## **Coda Octopus Today Raises \$13,255,000 in a Private Placement**

NEW YORK, NY -- (MARKET WIRE) -- 04/04/07 -- Coda Octopus Group, Inc. (PINKSHEETS: CDOC), world leader in underwater port security technology, headquartered here, announced it entered into definitive agreements which today yields \$13,255,000 in a private placement for the sale and purchase of 13,255,000 units priced at \$1.00 per unit to several institutional and individual accredited investors. Each unit consists of one share of common stock, one half warrant exercisable at \$1.30 per share and one half warrant exercisable at \$1.70 per share. T.R. Winston & Company acted as the placement agent.

The Company is under an obligation to register the newly issued shares of common stock and those underlying the Warrant Shares in accordance with Securities and Exchange Commission regulations.

Net proceeds from the private placement will be used for working capital and \$1,999,910 for the redemption of 18,181 units of Vision Capital's (Vision) Series B Preferred Stock at a price of \$110 per share. Vision has already converted 26,000 Series B Preferred Stock into 2,600,000 shares of the Company's common stock. Vision has also agreed to lock up of all of its holdings in the Company for a period of 12 months.

Jason Reid, Coda Octopus President and CEO, said, "We are pleased by the quality of institutional participation and view the placement as providing the Company with the capital it needs to fully implement its business plans, and to move as rapidly as possible to gain a listing for its stock on an appropriate national exchange."

### **About Coda Octopus**

Founded in 1994, Coda Octopus is recognized internationally as a leading developer of underwater technologies for imaging, mapping, defense and survey applications. Based in New York, with R&D, manufacturing, and sales facilities in the UK, Norway, and Florida, its key products include Octopus precision motion sensors, Coda and Octopus marine software and systems, Octopus thermal printers and the unique Coda Echoscope -- the first real time 3D sub sea sonar with a variety of applications within navies and for sub sea construction. The Echoscope is the heart of the Coda Octopus Underwater Inspection System used for homeland security in ports around the world. With this patented new product, which revolutionizes sub sea visualization, Coda Octopus believes it is well on its way to becoming the world's leading sonar technology company.
