play Diabetes companies** in existence today, with an ability to drive **strong cash flow**
- Anticipated capital structure designed to **support investment in growth**
- Growth acceleration opportunities through **high-growth markets and next-generation products**
- Further **opportunity to pursue acquisitions** aligned with growth strategy
- **Experienced executive team** and enhanced ability to **attract and retain top talent**

Cut-off: NOV 9, 2021
### FY22 Quarterly phasing considerations

<table>
<thead>
<tr>
<th>P&amp;L Line item</th>
<th>Quarterly phasing considerations</th>
</tr>
</thead>
</table>
| **Revenue**   | • Revenue growth expected to be normalized across quarters with exception of Q2  
                 • Q2 growth expected to be higher due to easier comparison from prior year COVID resurgence  
                 • COVID testing revenue expected to be more weighted to 1H |
| **Gross margin** | • 1H expected to be lower  
                 • Increased inflation began earlier in FY21 while benefits of cost improvement initiatives will be on a lag as they flow through inventory  
                 • Inflation flow through to inventory expected to be most prominent in Q2 and improve across balance of the fiscal year |
| **Operating expenses** | • Operating expenses expected to be fairly ratable by quarter as we move past COVID variability |
| **Effective Tax Rate** | • Full-year ETR includes assumptions around jurisdictional mix of income and certain potential discrete items.  
                     • Timing of realization of discrete items could result in variability which could potentially include a lower Q1 rate. |
Appendix
We have launched a series of innovative products and solutions in FY21

**BD Medical**
- BD Cathena™ IV Safety Catheter with BD Multiguard™ Technology
- BD PhaSeal™ Optima Locking Injector N40-O
- BD Securis™ Stabilization Device
- BD Pyxis™ Inventory Connect 1.0
- BD Hylom™ for IV
- BD NeXus™ (MedCaptain)
- BD BodyGuard™ DUO Barcode
- BD Pyxis™ ES 1.7
- BD HealthSight™ Infusion Diversion, MedSafety

**BD Life Sciences**
- BD MAX™ FLU + COVID-19 Assay
- BD Veritor™ Connectivity Module
- BD Veritor™ FLU + COVID-19 POC Antigen Test
- BD Kiestra™ ReadA Compact
- BD FACSDuet™ (US)
- BD FACSymphony™ A1
- BD FACSymphony™ A5.2 SE
- BD Veritor™ At-Home
- BD MAX™ CTGCTV2 Assay
- BD COR™ System with Onclarity™ (US)

**BD Interventional**
- Proxis™ 11/13
- Global Intermittent Self Cath - Economy
- Sensica™ Automated Urine Output
- PeriX™
- Pristin™
- SureStep™ 1.1
- Glidepath™ Retro
- Glidepath™ LE
- Crosser™ IQ

Note: Not all products are available in all countries/regions. Products that appear on this page are in development unless otherwise noted.

We are already making progress against our 2030+ sustainability goals

<table>
<thead>
<tr>
<th>Impact area</th>
<th>Our ambition</th>
<th>Key highlights</th>
</tr>
</thead>
<tbody>
<tr>
<td>Climate Change</td>
<td>• Minimize our contribution to global emissions and utilize our capabilities to address unmet health needs for climate vulnerable populations</td>
<td>• BD has committed to set science-based emissions reduction targets — across the entire value chain—that are consistent with keeping global warming to 1.5°C above pre-industrial levels. We will set verifiable science-based targets through the Science Based Targets initiative (SBTi), which independently assesses corporate emissions reduction targets in line with what climate science says is needed to meet the goals of the Paris Agreement.</td>
</tr>
<tr>
<td>Product Impacts</td>
<td>• Reduce the environmental impact of our portfolio and address the sustainability needs of our customers</td>
<td>• BD’s Jessica Gemmell has been selected by DiversityPlus Magazine as one of the 2021 Top 15 Women in Power Impacting Diversity in recognition of her efforts to drive measurable results in the Supplier Diversity, Equity &amp; Inclusion (SDEI) space. A successful supplier diversity program not only supports sustainable procurement efforts, but it is integral in how we support the economic empowerment of underutilized and underserved communities.</td>
</tr>
<tr>
<td>Responsible Supply Chain</td>
<td>• Create a supply chain adaptable to disruption and able to contribute to strong environmental and social performance</td>
<td></td>
</tr>
<tr>
<td>Healthy Workforce and Communities</td>
<td>• Maintain a healthy and thriving workforce that cultivates our culture of inclusion, safety, well-being and contributes to community health</td>
<td>• Six grants totaling $900,000 – provided through the BD Helping Build Healthy Communities™ initiative – were awarded to help community health centers to address health equity and expand healthcare access in underserved U.S. communities. Implemented in partnership with Direct Relief and the National Association of Community Health Centers (NACHC), BD and the BD Foundation have committed $22.6 million to this initiative through 2023.</td>
</tr>
<tr>
<td>Transparency</td>
<td>• Invite trust across stakeholder groups through transparent performance reporting on ESG issues relevant to our business</td>
<td>• We launched the BD Cybersecurity Trust Center to give customers access to timely, actionable cybersecurity information. In addition, BD became the first medical technology company authorized as a Common Vulnerability and Exposures (CVE®) Numbering Authority by the CVE Program, making it easier for customers to manage vulnerabilities affecting BD products.</td>
</tr>
</tbody>
</table>
Basis of presentation

All dollar amounts presented are USD ($) in millions, unless otherwise indicated, except per share figures.
Certain financial information, described as FXN (defined below), excludes the impact of foreign currency translation.
Revenue year-over-year change comparisons are on a FXN basis unless otherwise noted.

**Base revenue** denotes total revenues less estimated revenues for COVID-19 only diagnostic testing.

**COVID only diagnostic testing** includes COVID only assays on our BD Veritor™ and BD Max ™ and related collection, transport, and swabs.

**Base business margins** adjusts for the net impact of estimated COVID only diagnostic testing profitability and the related profit reinvestments back into our business.\(^{(1)}\)

**FXN** denotes currency neutral basis. We calculate foreign currency-neutral percentages by converting our current-period local currency financial results using the prior period foreign currency exchange rates and comparing these adjusted amounts to our current-period results.

**NewCo** refers to the diabetes care business as an independent publicly traded company.

**RemainCo** refers to BD post the separation of the diabetes care business.

\(^{(1)}\) See the financial tables in the Appendix for a reconciliation to the most comparable GAAP measure

(1) Primarily represents integration, restructuring and transaction costs associated with acquisitions, as well as simplification and other cost saving initiatives.

(2) Represents costs incurred for consulting, legal, tax and other advisory services associated with the planned spinoff of BD’s Diabetes Care business.

(3) Includes amounts recorded for product liability reserves, including related legal defense costs. It also includes net charges related to the estimate of probable future product remediation costs and sale-leaseback transactions.

(4) Represents costs required to develop processes and systems to comply with emerging regulations such as the EUMDR and GDPR.

(5) Represents unrealized gains relating to certain investments.

(6) Net Leverage is calculated by dividing Net Debt by Adjusted EBITDA.

Amounts may not add due to rounding.
Supplemental Non-GAAP Reconciliation
FY22 Outlook Reconciliation

Note: Adjusted diluted EPS for fiscal 2022 excludes potential charges or gains that may be recorded during the fiscal year, such as, among other things, the non-cash amortization of intangible assets, acquisition-related charges, spinoff related charges, and certain tax matters. BD does not attempt to provide reconciliations of forward-looking non-GAAP EPS guidance to the comparable GAAP measure because the impact and timing of these potential charges or gains is inherently uncertain and difficult to predict and is unavailable without unreasonable efforts. In addition, the company believes such reconciliations would imply a degree of precision and certainty that could be confusing to investors. Such items could have a substantial impact on GAAP measures of BD’s financial performance.
