NaturalShrimp, Inc. Announces Successful Transfer of Shrimp from Nursery to Grow-Out Tanks in Webster City, Iowa

Dallas, Texas, May 19, 2021 (GLOBE NEWSWIRE) -- via [NewMediaWire](#) -- NaturalShrimp, Inc. (OTCQB: SHMP), a Biotechnology Aquaculture Company that has developed and patented the first commercially operational RAS (Recirculating Aquaculture System), has begun transferring shrimp from nursery to grow-out tanks in the NaturalShrimp Iowa production facility located in Webster City, Iowa.

The Nursery production facility is located in Blairsburg, Iowa and contains one-hundred and twenty (120) 500-gallon tanks, of which twenty (20) were stocked with postlarvae (PL) shrimp. The PLs were successfully trucked from the Blairsburg plant approximately 20 miles to the Webster City, Iowa plant. The Webster City plant contains two-hundred and forty (240) 10,000-gallon grow-out tanks, of which six were stocked with the Nursery PLs. This transfer was significant as it proved out the Company's production plans around utilization of the three facilities in the Iowa triangle. The smaller nursery tanks provide a more controlled environment for acclimating the initial PL shrimp to the facility's water temperature and salinity while still providing enough volume for the smaller shrimp to grow.

Photos of the transfer can be found on the NaturalShrimp website at <https://naturalshrimp.com/> under this press release headline.

ABOUT NATURALSHRIMP: NaturalShrimp, Inc. is a publicly traded aquaculture Company, headquartered in Dallas, with production facilities located near San Antonio, Texas and Webster City, Iowa. The Company has developed the first commercially viable system for growing shrimp in enclosed, salt-water systems, using patented technology to produce fresh, never frozen, naturally grown shrimp, without the use of antibiotics or toxic chemicals. NaturalShrimp systems can be located anywhere in the world to produce gourmet-grade Pacific white shrimp.

Forward-Looking Statements

This press release contains "forward-looking statements." The statements contained in this press release that are not purely historical are forward-looking statements. Forward-looking statements give the Company's current expectations or forecasts of future events. Such statements are subject to risks and uncertainties that are often difficult to predict and beyond the Company's control and could cause the Company's results to differ materially from those described. In some cases, forward-looking statements can be identified by terminology such as "may," "should," "potential," "continue," "expects," "anticipates," "intends," "plans," "believes," "estimates," and similar expressions. These statements include statements

regarding moving forward with executing the Company's global growth strategy.

The statements are based upon current beliefs, expectations, and assumptions and are subject to a number of risks and uncertainties, many of which are difficult to predict. The Company is providing this information as of the date of this press release and does not undertake any obligation to update any forward-looking statements contained in this press release as a result of new information, future events or otherwise, except as required by law. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends affecting the financial condition of our business.

Forward-looking statements should not be read as a guarantee of future performance or results and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Important factors that could cause such differences include but are not limited to the Risk Factors and other information set forth in the Company's Annual Report on Form 10-Q filed on November 15, 2020, and in our other filings with the U.S. Securities and Exchange Commission.
