Primerica Reports Full Year and Fourth Quarter 2011 Results

18% increase in Investment and Savings Product sales in 2011; 6% increase in Investment and Savings Product sales in the fourth quarter

\$41.2 million of net income; diluted EPS of \$0.57 in the fourth quarter of 2011

\$40.6 million net operating income; diluted operating EPS of \$0.56 in the fourth quarter of 2011

DULUTH, Ga.--(BUSINESS WIRE)-- Primerica, Inc. (NYSE: PRI) announced today financial results for the fourth quarter ended December 31, 2011. Total revenues were \$275.9 million in the fourth quarter of 2011 and net income was \$41.2 million, or \$0.57 per diluted share. Net income in the fourth quarter of 2010 was \$52.9 million, or \$0.69 per diluted share, including \$.10 per diluted share largely related to certain reinsurance recoveries that were excluded from operating results in that period.

Rick Williams, Chairman of the Board and Co-Chief Executive Officer, said, "We are proud of what we were able to accomplish in 2011 as we focused on building Primerica for the future by pursuing opportunities to grow our existing businesses while seeking to enhance shareholder value over time. We made significant strides on our capital management strategy, including the \$200 million share repurchase that was both accretive to earnings per share and enabled Citi to sell its remaining Primerica stock in a secondary offering. Our business continued to perform well in 2011 driven primarily by a 27% increase in Term Life net premium revenue on an operating basis and an 18% increase in our Investment and Savings Product sales compared with 2010. In 2012, we will continue to follow-through with business enhancements and capital initiatives to deliver strong operating results."

John Addison, Chairman of Primerica Distribution and Co-Chief Executive Officer, said, "In 2011 we launched innovative incentives, new technology and improved product offerings, including our new TermNow rapid issue life insurance product and the addition of managed accounts to our Investment and Savings Products platform. The initiatives launched at our successful June convention helped drive the 6% growth in recruiting and 6% growth in life insurance policies issued in 2011 over the prior year. We continue to focus on enhancing our business opportunity with incentives and innovations designed to build distribution and drive long-term sales force and revenue growth."

Results for the fourth quarter of 2011 reflect continued growth in our Term Life business partially offset by a modestly higher expense base. During the quarter we recognized a \$5.0 million pre-tax charge to record cumulative potential claims related to cross-checking our U.S. life insurance policyholders with public death records to identify deceased policyholders for whom claims have not been filed and of which we were previously unaware. We also incurred a \$1.3 million pre-tax charge related to our required share of the liquidation plan for

Executive Life Insurance Company of New York filed by the New York State Department of Financial Services. The combined impact of these charges reduced net operating income per diluted share by approximately \$.06 in the fourth quarter of 2011. Also impacting the fourth quarter year-over-year comparison were certain non-recurring items that collectively contributed \$.04 per diluted share to net operating income in the fourth quarter of 2010. The combined result was that operating revenues increased by 3% to \$271.6 million in the fourth quarter of 2011, compared with \$264.5 million in the fourth quarter of 2010. Net operating income was \$40.6 million, or \$0.56 per diluted share, in the fourth quarter of 2011, compared with \$45.2 million, or \$0.59 per diluted share, in the fourth quarter of 2010.

For the full year 2011, net income was \$178.3 million, compared with \$257.8 million for 2010. Net income for the first quarter of 2010 did not reflect the impact of the Citi reinsurance and reorganization transactions. Adjusted to reflect the impact of these transactions as well as other operating adjustments described below, net operating income was up 10% to \$177.1 million for 2011, compared with \$161.5 million for 2010 reflecting growth in the Term Life business and strong Investment and Savings Products results partially offset by a higher expense base.

Distribution Results

- The size of our life-licensed insurance sales force was 91,176 at December 31, 2011 compared with 91,970 at September 30, 2011. The number of new recruits obtaining life licenses increased 5% in the fourth quarter of 2011, compared with the prior year period. Recruiting declined 12% to 43,731 in the fourth quarter of 2011, compared with the fourth quarter of 2010. Sequentially, recruiting declined following the robust post-convention recruiting surge and seasonally higher third quarter. We also modified fourth quarter incentives to focus more on getting new recruits licensed and productive.
- Life insurance policies issued increased 9% to 61,361 in the fourth quarter of 2011, compared with the year ago period reflecting a processing cycle which provided five additional business processing days in the fourth quarter of this year. Excluding the extra business days, life insurance policies issued increased 2% year-over-year. Term Life net premium grew by 19% to \$121.0 million in the fourth quarter of 2011 compared with the fourth quarter a year ago and increased by 3% from the third quarter as we continue to build the New Term business. Sequentially, life insurance policies issued declined 6% from the third quarter of 2011 reflecting seasonally lower life insurance sales.
- Investment and Savings Products sales continued to grow, up 6% to \$955.8 million in the fourth quarter of 2011 from \$903.0 million in the year ago period primarily driven by a 27% increase in variable annuity sales. Sequentially, Investment and Savings Products sales declined 10% reflecting the choppy market environment. Client redemptions of older variable annuity contracts to purchase the current Prime Elite IV variable annuity that offers an attractive guaranteed income living benefit were higher in the fourth quarter of 2011 compared with the fourth quarter of 2010, but were sequentially lower than the third quarter of 2011. Client asset values decreased 3% to \$33.66 billion at December 31, 2011 from \$34.87 billion at December 31, 2010 but increased 6% from \$31.62 billion at September 30, 2011 primarily reflecting market movement.

(1) See the Non-GAAP Financial Measures section and the Operating Results Reconciliations at the end of this release for additional information.

Term Life Insurance. Operating revenues grew by 17% to \$144.7 million in the fourth quarter of 2011, compared with the same period a year ago. Operating income before income taxes increased by 11% to \$43.1 million over the prior year period. These results reflect growth in the Term Life business, modestly favorable mortality experience and slightly unfavorable persistency during the fourth quarter of 2011 versus the year ago period. Net investment income grew due to an increase in required assets associated with Term Life growth partially offset by lower asset returns. Insurance expenses increased in the quarter compared with the fourth quarter of 2010, reflecting in part the continued run-off of our Legacy Term allowances and higher premium-related expenses commensurate with the growth in New Term premium. During the fourth quarter of 2011, we recognized \$3.9 million of the \$5.0 million charge related to our search of public death records in Term Life with the remaining \$1.1 million charged to our non-term New York business in Corporate and Other. The year-over-year comparison is also impacted by certain non-recurring items in the fourth quarter of 2010.

Sequentially, operating income before income taxes decreased by 10%, or \$5.0 million, compared with the third quarter of 2011 primarily due to the charge related to our search of

public death records and unfavorable fourth quarter seasonal persistency partially offset by continued business growth. Insurance expenses were flat with the prior quarter.

Investment and Savings Products. Results in the fourth quarter of 2011 reflect higher sales and a larger volume-related incentive payment earned for strong 2011 variable annuity sales offset by higher expenses largely related to our new managed accounts product and government relations expenses. Impacting the fourth quarter year-over-year comparison is an adjustment made in the fourth quarter of 2010 that increased operating revenue by \$11.6 million and increased operating income before income taxes by \$4.8 million during that period. As a result, operating revenues declined by 9% to \$93.8 million while operating income before income taxes declined by 17% to \$28.8 million in the fourth quarter of 2011, compared with the same period a year ago.

Sequentially, operating revenues decreased by 4%, or \$3.7 million from the third quarter of 2011, reflecting lower product sales and average client asset values partially offset by the volume-related variable annuity incentive payment earned in the fourth quarter of 2011. These same factors, combined with lower Canadian Segregated Fund DAC amortization and flat operating expenses, resulted in a sequential quarter increase in operating income before income taxes of 8%, or \$2.1 million.

Corporate and Other Distributed Products Operating revenues declined by 12% to \$33.1 million in the fourth quarter of 2011, compared with the fourth quarter of 2010. Operating losses before income taxes were \$10.1 million in the fourth quarter of 2011, compared with a \$4.8 million loss in the same period of 2010. Operating revenues for the fourth quarter of 2011 reflect a decline in net investment income of \$2.4 million due to the combined effect of an increased allocation to Term Life and lower aggregate invested assets and returns. Lower operating expenses in the fourth quarter reflect various reductions including the elimination of Citi allocations offset by a \$1.0 million charge associated with the discontinuation of our U.S. lending business. Fourth quarter 2011 benefits and claims include the \$1.1 million charge related to our search of public death records for our New York subsidiary's non-term life business. A \$1.3 million charge to insurance expense related to the liquidation plan for Executive Life Insurance Company of New York was also recognized.

Taxes

Our effective income tax rate for the fourth quarter of 2011 was 34.3%, unchanged from the same quarter a year ago and down from 36.4% in the third quarter of 2011. Sequentially, the lower tax rate in the fourth quarter of 2011 reflects lower exposure reserves relative to the third quarter 2011 due to the timing of statute expirations.

Capital and Liquidity

Primerica continues to be well capitalized, holding a high-quality invested asset portfolio with minimal exposure to equities and European sovereign risk. Investments and cash totaled \$2.16 billion as of December 31, 2011. Our invested asset portfolio had a net unrealized gain of \$153.2 million (net of unrealized losses of \$11.4 million) at December 31, 2011, up from a net unrealized gain of \$152.7 million (net of unrealized losses of \$12.5 million) at September 30, 2011. Net realized investment gains for the quarter were \$4.3 million, which is net of \$0.7 million of other-than-temporary impairments.

As of December 31, 2011, our debt-to-capital ratio remained low at 17.4%. Our ratio of cash and invested assets to adjusted stockholders' equity of 1.6x at December 31, 2011, reflects the conservative nature of our balance sheet and generally the lower asset requirement and asset liability matching risk of term insurance.

Following Primerica Life Insurance Company's \$200 million dividend payment to Primerica, Inc., that funded the fourth quarter share repurchase, Primerica Life Insurance Company's statutory risk-based capital (RBC) ratio is estimated to be in excess of 420% as of December 31, 2011. At this level, we believe we remain well positioned to support existing operations and fund future growth.

Net operating income return on adjusted stockholders' equity (ROAE) was 11.6% for the quarter ended December 31, 2011, down from 11.7% in the third quarter of 2011. This slight decline was driven by the one-time charges in the fourth quarter partially offset by the accretive impact of our \$200 million share repurchase also in the fourth quarter. Net income return on stockholders' equity was 11.0% for the fourth quarter of 2011.

Non-GAAP Financial Measures

We report financial results in accordance with U.S. generally accepted accounting principles (GAAP). We also present operating revenues, operating income before income taxes, net operating income and adjusted stockholders' equity. Operating revenues, operating income before income taxes and net operating income exclude the impact of realized investment gains and losses for all periods presented. Operating income before income taxes and net operating income exclude the expense associated with our IPO-related equity awards for all periods presented. In full year 2011, fourth quarter 2010 and full year 2010, operating revenues, operating income before income taxes and net operating income also exclude the impact of certain reinsurance recoveries which previously had not been recognized due to the uncertain nature of their recovery. In full year 2010, operating revenues, operating income before income taxes and net operating income also give effect to the Citi reinsurance and reorganization transactions as if they had occurred on January 1, 2010. Adjusted stockholders' equity excludes the impact of net unrealized gains and losses on invested assets for all periods presented. Our definitions of these non-GAAP financial measures may differ from the definitions of similar measures used by other companies. Management uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating our financial performance. Furthermore, management believes that these non-GAAP financial measures may provide users with additional meaningful comparisons between current results and results of prior periods as they are expected to be reflective of our core ongoing business. These measures have limitations, and investors should not consider them in isolation or as a substitute for analysis of our results as reported under GAAP. Reconciliations of non-GAAP to GAAP financial measures are attached to this release.
