Board of Directors Composition

The fundamental duty of the Board is to oversee the Company for the benefit of our stockholders and other stakeholders. It is essential that the Board be composed of directors who are qualified to oversee the development and execution by our management of our business strategies. The Board seeks directors who possess a broad range of skills, expertise and perspectives. The composition of the Board, as reflected in the tables and charts below, demonstrates our commitment to these principles. Our Second Amended and Restated Certificate of Incorporation (the “Certificate of Incorporation”) provides for a classified Board divided into three classes of directors. The average tenure of a director on our Board is 3.47 years.

Corporate Governance Highlights

Corporate Governance Profile

We have the following structures of the Board that we believe contribute to effective corporate governance:

- Majority independent Board
- Fully independent Audit Committee
- Fully independent Compensation Committee
- Fully independent Nominating and Governance Committee

Board Skills, Experience and Diversity

The Board seeks directors who possess a broad range of skills, experience, expertise and perspectives that position the Board to effectively oversee the Company's strategies and risks. Our directors were carefully selected for their mix of skills and expertise, which align with, and facilitate effective oversight of, the Company's strategy. The matrix below summarizes what our Board believes are the key areas of substantive skills and experience. The following matrix does not encompass all experience, qualifications, attributes or skills of our Board. Our directors possess substantive skills and experience in the following key areas, which are relevant to the Board's oversight of the Company, including the technology and software industries; senior management; corporate finance, audit and accounting; public company board service; operations; and strategic business planning.

We also view it as imperative to have a Board that represents diversity of ethnicity, gender, sexual orientation, cultural background and professional experience. The Nominating and Corporate Governance Committee of the Board (the “Nominating and Governance Committee”) believes that diversity is important because different points of view and varied Board member backgrounds and practical experience can contribute to the quality of the Board’s operations and decision-making. The Nominating and Governance Committee assesses board diversity, among other things, on an ongoing basis. The following table sets forth diversity information as self-reported by the current members of our Board.

PROPOSAL 1: Election of Directors

The Board has nominated each of R. Davis Noell, Lucy Stamell Dobrin and Teri L. List for election at the Annual Meeting to serve as Class II directors. The Board believes that each of these nominees continues to have the necessary skills and experience to effectively oversee our business. Each of these nominees currently serves as a director, and each has consented to being named in this Proxy Statement and has agreed to serve if elected.

*The Board recommends that you vote **FOR** the election of each of R. Davis Noell, Lucy Stamell Dobrin and Teri L. List.*

If elected, each of these individuals will serve as a Class II director until the 2026 Annual Meeting of Stockholders and until such director's successor has been elected and qualified, or until such director's earlier death, resignation or removal. The relevant experiences, qualifications, attributes or skills of each nominee that led the Board to recommend the above persons as a nominee for director are described in "Board and Corporate Governance Practices—Board Composition."

Unless otherwise instructed, the proxyholders will vote proxies FOR the nominees of the Board. The Board has no reason to believe that any of its nominees will be unable or unwilling to serve if elected.

However, if any of the Board's nominees should become unable for any reason or unwilling for good cause to serve as a director at any point before the Annual Meeting or any adjournment or postponement of the meeting, the Board may reduce the size of the Board or nominate another candidate for election as a Class I director. If the Board nominates a new candidate, unless otherwise provided, the form of proxy attached to this Proxy Statement permits the proxyholders to use their discretion to vote for that candidate.

**THE BOARD RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH OF
R. DAVIS NOELL, LUCY STAMELL DOBRIN AND TERI L. LIST.**

PROPOSAL 2: Advisory Vote on the Frequency of Future Stockholder Advisory Votes on the Compensation of our Named Executive Officers

At least every six years, we are required to provide our stockholders with the opportunity to indicate their preference regarding how frequently our stockholders vote to approve, on an advisory and non-binding basis, the compensation of our named executive officers as a whole ("Say-on-Pay"). Accordingly, we are asking our stockholders to indicate whether they would prefer this advisory vote every one, two or three years. Alternatively, stockholders may abstain from casting a vote.

After considering the benefits and consequences of each frequency, the Board recommends the Say-on-Pay vote be submitted to stockholders every "one year." In formulating its recommendation, among other things, the Board considered that an annual advisory vote will allow stockholders to provide more meaningful and frequent input on our compensation philosophy, policies and practices.

Approving the frequency of future Say-on-Pay votes requires the affirmative vote of a majority of the voting power of the Shares present virtually or by proxy during the Annual Meeting and entitled to vote thereon. However, if no option receives a majority of votes cast in person or by proxy, the option among one, two or three years that receives the highest number of votes cast at the Annual Meeting by stockholders entitled to vote thereon will be deemed to be the frequency preferred by our stockholders. Abstentions are considered shares present and entitled to vote on this proposal and, thus, will have the same effect as a vote "AGAINST" each of the proposed voting frequencies. Broker non-votes will have no effect on the outcome of this proposal.

While the Board believes that its recommendation is appropriate at this time, our stockholders are not voting to approve or disapprove that recommendation, but are instead asked to indicate their preference, on an advisory basis, as to whether non-binding future stockholder advisory votes on the compensation of our named executive officers should be held every one, two or three years.

As an advisory vote, the result of this proposal is non-binding. Although the vote is non-binding, the Board and Compensation Committee value the opinions of our stockholders in this matter and, to the extent there is any significant vote in favor of one time period over another, will consider the outcome of this vote when making future decisions regarding the frequency of holding future stockholder advisory votes on the compensation of our named executive officers.

THE BOARD RECOMMENDS THAT YOU VOTE TO HOLD FUTURE STOCKHOLDER ADVISORY VOTES ON THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS EVERY "ONE YEAR."

PROPOSAL 3: Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee of the Board (the “Audit Committee”) is responsible for the appointment, compensation, retention and oversight of our independent registered public accounting firm (“independent auditor”) and annually evaluates the independent auditor’s qualifications, performance and independence.

The Audit Committee has appointed Deloitte & Touche LLP (“Deloitte”) as our independent auditor for the fiscal year ending December 31, 2023. Deloitte has served as the independent auditor for the Company since 2019. Deloitte’s background knowledge of the Company, combined with its industry expertise, has enabled it to carry out its audits of our financial statements with effectiveness and efficiency. The members of the Audit Committee believe that the continued retention of Deloitte as our independent auditor is in the best interest of the Company and its stockholders. In determining whether to reappoint Deloitte, the Audit Committee considered factors such as:

- Deloitte’s independence and objectivity;
- Deloitte’s and the lead engagement partner’s capability and expertise in handling the breadth and complexity of our operations;
- Deloitte’s tenure as independent auditor for the Company;
- historical and recent performance of Deloitte, including the extent and quality of communications with members of the Audit Committee; and
- the impact of a change in the independent auditor.

The Audit Committee is involved in the selection of Deloitte’s lead engagement partner and ensures that the lead partner’s engagement is limited to no more than five consecutive years of service in that role (in accordance with SEC rules).

We request that our stockholders ratify the appointment of Deloitte as our independent auditor for fiscal year 2023. If the stockholders do not ratify such appointment, the Audit Committee will take note and may reconsider its retention of Deloitte. If such appointment is ratified, the Audit Committee will still have the discretion to replace Deloitte at any time during the year. Representatives of Deloitte are expected to be present at the Annual Meeting and will have the opportunity to make a statement. They will also be available to respond to questions from stockholders regarding their audit of our consolidated financial statements for fiscal year 2022.

THE BOARD RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF DELOITTE AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR FISCAL YEAR 2023.

Fees Paid to Deloitte

The following table presents, for the years ended December 31, 2021 and 2022, fees for professional services rendered by Deloitte for the audit of our annual financial statements, audit-related services, tax services and all other services. Pre-Approval Policies and Procedures

Pursuant to its charter, the Audit Committee is responsible for engaging, setting compensation for and reviewing the performance of the independent registered public accounting firm. As such, the Audit Committee approves all audit and permitted non-audit related services that our independent registered public accounting firm provides to us prior to each engagement pursuant to procedures it has established. All of the services relating to the fees described in the table above were pre-approved by our Audit Committee in accordance with the procedures described herein.

Audit Committee Report

The Audit Committee is organized under a charter that is reviewed annually by the Audit Committee. Pursuant to the Audit Committee charter, our management is responsible for the preparation, presentation and integrity of our financial statements, the application of accounting and financial reporting principles and our internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent registered public accounting firm is responsible for auditing our financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the United States of America.

In the performance of its oversight function, the Audit Committee reviewed and discussed the audited financial statements of the Company with management and with the independent registered public accounting firm. The Audit Committee also discussed with the independent registered public accounting firm the matters required to be discussed by the applicable requirements of the Public Company Accounting Oversight Board ("PCAOB") and the SEC. In addition, the Audit Committee received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the PCAOB regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and discussed with the independent registered public accounting firm their independence.

Based upon the review and discussion described above, the Audit Committee recommended to the Board that the audited financial statements of the Company be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2022 filed with the SEC.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following table sets forth certain information as of April 10, 2023 with respect to the beneficial ownership of the Shares by (i) each person known to own beneficially more than five percent of the Shares; (ii) each of our directors and director nominees; (iii) each of our named executive officers; and (iv) all of our current executive officers, directors and director nominees as a group.

The amounts and percentages of shares beneficially owned are reported on the basis of regulations of the SEC governing the determination of beneficial ownership of securities. Under SEC rules, a person is deemed to be a “beneficial owner” of a security if that person has or shares voting power or investment power, which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has a right to acquire beneficial ownership within 60 days. Securities that can be so acquired are deemed to be outstanding for purposes of computing such person’s ownership percentage, but not for purposes of computing any other person’s percentage. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities, and a person may be deemed to be a beneficial owner of securities as to which such person has no economic interest.

Percentage computations are based on 166,163,495 Shares outstanding as of April 10, 2023. Except as otherwise indicated in the footnotes to the table, each of the beneficial owners listed has, to our knowledge, sole voting and investment power with respect to the indicated Shares. Unless otherwise set forth in the footnotes to the table, the address for each listed stockholder is 462 Broadway, New York, NY 10013.

EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

Introduction

This Compensation Discussion and Analysis provides information regarding the 2022 compensation program for our “Named Executive Officers” or “NEOs”. For 2022, our NEOs were:

Mark Zagorski, our Chief Executive Officer (our “CEO”);

Nicola Allais, our Chief Financial Officer (our “CFO”);

Julie Eddleman, our Executive Vice President and Global Chief Commercial Officer;

Andrew Grimmig, our Chief Legal Officer; and

Matthew McLaughlin, our former Chief Operating Officer who stepped down from that role on April 1, 2022, and terminated employment with the Company on July 1, 2022.

This Compensation Discussion and Analysis describes material elements of our executive compensation program during 2022. It also provides an overview of our executive compensation philosophy, including our principal compensation policies and practices. Finally, it analyzes how and why the Compensation Committee of our Board (the “Compensation Committee”) and our Board arrived at the specific compensation decisions for our NEOs in 2022 and discusses the key factors that were considered in determining their compensation.

Executive Summary

Who We Are

We are a leading software platform for digital media measurement and analytics. Our mission is to create stronger, safer, more secure digital transactions that drive optimal outcomes for global advertisers. Through our software platform and the metrics it provides, we help preserve the fair value exchange between buyers and sellers of digital media.

2022 Business Highlights

2022 showed strong financial performance marked by significant achievements across our business. 2022 business highlights included the following:

- Total revenue of \$452.4 million, an increase of 36% from 2021.
- \$94.9 million of net cash from operating activities.
- Adjusted EBITDA of \$141.6 million, an increase of 29% from 2021.
- 5.5 trillion media transactions measured (MTM).

2022 Executive Compensation Highlights

Based on our overall operating environment and these results, our Board took the following key actions with respect to the compensation of our NEOs for and during 2022:

- **Base Salaries.** In December 2021, approved annual base salary increases, effective January 1, 2022, of 3% for our CEO and ranging from 3% to 4% for our other NEOs, except for our former Chief Operating Officer.
- **Annual Cash Bonuses.** For our NEOs, approved annual cash bonus awards which, in the aggregate, represented approximately 112% of their target annual cash bonus opportunities as calculated pursuant to the terms of the DoubleVerify Annual Bonus Plan (the “Bonus Plan”), except for our former Chief Operating Officer.
- **Long-Term Incentive Compensation.** Granted long-term incentive compensation opportunities in the form of stock options and restricted stock unit (“RSU”) awards with grant date fair values

ranging in the aggregate from approximately \$2,000,000 to approximately \$3,250,000 for our NEOs other than our CEO, and a stock option and an RSU award for our CEO with an aggregate grant date fair value of approximately \$7,500,000.

Relationship Between Pay and Performance

We design our executive compensation program to align the attraction, motivation, and retention of our executive officers, including our NEOs, with the goal of promoting the interests of our stockholders. In an effort to achieve this balance and to motivate and reward individual initiative and effort, we seek to ensure that a meaningful portion of our executive officers' target total annual direct compensation opportunity is both "at-risk" and variable in nature.

We emphasize variable compensation that appropriately rewards our executive officers through the following two principal compensation elements:

- First, our executives participate in our Bonus Plan, which provides the opportunity for cash bonus awards if our executive officers produce short-term results aligned with long-term stockholder value, such as revenue and Adjusted EBITDA, that meet or exceed certain business and financial objectives set by the Committee, after considering the Company's 2022 annual operating plan. For information as to how we calculate Adjusted EBITDA, which is a non-GAAP financial measure, please refer to page 57 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022.
- Second, we grant both stock options and RSU awards, which in the aggregate comprise a majority of our executive officers' target total direct compensation opportunities. The value of these equity awards depends entirely on the value of our common stock, and coupled with the multi-year vesting periods that apply to them, are intended to incentivize our executive officers to build sustainable long-term value for the benefit of our stockholders.

These variable pay elements ensure that, each year, a substantial portion of our executive officers' target total direct compensation is contingent (rather than fixed) in nature, with the amounts ultimately payable subject to variability above or below target levels commensurate with our actual performance.

We believe that these compensation elements provide balanced incentives for our executive officers to meet our business objectives and drive long-term growth. To monitor our faithfulness to our compensation philosophy, the Compensation Committee regularly evaluates the relationship between the reported values of the equity awards granted to our executive officers, the amount of compensation realizable (and, ultimately, realized) from such awards in subsequent years, and our performance over this period.

Executive Compensation Policies and Practices

We endeavor to maintain sound governance standards consistent with our executive compensation policies and practices. The Compensation Committee reviews our executive compensation program on an annual basis to ensure consistency with our short-term and long-term goals given the dynamic nature of our business and the market in which we compete for executive talent. The following summarizes our executive compensation-related policies and practices that were in effect during 2022:

WHAT WE DO

Maintain Independent Compensation Committee. Throughout 2022 our Compensation Committee was composed of a majority of independent directors who determined our compensation policies and practices. The Compensation Committee and Board have established methods of communicating with our stockholders, as described in the section of this Proxy Statement entitled "Communicating with the Board."

WHAT WE DON'T DO

No Executive Retirement Plans. We do not currently offer, nor do we have plans to offer, defined benefit pension plans or arrangements or any supplemental executive retirement plans to our executive officers. Our executive officers are eligible to participate in our 401(k) defined contribution retirement plan on the same basis as our other employees.

WHAT WE DO

Annual Executive Compensation Review. The Compensation Committee reviews and approves our compensation strategy annually, including a review of our compensation peer group used for comparative purposes and a review of our compensation-related risk profile designed to ensure that our compensation programs do not encourage excessive or inappropriate risk-taking and that the level of risk that they do encourage is not reasonably likely to have a material adverse effect on the Company.

Maintain Independent Compensation Advisor. The Compensation Committee engaged its own compensation consultant to assist with its 2022 compensation review. This consultant performed no other consulting or other services for us in 2022.

Compensation At-Risk. Our executive compensation program is designed so that a significant portion of our executive officers' compensation is "at risk" based on corporate performance, as well as equity-based, to align the interests of our executive officers and stockholders.

Multi-Year Vesting Requirements. The annual equity awards granted to our executive officers vest over multi-year periods, consistent with current market practice and our retention and stockholder alignment objectives.

Stock Ownership Guidelines. We maintain stock ownership guidelines for our executive officers and the non-employee members of our Board (other than Providence-affiliated directors).

Compensation Clawback Policy. In the event of a restatement of our financial results due to material noncompliance with any financial reporting requirement under the U.S. securities laws caused by the fraud, misconduct, or gross negligence of an executive officer subject to Section 16 of the Securities Exchange Act of 1934 (the "Exchange Act") or certain other employees or in certain other situations as specified in the policy, such persons may be required to forfeit and repay any incentive-based compensation paid or awarded to them. The Company intends to review and update its clawback policy upon finalization of applicable NYSE rules regarding the recoupment of incentive compensation.

"Double-Trigger" Change-in-Control Arrangements. Beginning with equity awards granted to our executive officers in 2022, all vesting of equity awards upon a change-in-control is based on a "double-trigger" arrangement (that is, they require both a change-in-control of the Company plus a qualifying termination of employment before accelerated vesting occurs).

Health or Welfare Benefits. Our executive officers participate in broad-based Company-sponsored health and welfare benefit programs on the same basis as our other full-time, salaried employees, including payment of health care premiums for employees at the level of director and above.

Succession Planning. We review the risks associated with departures in our key executive officer positions to ensure adequate succession plans are in place. Continuity of leadership enables the Company to meet or exceed its short-term and long-term business objectives without causing a disruption and serves our leadership strategy by taking into account a longer-term and more holistic view of our philosophy for managing executive talent.

WHAT WE DON'T DO

Limited Perquisites. We provide minimal perquisites and other personal benefits to our executive officers.

No Tax Payments on Perquisites. Other than a legacy arrangement for our former Chief Operating Officer, we do not provide to our executives any tax reimbursement payments (including "gross-ups") on any perquisites or other personal benefits, other than on standard relocation benefits.

No Tax Payments on Change-in-Control Arrangements. We do not provide any excise tax reimbursement payments (including "gross-ups") on payments or benefits contingent upon a change-in-control of the Company.

No Hedging or Pledging of our Equity Securities Without Pre-Clearance. We prohibit our employees, including our executive officers, and the members of our Board, from hedging or pledging our equity securities without pre-clearing the transaction with our Chief Legal Officer.

No Stock Option Re-pricing. Our 2021 Omnibus Equity Incentive Plan does not permit stock options to be repriced to a lower exercise or strike price without the approval of our stockholders.

Stockholder Advisory Vote on Frequency of Future Votes on Our Named Executive Officer Compensation

At the Annual Meeting of Stockholders to which this Proxy Statement relates, we will be conducting a non-binding stockholder advisory vote on the frequency of future non-binding stockholder advisory votes on the compensation of our NEOs (commonly known as a “Say-on-Pay” vote). See “Proposal 2.” Our stockholders will be given the opportunity to express a preference for holding future Say-on-Pay votes on an annual, biennial, or triennial basis.

We value the opinions of our stockholders, and our Board and the Compensation Committee will consider the outcome of our future Say-on-Pay votes, as well as feedback received throughout the year, when making compensation decisions for our executive officers.

Executive Compensation Philosophy and Objectives

Our executive compensation program is guided by our overarching philosophy of paying for performance. We strive to provide an executive compensation program that is competitive, rewards achievement of our business objectives, and aligns our executive officers’ interests with those of our stockholders. Consistent with this philosophy, we have designed our executive compensation program to achieve the following primary objectives:

Provide market competitive compensation and benefit levels that will **attract, motivate, reward, and retain** a highly talented team of executives within the context of responsible cost management;

Establish a direct link between our **financial and operational results and strategic objectives** and the compensation of our executives; and

Align the interests and objectives of our executives with those of our stockholders by linking their long-term incentive compensation opportunities to **stockholder value creation** and their cash incentives to our annual performance.

We structure the annual compensation of our executive officers using three principal elements: base salary, annual cash bonus opportunities, and long-term equity incentive opportunities in the form of equity awards.

We have not adopted policies or employed guidelines for allocating compensation between current and long-term compensation, between cash and non-cash compensation, or among different forms of non-cash compensation. As described below, the Compensation Committee considers a variety of factors in formulating and proposing the appropriate yearly mix among such compensatory elements, including our compensation philosophy and the value of outstanding equity awards granted in prior years.

Succession Planning and Personnel Decisions Made in 2022

The Compensation Committee and Board regularly review the Company’s executive management succession plan to enable business continuity in the event a senior leader departs from the Company. The review includes a discussion of potential successors, including qualified internal candidates along with external candidates, an evaluation of their readiness for the role and a discussion of development or other opportunities to prepare them for the role. The Company maintains development plans for potential successors identifying specific skills, training, or other development opportunities to help such individuals prepare for the position. With respect to the departure of our former Chief Operating Officer, the Company determined to leverage existing resources within the organization to manage the responsibilities formerly allocated within the role of Chief Operating Officer.

Compensation-Setting Process

Role of the Compensation Committee

The Compensation Committee discharges many of the responsibilities of our Board relating to the compensation of our executive officers, including our NEOs, and presents compensation recommendations to our Board for approval pursuant to its charter. The Board reviews the Compensation Committee’s recommendations and approves the compensation of our executive officers. Similarly, the Compensation Committee develops and presents recommendations to our Board for approval with

respect to the compensation of the non-employee members of our Board. Providence-affiliated directors do not receive compensation from the Company in respect of their service on the Board. The Compensation Committee has the overall responsibility for overseeing our compensation and benefits policies generally, and overseeing and evaluating the compensation plans, policies, and practices applicable to our executive officers.

In carrying out its responsibilities, the Compensation Committee evaluates our compensation policies and practices with a focus on the degree to which these policies and practices reflect our executive compensation philosophy, develops strategies and makes recommendations and decisions that it believes further our philosophy or align with developments in best compensation practices and reviews the performance of our executive officers when making recommendations and decisions with respect to their compensation.

The Compensation Committee's authority, duties, and responsibilities are further described in its charter, which is reviewed annually and revised and updated as warranted. The charter of our Compensation Committee is available without charge at <https://ir.doubleverify.com/corporate-governance/governance-documents>.

The Compensation Committee retains a compensation consultant (as described below) to provide support in its review and assessment of our executive compensation program; however, the Compensation Committee exercises its own judgment in developing recommendations to the Board with respect to the compensation of our executive officers, including our NEOs.

Setting Target Total Direct Compensation

The Compensation Committee conducts an annual review of the compensation arrangements of our executive officers, including our NEOs, typically during the fourth quarter in respect of the upcoming fiscal year. As part of this review, the Compensation Committee evaluates the base salary levels, annual cash bonus opportunities, and long-term incentive compensation opportunities of our executive officers and all related performance criteria.

The Compensation Committee does not establish a specific target for formulating the compensation opportunities of our executive officers. In developing recommendations about the compensation of our executive officers, the members of the Compensation Committee rely primarily on their general experience and subjective considerations of various factors, including the following:

- Our executive compensation program objectives.
- Our performance against the financial, operational, and strategic objectives established by the Compensation Committee and our Board.
- Each individual executive officer's knowledge, skills, experience, qualifications, and tenure relative to other similarly situated executives at the companies in our compensation peer group and, in certain instances, selected broad-based compensation surveys.
- The scope of each executive officer's role and responsibilities compared to other similarly situated executives at the companies in our compensation peer group and, in certain instances, selected broad-based compensation surveys.
- The prior performance of each individual executive officer, based on a subjective assessment of such executive officer's contributions to our overall performance, ability to lead the executive officer's business unit or function, and work as part of a team, all of which reflect our core values.
- The potential of each individual executive officer to contribute to our long-term financial, operational, and strategic objectives.
- The retention risk (and related replacement cost) of each individual executive officer.
- Our CEO's compensation relative to that of our executive officers, and compensation parity among our executive officers.
- Our financial performance relative to our peers.

- The compensation practices of our compensation peer group and the companies in selected broad-based compensation surveys and the positioning of each executive officer's compensation in a ranking of peer company compensation levels based on an analysis of competitive market data.
- The recommendations of our CEO with respect to the compensation of our executive officers (except with respect to his own compensation).

These factors provide the framework for formulating and developing recommendations regarding the compensation opportunity for each executive officer, including each NEO. No single factor is determinative in developing these recommendations, nor is the impact of any individual factor on the determination of pay levels quantifiable.

The Compensation Committee does not assign any predetermined weight to these factors, nor does it apply any formulas in developing its compensation recommendations for our executive officers. The members of the Compensation Committee consider this information in light of their individual experience, knowledge of the Company, knowledge of the competitive market, knowledge of each executive officer, and business judgment in making their recommendations.

The Compensation Committee does not engage in formal benchmarking against other companies' compensation programs or practices to establish our compensation levels or make specific compensation recommendations with respect to our executive officers. Instead, in formulating and developing its recommendations, the Compensation Committee reviews information summarizing the compensation paid at a representative group of peer companies, to the extent that the executive positions at these companies are considered comparable to our positions and informative of the competitive environment and more broad-based compensation surveys to gain a general understanding of market compensation levels.

Role of Management

In discharging its responsibilities, the Compensation Committee works with members of our management, including our CEO. Our management assists the Compensation Committee by providing information on corporate and individual performance, market compensation data, and management's perspective on compensation matters. The Compensation Committee solicits and reviews our CEO's proposals with respect to program structures, as well as his recommendations for adjustments to annual cash compensation, long-term incentive compensation opportunities, and other compensation-related matters for our executive officers, including our NEOs (except with respect to his own compensation), based on his evaluation of their performance for the prior year.

At the end of each year, our CEO reviews the performance of our other executive officers, including our NEOs, based on each individual's level of success in accomplishing the business objectives established for such executive officer for the year and his or her overall performance during that year, and then shares these evaluations with, and makes recommendations to, the Compensation Committee for each element of compensation as described above. The annual business objectives for each executive officer are developed through mutual discussion and agreement between our CEO and the executive officers and take into account the Company's business objectives, which are reviewed with our Board.

The Compensation Committee reviews and discusses with our CEO his proposals and recommendations and considers them as one factor in formulating and developing its recommendations to the Board with respect to the compensation of our executive officers, including our NEOs. Our CEO also attends meetings of our Board and the Compensation Committee at which executive compensation matters are addressed, except with respect to discussions involving his own compensation.

Role of Compensation Consultant

The Compensation Committee has the sole authority to retain an external compensation consultant to assist it by providing information, analysis, and other advice relating to our executive compensation program and the recommendations and decisions resulting from its annual executive compensation review, including the authority to approve the consultant's reasonable fees and other retention terms.

In 2022, the Compensation Committee engaged Compensia, Inc. ("Compensia"), a national compensation consulting firm, to serve as its compensation consultant to advise on executive compensation matters, including competitive market pay practices for our executive officers, including our NEOs, and with the data analysis and selection of the compensation peer group. Under the terms of the engagement, Compensia reports directly to the Compensation Committee and its chair, and serves at the discretion of the Compensation Committee, which reviews the engagement annually.

During 2022, Compensia attended the meetings of the Compensation Committee (both with and without management present) as requested and provided various services, including the following:

- the review, analysis, and updating of our compensation peer group;
- the review and analysis of the base salary levels, annual cash bonus opportunities and long-term incentive compensation opportunities of our NEOs against competitive market data based on the companies in our compensation peer group and selected compensation surveys;
- an assessment of executive compensation trends within our industry, and updating on corporate governance and regulatory issues and developments;
- a review and analysis of the compensation paid to the non-employee members of our Board;
- a review and analysis of our equity strategy and utilization;
- a review and analysis of our stock-based compensation expense;
- a compensation risk assessment;
- consultation with the Compensation Committee chair and other members between Compensation Committee meetings; and
- support on other ad hoc matters throughout the year.

Compensia also coordinated with our management for compensation benchmarking for our executive officers. In 2022, Compensia did not provide any other services to us.

The Compensation Committee has evaluated its relationship with Compensia to ensure that it believes that such a firm is independent from management. This review process included a review of the services that Compensia provided, the quality of those services, and the fees associated with the services provided during 2022. Based on this review, as well as consideration of the factors affecting independence set forth in Exchange Act Rule 10C-1(b)(4) and the listing standards of the NYSE and such other factors as were deemed relevant under the circumstances, the Compensation Committee has determined that no conflict of interest was raised as a result of the work performed by Compensia.

Competitive Positioning

The Compensation Committee believes that peer group comparisons are useful guides to measure the competitiveness of our executive compensation program and related policies and practices. For purposes of assessing our executive compensation against the competitive market, the Compensation Committee reviews and considers the compensation levels and practices of a select group of peer companies. This compensation peer group consists of technology companies that are similar to us in terms of revenue, market capitalization, and industry focus. The competitive data drawn from this compensation peer group is one of several factors that the Compensation Committee uses to formulate and develop its recommendations to the independent members of our Board with respect to the compensation of our executive officers, including our NEOs.

The initial compensation peer group, which was developed prior to our initial public offering of equity securities in April 2021 and focused largely on aspirational peer companies, was used to analyze and establish the compensation of our executive officers for 2022 and consisted of the following publicly-traded technology companies:

Ceridian HCM Holding	LivePerson	Paylocity Holding
Cornerstone OnDemand	LiveRamp	Roku
Criteo S.A.	Medallia	The Trade Desk
Datadog	Nielsen Holdings plc	Twilio
Dynatrace	New Relic	Veeva Systems
Guidewire Software	Okta	Yext
HubSpot	Paycom Software	Zendesk

In April 2022, the Compensation Committee directed Compensia to review and update the compensation peer group to reflect current market conditions, to remove acquired or to be acquired companies and those which fell meaningfully above or below best practice size ranges, and to retain key peer companies identified by management and/or the Compensation Committee. In identifying and selecting the companies that comprise the updated compensation peer group, Compensia considered the following primary criteria:

- publicly traded companies in the advertising software/technology sector, as well as other software/internet companies;
- similar revenues—within a range of approximately 0.3x of our then-trailing four quarters' revenue of approximately \$333 million to approximately 3.0x of current analysts' estimates of our next four quarters' revenue of approximately \$433 million (approximately \$100 million to approximately \$1.3 billion);
- similar market capitalization—within a range of approximately 0.25x to approximately 4.0x of our 30-day average market capitalization of approximately \$4.1 billion (approximately \$1.0 billion to approximately \$16.3 billion); and
- comparable revenue growth.

The updated compensation peer group as approved by the Compensation Committee in July 2022 consisted of the following publicly-traded technology companies:

Amplitude	Integral Ad Science	PubMatic
BigCommerce Holding	LivePerson	Roku
Braze	LiveRamp	Semrush Holdings
Cardlytics	Magnite	Sprinklr
Ceridian HCM Holding	Momentive Global	Sprout Social
Datadog	New Relic	Squarespace
Digital Turbine	Paycom Software	The Trade Desk
Dynatrace	Paylocity Holding	Zendesk
HubSpot		

The Compensation Committee uses data drawn from the companies in our compensation peer group, as well as data from custom data sets drawn from the Radford Global Technology Survey database (including a survey result of 21 of 25 of the companies in our compensation peer group and a survey result of U.S. technology companies with revenues between \$100 million and \$1 billion), to evaluate the competitive market when developing its recommendations for the total direct compensation packages for our executive officers, including base salary, target annual cash bonus opportunities, and long-term incentive compensation opportunities.

The Compensation Committee intends to review our compensation peer group periodically as it deems appropriate and make adjustments to its composition if warranted, taking into account changes in both our business and the businesses of the companies in the peer group.

Compensation Elements

Generally, our executive compensation program consists of three principal elements—base salary, annual cash bonus opportunities, and long-term incentive compensation in the form of equity awards:

Element	Type of Element	Compensation Element	Objective
Base Salary	Fixed	Cash	Designed to attract and retain executives by providing fixed compensation amounts that are competitive in the market
Annual Cash Bonuses	Variable	Cash	Designed to motivate our executives to achieve annual business objectives and provide financial incentives when we meet or exceed these annual objectives
Long Term Equity Incentive Compensation	Variable	Equity awards in the form of stock options and RSU awards	Designed to align the interests of our executives and our stockholders by motivating them to create sustainable long-term stockholder value

Base Salary

Base salary represents the fixed portion of the compensation of our executive officers, including our NEOs, and is an important element of compensation intended to attract and retain highly talented individuals. Generally, we use base salary to provide each executive officer with a specified level of cash compensation during the year with the expectation that the executive officer will perform such individual's responsibilities to the best of the executive officer's ability and in our best interests.

Generally, we establish the initial base salaries of our executive officers through arm's-length negotiation at the time of hire, taking into account the individual's position, qualifications, experience and prior salary level, and the base salaries of our other executive officers. Thereafter, the Compensation Committee reviews the base salaries of our executive officers each year as part of its annual review of our executive compensation program, with input from our CEO (except with respect to his own base salary) and develops recommendations for adjustments as it determines to be reasonable and necessary to reflect the scope of an executive officer's performance, individual contributions and responsibilities, position in the case of a promotion, and market conditions.

In December 2021, the Compensation Committee reviewed the base salaries of our executive officers, including our NEOs, taking into consideration a competitive market analysis prepared by its compensation consultant and the recommendations of our CEO (except with respect to his own base salary), as well as the other factors described in "Compensation-Setting Process—Setting Target Total Direct Compensation" above. Following this review, the Compensation Committee recommended to the Board that it adjust the base salaries of each of our executive officers to bring their base salaries to levels that were comparable to those of similarly-situated executives in the competitive marketplace. Subsequently, our Board approved these recommendations.

The base salaries of our NEOs as determined for 2022 were as follows:

Named Executive Officer	2021 Annual Base Salary (\$)	2022 Annual Base Salary (\$)	Percentage Adjustment
Mr. Zagorski	\$500,000	\$515,000	3%
Mr. Allais	\$383,400	\$400,000	4%
Ms. Eddleman	\$450,000	\$465,000	3%
Mr. Grimmig	\$385,000	\$400,000	4%
Mr. McLaughlin	\$378,000	\$416,000	10%

Note: These base salaries were effective January 1 of the respective year.

The base salaries actually paid to our NEOs during 2022 are set forth in the “2022 Summary Compensation Table” below.

Annual Cash Bonuses

We use an annual cash bonus plan to motivate our executive officers, including our NEOs, to achieve our annual business goals. In December 2021, the Compensation Committee recommended, and our Board approved, the Bonus Plan for 2022 (the “2022 Bonus Plan”) to provide incentives for our executive officers to meet or exceed certain business and financial objectives set by the Committee, after considering the Company’s 2022 annual operating plan.

In December 2021, as part of its annual review of our executive compensation program, the Compensation Committee reviewed the target annual cash bonus opportunities of our executive officers, including our NEOs, taking into consideration a competitive market analysis prepared by its compensation consultant and the recommendations of our CEO (except with respect to his own target annual cash bonus opportunity), as well as the other factors described in “Compensation-Setting Process—Setting Target Total Direct Compensation” above. Following this review, the Compensation Committee recommended to our Board that it maintain the target annual cash bonus opportunities for our executive officers, including our NEOs, at their 2021 levels. Subsequently, our Board approved these recommendations.

Named Executive Officer	2022 Target Annual Cash Bonus Opportunity (as a percentage of base salary)	2022 Target Annual Cash Bonus Opportunity (\$)
Mr. Zagorski	100%	\$515,000
Mr. Allais	60%	\$240,000
Ms. Eddleman	100%	\$465,000
Mr. Grimmig	50%	\$200,000
Mr. McLaughlin	65%	\$270,400

Potential annual cash bonuses for our NEOs under the 2022 Bonus Plan could range from zero to 150% of their target annual cash bonus opportunity.

2022 Bonus Calculation

Measured over 3 equally weighted periods (i.e., one-third of the target bonus opportunity relates to each period) and paid at the end of each period:

- First Half of 2022 (Measured from January 1 to June 30)
- Second Half of 2022 (Measured from July 1 to December 31)
- Full Year of 2022 (Measured from January 1 to December 31)

Each period is calculated using the following formula:

With respect to bonuses earned by our NEOs in 2022, bonus targets for revenue were set at \$197 million, \$252 million and \$449 million, for the First Half 2022, Second Half 2022 and Full-Year 2022, respectively. Bonus targets for Adjusted EBITDA were set at \$47 million, \$83 million and \$130 million, for the First Half 2022, Second Half 2022 and Full-Year 2022, respectively. The business KPIs for Ms. Eddleman, Mr. Allais and Mr. Grimmig were set by the CEO in consultation with the Board, and, for Mr. Zagorski, by the Board.

2022 Bonus Payout

Our NEOs other than Mr. McLaughlin received the following annual cash bonus payments in 2022:

Named Executive Officer	2022 Target Annual Bonus Opportunity (as a percentage of base salary)	2022 Target Annual Bonus Opportunity (\$)	First Half 2022		Second Half 2022		Full-Year 2022	
			Achievement %	Payout ⁽¹⁾	Achievement %	Payout ⁽¹⁾	Achievement %	Payout ⁽¹⁾
Mr. Zagorski	100%	\$515,000	127%	\$218,017	94%	\$161,367	115%	\$197,417
Mr. Allais	60%	\$240,000	127%	\$101,600	94%	\$ 75,200	115%	\$ 92,000
Ms. Eddleman ⁽²⁾	100%	\$465,000	127%	\$196,850	94%	\$145,700	115%	\$178,250
Mr. Grimmig	50%	\$200,000	127%	\$ 84,667	94%	\$ 62,667	115%	\$ 76,667

- (1) Payout for each individual period rounded to the nearest dollar and may differ from the Summary Compensation Table aggregate by \$1.
- (2) Ms. Eddleman contributed 50% of the bonus earned and presented in this table on a pre-tax basis to the Company's NQDC plan.

Due to his termination of Employment, Mr. McLaughlin's annual bonus for 2022 was determined pursuant to his employment agreement.

The annual bonuses actually paid to our NEOs for 2022 are set forth in the "2022 Summary Compensation Table" below.

Long-Term Equity Incentive Compensation

As a technology company that encounters significant competition for qualified personnel, long-term incentive compensation plays a critical role in our ability to attract, hire, motivate, and reward qualified and experienced executive officers. The use of long-term incentive compensation in the form of equity awards is necessary for us to compete for qualified executive officers without significantly increasing cash compensation, and we consider it to be the most important element of our executive compensation program. We use equity awards to incentivize and reward our executive officers, including our NEOs, for long-term corporate performance based on the value of our common stock and, thereby, to align their interests with the interests of our stockholders. The realized value of these equity awards bears a direct relationship to our stock price, and, therefore, these awards are an incentive for our executive officers to

create value for our stockholders. Further, because our equity awards for executive officers, including our NEOs, typically vest over a four-year period, equity awards also help us retain our executive officers in a highly competitive market.

In 2022, we used stock options and RSU awards with time-based vesting requirements to motivate and reward our executive officers, including our NEOs, for sustained, long-term increases in the value of our common stock. Our Board and the Compensation Committee believe that because stock options provide for an economic benefit only in the event that our stock price increases over the exercise price of the option, these awards effectively align the interests of our executive officers with those of our stockholders and provide our executive officers with a significant incentive to manage our business from the perspective of an owner with an equity stake in the business. In addition, because RSU awards have value to the recipient even in the absence of stock price appreciation, our Board and the Compensation Committee believe that we are able to incentivize and retain our executive officers during periods of market volatility and result in using fewer shares of our common stock than would be necessary if we used stock options exclusively to provide an equity stake in the Company. Since the value of RSU awards increases with any increase in the value of the underlying shares, RSU awards also provide incentives to our executive officers that are aligned with the interests of our stockholders.

The Compensation Committee considers the following factors when determining the grant size of each equity award:

- competitive market analysis prepared by its compensation consultant;
- the outstanding equity holdings of each executive officer (including the current economic value of his or her unvested equity holdings and the ability of these unvested holdings to satisfy our retention objectives);
- the projected impact of the proposed awards on our earnings;
- the proportion of our total shares outstanding used for annual employee long-term incentive compensation awards (our “burn rate”) in relation to the annual burn rate ranges of the companies in our compensation peer group and other recently-public technology companies;
- the potential voting power dilution to our stockholders in relation to the median practice of the companies in our compensation peer group; and
- other factors described in “Compensation-Setting Process—Setting Target Total Direct Compensation” above.

In determining the size of our CEO’s equity award, the Compensation Committee reviewed his overall target total direct compensation in view of our consistently strong financial and operational performance under his leadership, his significant contributions to our development both preceding and following our transition to public company status, the remaining prospective incentive and retention value of his then-current equity holdings, the highly competitive market for proven executive talent, and his historical level of compensation relative to that of similarly-situated executives at the companies in our compensation peer group. After reviewing the challenges and opportunities presented by our long-term business strategy and objectives, the Compensation Committee determined that he was uniquely qualified to lead us through our next stage of development as we continue to create long-term sustainable stockholder value. As a result, the Compensation Committee determined that its recommendation with respect to his equity awards should serve to both recognize and reward him for his prior performance and serve as an incentive for him to remain with us and drive the next phase of our growth.

In December 2022, as part of its annual review of our executive compensation program, and after taking into consideration a competitive market analysis prepared by its compensation consultant and the recommendations of our CEO (except with respect to his own equity award), as well as the factors described in the preceding paragraph, the Compensation Committee recommended to our Board that it grant our executive officers, including our NEOs, stock options and RSU awards with time-based vesting requirements. Further, the Compensation Committee recommended that the dollar value of the stock options should comprise approximately 50% of each executive officer’s 2022 equity award, and the dollar value of the RSU awards should comprise the remaining approximately 50% of the award.

The equity awards granted to our NEOs in 2022 were as follows:

Named Executive Officer	Stock Option (number of shares)	RSU Award (number of shares)	Aggregate Equity Awards Grant Date Fair Value (\$)
Mr. Zagorski	303,890	150,000	\$7,500,000
Mr. Allais	131,686	65,000	\$3,250,000
Ms. Eddleman	111,426	55,000	\$2,750,000
Mr. Grimmig	81,037	40,000	\$2,000,000

The stock options granted to our NEOs in 2022 vest (and become exercisable) over a four-year period, with 6.25% of the total number of shares of our common stock subject to an option vesting on March 15, 2023 and 6.25% of the total number of shares subject to the option vesting quarterly thereafter for the remaining 15 quarters, contingent upon the NEO's continued employment with or service to the Company through each applicable vesting date.

The RSU awards granted to the NEOs in 2022 vest over a four-year period, with 6.25% of the total number of units subject to an award vesting on March 15, 2023 and 6.25% of the total number of units subject to the award vesting quarterly thereafter for the remaining 15 quarters, contingent upon the NEO's continued employment with or service to the Company through each applicable vesting date. Each unit granted pursuant to the RSU awards represents a contingent right to receive one share of our common stock for each unit that vests.

The equity awards granted to our NEOs for 2022 are set forth in the "2022 Summary Compensation Table" and the "2022 Grants of Plan-Based Awards Table" below.

Health and Welfare Benefits

Except with respect to our nonqualified deferred compensation plan ("NQDC"), which is only available to our Board and senior executives, our NEOs are eligible to participate in the same employee benefit plans, and on the same terms and conditions, as all other full-time, salaried U.S. employees, including payment of health care premiums for employees at the level of director and above. These benefits include medical, dental, and vision insurance, an employee assistance program, health and dependent care flexible spending accounts, basic life insurance, accidental death and dismemberment insurance, short-term and long-term disability insurance, commuter benefits, and reimbursement for mobile phone usage.

We maintain a 401(k) defined contribution plan for the benefit of our eligible employees located in the U.S., including our executive officers, under which participants are permitted to contribute a percentage of their compensation on a pre-tax basis, subject to limits in the U.S. Internal Revenue Code of 1986, as amended (the "Code"). We make fully vested matching contributions under the 401(k) plan, subject to the discretion of our Board. While the terms of the 401(k) plan contemplate discretionary matching contributions to eligible participants of up to 50% of every dollar that such participants contribute up to 4% of their annual base salaries, in recent years the Compensation Committee has approved contributions of 75% of each dollar that a participant contributes up to 4% of their annual base salary. Our executive officers are eligible to participate in the 401(k) plan on the same basis as our other employees.

We design our employee benefits programs to be affordable and competitive in relation to the market as well as compliant with applicable laws and practices. We adjust our employee benefits programs as needed based upon regular monitoring of applicable laws and practices and the competitive market.

Perquisites and Other Personal Benefits

Currently, we do not view perquisites or other personal benefits as a significant component of our executive compensation program. Accordingly, we do not provide significant perquisites or other personal benefits to our NEOs except as generally made available to our employees or in situations where we believe it is appropriate to assist an individual in the performance of such person's duties, to make the NEO more efficient and effective, and for recruitment and retention purposes. In 2022, except for our

former Chief Operating Officer, none of our NEOs received perquisites or other personal benefits in amounts equal to or greater than \$10,000.

In the future, we may provide perquisites or other personal benefits in limited circumstances, such as those described in the preceding paragraph. All future practices with respect to perquisites or other personal benefits will be approved and subject to periodic review by the Compensation Committee.

Employment Agreements

We have entered into written employment agreements with each of our NEOs. We believe that these agreements were necessary to secure the service of these individuals in a highly competitive job market.

Except in the case of the employment agreement with our CEO (whose agreement has a five-year term, but may be terminated at any time prior to the expiration of the term by either party), each of these employment agreements does not have a specific term and provides for “at will” employment (meaning that either we or the executive officer may terminate the employment relationship at any time without cause). These employment agreements generally set forth the NEO’s base salary, target annual cash bonus opportunity, and eligibility to receive annual equity awards based upon performance and award guidelines as established by our Board or the Compensation Committee. Ms. Eddleman’s employment agreement provides that she is eligible to receive grants of equity awards having a grant date fair value of not less than \$1,500,000 on an annual basis. In addition, each employment agreement also includes non-compete and employee and customer non-solicitation covenants, effective during the NEO’s employment with us and for at least one-year post-termination. Further, each of our NEOs are also subject to intellectual property assignment and perpetual confidentiality provisions that protect our commercial interests.

These employment agreements also provide that each NEO is eligible to receive severance payments and benefits upon a qualifying termination of employment, as more fully described in “*Post-Employment Compensation*” below.

For detailed descriptions of the employment arrangements with our NEOs, see “—Narrative Disclosure to Summary Compensation Table—Employment Agreements” and “—Payments and Potential Payments upon Termination or Change in Control.”

Post-Employment Compensation

The employment agreements with our NEOs provide for certain protections in the event of specified involuntary terminations of employment (including a termination of employment by us “without cause” or a resignation of employment for “good reason,” as such terms are defined in the employment agreements and which we refer to as a “qualifying termination”), in exchange for executing and not revoking our separation agreement and release of claims. The applicable provisions of the employment agreements provide reasonable compensation in the form of severance pay and certain limited benefits to a NEO if such individual leaves our employ under certain circumstances to facilitate the NEO’s transition to new employment. Further, we seek to mitigate any potential employer liability and avoid future disputes or litigation by requiring a departing NEO to sign a separation agreement and release of claims in a form and with terms acceptable to us providing for a general release of all claims as a condition to receiving post-employment compensation payments or benefits.

In addition, if Mr. Zagorski’s or Mr. Allais’s employment is terminated in a qualifying termination or by reason of his death or disability, the portion of his stock options and, in the case of Mr. Zagorski, RSU awards that would otherwise have vested between the date of termination and the 12-month anniversary of the date of termination will accelerate and vest in full. In the case of Ms. Eddleman, if her employment is terminated by reason of death, all of her unvested RSU awards granted pursuant to her employment agreement will accelerate and vest in full. In the case of Mr. Grimmig, if his employment is terminated by reason of his death or disability, all of Mr. Grimmig’s unvested RSU awards will accelerate and fully vest.

Beginning with the equity awards granted to our executive officers, including our NEOs, in 2022, the vesting provisions of all stock options and RSU awards with time-based vesting requirements held by our NEOs will be “double-trigger”, which means that the vesting of these awards will generally accelerate and

vest in full only if there is both a “change in control” of the Company (as defined in our 2021 Equity Plan and our 2017 Equity Plan) and, a qualifying termination of employment of the applicable NEO.

We believe that having in place reasonable and competitive post-employment compensation arrangements are essential to attracting and retaining highly qualified executive officers. The Compensation Committee does not consider the specific amounts payable under the post-employment compensation arrangements when developing its recommendations with respect to the annual compensation for our NEOs. We do believe, however, that these arrangements are necessary to offer compensation packages that are competitive.

For detailed descriptions of the post-employment compensation arrangements with our NEOs, as well as an estimate of the potential payments and benefits payable under these arrangements, see “—Potential Payments upon Termination or Change in Control.”

Non-Qualified Deferred Compensation Plan

We maintain our NQDC to provide our executive officers and members of our Board with an opportunity to defer base salary, cash fees paid to a non-employee director, cash bonus payments and other compensation (including equity awards). In addition to elective deferrals, we may make discretionary contributions to be credited to the account of any or all participants, subject to the vesting requirements set forth in the NQDC (though to date we have not made any such contributions).

Each participant’s deferred compensation account is credited with an investment return determined as if the account was invested in one or more investment funds. Each participant elects the investment funds in which such participant’s account will be deemed to be invested. Distributions of vested account balances are made upon death, disability, separation from service, or a specified date. Distributions are to be made in a single cash payment or, at the election of the participant, in annual installments for a period of between two and 10 years in the case of a separation from service or in-service distribution.

Our obligations under the NQDC are general unsecured promises to pay deferred compensation in the future to eligible participants in accordance with the terms of the NQDC from our general assets. Distributions from the NQDC are governed by the Code and the NQDC. We may, at any time, in our sole discretion, terminate the NQDC or amend or modify the NQDC, in whole or in part, except that no such termination, amendment, or modification will have a substantive effect on the benefits provided under the NQDC.

For more information on the participation of our NEOs in the NQDC, see “—Nonqualified Deferred Compensation.”

Other Compensation Policies

Hedging and Pledging Policies

Our Policy on Trading in Securities requires all directors, officers, and employees of the Company, and their immediate family members and other persons living in their households (“Company Associates”), to consult the Chief Legal Officer prior to engaging in any hedging or pledging transactions involving the Company’s securities. Any request for pre-clearance of a hedging or similar arrangement must be submitted to the Chief Legal Officer at least thirty days before the proposed execution of documents evidencing the proposed transaction. The Chief Legal Officer will then determine whether the transaction may proceed and, if so, assist in complying with the SEC’s reporting requirements. Any Company Associate proposing to pledge the Company’s securities as collateral for a loan must submit a request for pre-clearance to the Chief Legal Officer at least two weeks prior to the proposed execution of documents evidencing the proposed pledge. The Chief Legal Officer will then determine whether the transaction may proceed. Our Policy on Trading in Securities prohibits Company Associates from engaging in short sales and transactions in puts, calls or other derivative securities (whether on an exchange or in any other organized market) with respect to the Company’s securities.

Stock Ownership Guidelines

The Board has established stock ownership guidelines in order to further align the long-term interests of our executive officers and non-employee directors with those of our stockholders and promote the

Company's commitment to sound corporate governance. Our stock ownership guidelines require that our executive officers own qualifying equity having an aggregate value equal to a multiple of the executive officer's annual base salary or non-employee director's annual board cash retainer as follows:

Position	Multiple
Chief Executive Officer	5x Annual Base Salary
All Named Executive Officers	3x Annual Base Salary
Certain Non-Named Executive Officer Members of Management	2x Annual Base Salary
Non-Employee Directors*	3x Annual Board Cash Retainer

* Excludes Providence-affiliated directors

The types of equity that are eligible for calculation in the guidelines include Shares held outright (including Shares beneficially owned unless the individual disclaims beneficial ownership), Shares held in the Employee Stock Purchase Plan and any unsettled RSUs. Executives are required to hold 50% of the Shares acquired as a result of exercise or settlement of compensatory awards (net of any shares withheld for taxes) until these ownership guidelines have been met.

Compliance with these stock ownership guidelines is reviewed at least annually by the Compensation Committee.

Our overall compensation program is designed to mitigate the potential for rewarding excessive risk-taking that may produce short-term results that appear in isolation to be favorable, but which, in fact, may undermine the successful execution of our long-term business strategy and erode stockholder value. The Compensation Committee reviewed the Company's incentive compensation programs and discussed these with its compensation consultant, including both broad-based programs and its executive compensation programs. Based on this review, the Compensation Committee determined that the risks arising from its compensation program are not reasonably likely to have a material adverse effect on the Company.

Compensation Recovery ("Clawback") Policy

Our Board has adopted a clawback and forfeiture policy (the "Clawback Policy") which provides for recoupment of all excess "incentive compensation" (as defined in the Clawback Policy) paid or awarded to any current or former "executive officer" (as that term is defined for purposes of Section 16 of the Securities Exchange Act of 1934) and any other current or former employee who has received an equity award (a "Covered Person") if

- we are required to prepare an accounting restatement of our financial results due to material noncompliance with any financial reporting requirement under the U.S. securities laws caused by the fraud, misconduct, or gross negligence of a Covered Person;
- the Compensation Committee determines that any Covered Person received incentive compensation based on inaccurate financial information or other inaccurate performance metric criteria; or
- the Compensation Committee determines that any Covered Person committed misconduct that has or might reasonably be expected to cause reputational or other harm to us, committed misconduct or a material error that causes or might be reasonably expected to cause significant financial or reputational harm to us or was improper or grossly negligent, including in a supervisory capacity, in failing to identify, escalate, monitor or manage, in a timely manner and as reasonably expected, risks material to us.

The Clawback Policy applies with respect to cash incentive compensation paid after April 15, 2021 (the "Effective Date") and equity incentive compensation granted after the Effective Date and, to the extent agreed by a Covered Person or as otherwise permitted by applicable law, incentive compensation that was granted prior to the Effective Date.

The Company intends to review and update its clawback policy upon finalization of applicable NYSE rules regarding the recoupment of incentive compensation.

Tax and Accounting Considerations

The Compensation Committee takes the applicable tax and accounting requirements into consideration in designing and overseeing our executive compensation program.

Deductibility of Executive Compensation

Under Section 162(m) of the Code, compensation paid to our “covered executive officers” (which include our CEO and CFO), will not be deductible to the extent it exceeds \$1 million. While the Compensation Committee considers the deductibility of awards as one factor in determining executive compensation, the Compensation Committee also looks at other factors in making its decisions, as noted above, and retains the flexibility to award compensation that it determines to be consistent with the goals of our executive compensation program even if the awards are not deductible by us for tax purposes.

Accounting for Stock-Based Compensation

The Compensation Committee takes accounting considerations into account in designing compensation plans and arrangements for our executive officers and other employees. Chief among these is Financial Accounting Standards Board Accounting Standards Codification Topic 718 (“ASC Topic 718”), the standard which governs the accounting treatment of certain stock-based compensation. Among other things, ASC Topic 718 requires us to record a compensation expense in our income statement for all equity awards granted to our executive officers and other employees. This compensation expense is based on the grant date “fair value” of the equity award and, in most cases, will be recognized ratably over the award’s requisite service period (which, generally, will correspond to the award’s vesting schedule). This compensation expense is also reported in the compensation tables below, even though recipients may never realize any value from their equity awards.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis (CD&A) contained in this Proxy Statement. Based on this review and discussion, the Compensation Committee has recommended to the Board that the CD&A be included in this Proxy Statement.

- (1) Represents the aggregate grant date fair value of restricted stock units granted to our NEOs. The grant date fair value is computed in accordance with FASB ASC Topic 718, except that the amounts in this column for 2020 are modified to exclude any forfeiture assumptions related to service-based vesting conditions for the performance-based restricted stock units. The amounts do not reflect the value actually realized or that ultimately may be realized by our NEOs in respect of these awards. The 2020 amounts shown for Mr. Zagorski assumed that the market-based conditions for the performance-based restricted stock units would be satisfied in full, and, as of October 26, 2020, this performance condition was satisfied and Mr. Zagorski’s performance-based restricted stock units therefore vested.
- (2) Represents the aggregate grant date fair value of stock options granted to our NEOs. The grant date fair value is computed in accordance with FASB ASC Topic 718. The amounts do not reflect the value actually realized or that ultimately may be realized by our NEOs.
- (3) The amounts in this column represent bonuses relating to first half, second half and full year Company performance for the respective year. For 2022, Ms. Eddleman contributed 50% of the bonus earned and presented in this column on a pre-tax basis to the Company’s NQDC plan. For 2020, Mr. Grimmig’s amount represents non-guaranteed annual bonuses that relate to Company performance for the second half of 2020 and for the full 2020 calendar year.

Outstanding Equity Awards at Fiscal Year End 2022

The following table provides information about outstanding equity awards held by each of our NEOs as of December 31, 2022. All awards were granted under the 2017 Equity Plan or the 2021 Equity Plan. Our equity incentive program was designed to ensure that our senior management and other employees, including our NEOs, help drive stockholder value, and stock options and restricted stock units constitute a meaningful part of our NEOs' compensation. Each of the 2017 Equity Plan and 2021 Equity Plan is administered by our Compensation Committee, which has discretion, within the parameters of the 2017 Equity Plan or 2021 Equity Plan, as applicable, to determine the recipients, amounts and terms of awards. The market value of the stock awards is based on the closing price of our common stock on the NYSE on December 30, 2022 (the last business day of the year), which was \$21.96.

Our NQDC provides our executive officers and members of our Board with an opportunity to defer base salary, cash fees paid to a non-employee director, cash bonus payments and other compensation (including equity awards). In addition to elective deferrals, the Company may make discretionary contributions to be credited to the account of any or all participants, subject to the vesting requirements set forth in the NQDC (though to date we have not made any such contributions). Each participant's deferred compensation account is credited with a notional investment return based on various investment funds that are generally the same as the investment funds available under our tax qualified plan.

Distributions of vested account balances are made upon death, disability, separation from service, or a specified date. Distributions are to be made in a single cash payment or, at the election of the participant, in annual installments for a period of between two and 10 years in the case of a separation from service or in-service distribution.

Please see the discussion of the NQDC in our Compensation Discussion & Analysis for more details about the operation of the plan.

Payments and Potential Payments upon Termination or Change in Control

Employment Agreement Obligations

Mark Zagorski

Mr. Zagorski's employment agreement has a five-year term, which commenced July 21, 2020, and may also be terminated at any time prior to the expiration of the term by either party. The employment agreement provides for certain severance benefits. If prior to the expiration of the five-year term, Mr. Zagorski's employment is terminated by us without "cause" or if he resigns his employment for "good reason" (as such terms are defined in his employment agreement), which we refer to as a "qualifying termination," Mr. Zagorski is entitled to receive his continued base salary as in effect at the time of termination for 12 months, as described in the table "Summary of Estimated Payments and Benefits" below.

Nicola Allais, Julie Eddleman and Andy Grimmig

The employment agreements of Mr. Allais, Ms. Eddleman and Mr. Grimmig do not provide a fixed term and may be terminated at any time by either party. If the employment of Mr. Allais, Ms. Eddleman or Mr. Grimmig is terminated by us without cause or by the applicable executive for good reason (which we refer to as a "qualifying termination", the applicable executive will be entitled to receive amounts as described in the table "Summary of Estimated Payments and Benefits" below.

Treatment of Equity Awards Generally

In the event that we terminate an NEO for "cause", or an NEO breaches a restrictive covenant by which he or she is bound, all of such NEO's unvested and vested stock options and restricted stock units will be immediately cancelled and forfeited.

If we experience a "change in control" (as defined in the 2021 Equity Plan and 2017 Equity Plan), time-based options and time-based RSUs granted prior to 2022 under the applicable plan will generally accelerate and vest in full. Time-based options and time-based RSUs granted in 2022 and going forward are subject to "double trigger" vesting and acceleration, pursuant to which such awards will not automatically accelerate and vest upon a change in control, unless the NEO's employment is terminated involuntarily or constructively within one year following such change in control.

We do not provide any excise tax payments (or "gross-ups") in connection with a change in control of the Company and have no such obligations in place with respect to any of our executive officers, including our Named Executive Officers.

Summary of Estimated Payments and Benefits on a Termination of Employment or Change in Control

Pay Ratio Disclosure

As required by SEC rules, we are providing the information below to explain the relationship between the annual total compensation of Mr. Zagorski, who served as the Company's Chief Executive Officer in 2022, and the annual total compensation of the median employee of the Company, excluding our CEO. We identified the median employee using our employee population as of December 15, 2022. We applied an exchange rate as of January 12, 2023 to convert all foreign currencies into U.S. dollars.

The median annual total compensation disclosed below is based on the Company's global workforce and is not designed to capture the median compensation of the Company's U.S. employees. Our compensation philosophy is to pay competitively to market and provide fair compensation regardless of the locale. The compensation approach used to determine compensation for our broader workforce is the same approach we use when setting CEO pay, including consideration of pay competitiveness and the use of performance-based incentives that reward exceptional business performance in each jurisdiction consistent with market practice.

For 2022, the annual total compensation of our median employee was \$162,893. This includes base pay, 2022 bonus, 2022 equity award and an employer retirement contribution. Mr. Zagorski's annual total compensation for 2022, as reported under the "Total" column in the 2022 Summary Compensation Table, was \$8,614,364. Based on this information, for 2022, the ratio of the compensation of the CEO to the median annual total compensation of all other employees was estimated to be 53 to 1.

We believe our pay ratio presented above is a reasonable estimate. The SEC rules for identifying the median employee and calculating the pay ratio allow companies to use different methodologies, exemptions, estimates and assumptions that reflect their employee populations and compensation practices. As a result, our pay ratio may not be comparable to the pay ratio reported by other companies.

Pay Versus Performance Disclosure

This disclosure has been prepared in accordance with the SEC's pay versus performance rules in Item 402(v) of Regulation S-K under the 1934 Act ("Item 402(v)") and does not necessarily reflect value actually realized by the NEOs or how the Compensation Committee evaluates compensation decisions in light of Company or individual performance. BOARD AND CORPORATE GOVERNANCE PRACTICES

We believe that effective corporate governance policies and practices help the Company deliver sustainable, long-term value to our stockholders.

These policies and practices are contained in our governance documents, including our Certificate of Incorporation, Amended and Restated Bylaws (the “Bylaws”), Corporate Governance Guidelines and committee charters. This section describes the key features of the Board practices and corporate governance program.

Board Leadership Structure

The Board is currently composed of ten directors. Our Certificate of Incorporation provides for a classified board of directors, with members of each class serving staggered three-year terms. Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of one-third of the directors. We currently have three directors in Class I, three directors in Class II and four directors in Class III. The terms of directors in Classes I, II, and III end at the annual meetings of stockholders in 2025, 2023, and 2024, respectively. The Board is led by our non-executive Chairperson, R. Davis Noell. At this time, the Board believes the classified board structure is in the best interest of the Company. The Board has implemented measures to ensure accountability of our directors, including the adoption of our Code of Ethics. Additionally, to enhance accountability, the Board has pledged to sunset provisions in our Certificate of Incorporation and Bylaws requiring a classified board and certain supermajority voting features within the next five years.

With respect to the roles of Chairperson of the Board and Chief Executive Officer, our Corporate Governance Guidelines provide that the roles may be separated or combined, and our Board is able to exercise its discretion in combining or separating these positions as it deems appropriate. Our Corporate Governance Guidelines provide our Board with flexibility to modify our leadership structure in order to serve the best interests of the Company. Our Corporate Governance Guidelines provide that if the Board decides to combine the roles of Chairperson and Chief Executive Officer, a lead director will be appointed annually by the independent directors. The Board will continue to review its leadership structure to evaluate whether the structure remains appropriate for the Company.

In connection with our IPO, we and the Providence Investor entered into a stockholder’s agreement (the “Stockholder’s Agreement”) pursuant to which, among other matters, the Providence Investor has the right to designate nominees for the Board (the “Providence Designees”), subject to the maintenance of specified ownership requirements. See “Certain Relationships and Related Party Transactions—Relationship with Providence—Stockholder’s Agreement.”

The number of members on the Board may be fixed by resolution adopted from time to time by the Board. Subject to the Stockholder’s Agreement, any vacancies or newly created directorships may be filled only by the affirmative vote of a majority of directors then in office, even if less than a quorum, or by a sole remaining director. Each director shall hold office until his or her successor has been elected and qualified, or until his or her earlier death, resignation or removal. With respect to any vacancy of a Providence Designee, the Providence Investor will have the right to designate a new director for election by a majority of the remaining directors then in office.

Board Composition

Set forth below is biographical information as well as background information relating to each nominee's and continuing director's business experience, qualifications, attributes and skills and why the Board and Nominating and Governance Committee believe each individual is a valuable member of the Board. The persons who have been nominated for election and are to be voted upon at the Annual Meeting are listed first, with continuing directors following thereafter. The Nominating and Governance Committee will consider candidates recommended by stockholders.

Director Independence

As required by NYSE rules, the Board considers annually whether each of its members is "independent" for purposes of NYSE rules. Those rules provide that a director is "independent" if the Board determines that the director does not have any direct or indirect material relationship with the Company.

The Board has affirmatively determined, after considering all of the relevant facts and circumstances, that Laura B. Desmond, Rosie Perez, Teri L. List, Kelli Turner, Scott Wagner and Sundeep Jain are "independent" as defined under NYSE rules, and that Teri L. List, Rosie Perez and Kelli Turner are "independent" as defined under Rule 10A-3 under the Exchange Act. This determination was based, in part, on detailed information provided by each director regarding his or her business and professional relationships, and those of his or her family members, with the Company and those entities with which we have significant business or financial interactions. As of the date of this Proxy Statement, each of the Audit Committee, Compensation Committee and Nominating and Governance Committee are entirely composed of independent directors.

Board Meetings and Attendance at the Annual Meeting

The Board held four meetings during the year ended December 31, 2022. Each of our current directors attended at least 75% of the total number of meetings of the Board and any committees of which such director was a member. Currently, we do not maintain a formal policy regarding director attendance at the Annual Meeting; however, directors are encouraged to attend our annual meetings of stockholders.

Executive sessions, which are meetings of the non-management members of the Board, are regularly held. In addition, at least once a year, the independent directors are afforded the opportunity to meet in a private session that excludes management and non-independent directors. At each of these meetings, the non-management and independent directors in attendance, as applicable, will determine which member will preside at such session. Committees of the Board, as described more fully below, also meet periodically in executive sessions.

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines to address significant corporate governance issues. A copy of these guidelines is available without charge at <https://ir.doubleverify.com/corporate-governance/governance-documents>. These guidelines provide a framework for our corporate governance initiatives and cover topics including, but not limited to, director qualification and responsibilities, board composition, director compensation, and management and succession planning. The Board and Nominating and Governance Committee are responsible for overseeing and reviewing the guidelines and reporting and recommending to the Board any changes to the guidelines.

Code of Business Conduct, Code of Ethics and Anti-Human Trafficking and Anti-Modern Slavery Code of Conduct

We have a Code of Business Conduct and Code of Ethics that apply to all of our officers, employees, and directors. The Code of Business Conduct and the Code of Ethics address matters such as conflicts of interest, confidentiality, business practices, and compliance with laws and regulations. The Code of Business Conduct and the Code of Ethics are available without charge at <https://ir.doubleverify.com/corporate-governance/governance-documents>. DoubleVerify and all its employees believe that human trafficking and modern slavery have no place in our society. DoubleVerify expressly prohibits the use of involuntary labor, internally, as it relates to our workforce or externally, within our supply chain. The prohibition is explicitly stated in our Code of Conduct. More information on our Anti-Human Trafficking and Anti-Modern Slavery Code of Conduct can be found at doubleverify.com.

Hedging and Pledging Policies

Our Policy on Trading in Securities requires all directors, officers and employees of the Company, and their immediate family members and other persons living in their households ("Company Associates"), to consult the Chief Legal Officer prior to engaging in any hedging or pledging transactions involving the Company's securities. Any request for pre-clearance of a hedging or similar arrangement must be submitted to the Chief Legal Officer at least thirty days before the proposed execution of documents evidencing the proposed transaction. The Chief Legal Officer will then determine whether the transaction may proceed and, if so, assist in complying with the SEC's reporting requirements. Any Company Associate proposing to pledge the Company's securities as collateral for a loan must submit a request for pre-clearance to the Chief Legal Officer at least two weeks prior to the proposed execution of documents evidencing the proposed pledge. The Chief Legal Officer will then determine whether the transaction may proceed. Our Policy on Trading in Securities prohibits Company Associates from engaging in short sales and transactions in puts, calls or other derivative securities (whether on an exchange or in any other organized market) with respect to the Company's securities.

Our Audit Committee is responsible, among its other duties and responsibilities, for overseeing our accounting and financial reporting processes, the audits of our financial statements, the qualifications and independence of our independent registered public accounting firm, the effectiveness of our internal control over financial reporting and the performance of our internal audit function and independent registered public accounting firm. Our Audit Committee is responsible for reviewing and assessing the qualitative aspects of our financial reporting, our processes to manage business and financial risks, and our compliance with significant applicable legal, ethical and regulatory requirements. Our Audit Committee is directly responsible for the appointment, compensation, retention and oversight of our independent registered public accounting firm. The charter of our Audit Committee is available without charge at <https://ir.doubleverify.com/corporate-governance/governance-documents>.

The members of our Audit Committee are Teri L. List (Chairperson), Rosie Perez and Kelli Turner. The Board has designated each of Teri L. List, Rosie Perez and Kelli Turner as an “audit committee financial expert,” and each of the members has been determined to be “financially literate” under the NYSE rules. The Board has also determined that Teri L. List, Rosie Perez and Kelli Turner are “independent” as defined under the NYSE and Exchange Act rules and regulations. The Board has also determined that the simultaneous service of Teri L. List on more than three public company audit committees does not impair her ability to effectively serve on the Audit Committee.

Compensation Committee

Our Compensation Committee is responsible, among its other duties and responsibilities, for reviewing and approving all forms of compensation to be provided to, and employment agreements with, the executive officers and directors of our company and its subsidiaries (including the Chief Executive Officer), establishing the general compensation policies of our company and its subsidiaries and reviewing, approving and overseeing the administration of the equity compensation plans of our company and its subsidiaries.

Our Nominating and Governance Committee is responsible, among its other duties and responsibilities, for identifying and recommending candidates to the Board for election to the Board, reviewing the composition of the Board and its committees, developing and recommending to the Board corporate governance guidelines that are applicable to us, and overseeing Board evaluations. The charter of our Nominating and Governance Committee is available without charge at <https://ir.doubleverify.com/corporate-governance/governance-documents>.

The members of our Nominating and Governance Committee are Laura B. Desmond (Chairperson), Teri L. List and Scott Wagner.

Compensation Committee Interlocks and Insider Participation

During 2022, none of our executive officers served as a director or as a member of the compensation committee of a company that had an executive officer serve as a director or as a member of our Compensation Committee.

Selection of Nominees for Election to the Board

Our Corporate Governance Guidelines provide that, subject to the requirements of the Stockholder’s Agreement, the Board will select new director candidates based on the recommendations of the Nominating and Governance Committee. The Nominating and Governance Committee will identify and recommend to the Board candidates who the Nominating and Governance Committee believes are qualified and suitable to become members of the Board consistent with the criteria for selection of new directors adopted from time to time by the Board. Our Board believes that it should be a diverse body and seeks to promote board membership that reflects diversity, factoring in gender, race, ethnicity, differences in professional background, education, skill, experience, and other individual qualities and attributes that contribute to the total mix of viewpoints and experience. Our Nominating and Governance Committee considers a broad range of backgrounds and experiences and the Board’s current composition and needs, including any requirements of independence, as well as the skills, judgment and diversity of experience of candidates, expertise, diversity, and considers the general qualifications of the potential nominees, such as strong values and discipline, high ethical standards, a commitment to full participation on the Board and its committees, and relevant career experience, along with other skills and characteristics that meet the current needs of the Board. The Board will consider the following criteria for director qualification: (i) the nominee’s independence, judgment, strength of character, ethics and integrity; (ii) the nominee’s business or other relevant experience and skills and knowledge useful to the oversight of the Company’s business; (iii) the Company’s commitment to diversity; and (iv) whether a nominee has sufficient time to carry out the responsibilities of a director.

In identifying candidates for election to the Board, the Nominating and Governance Committee may consider nominees recommended by directors, stockholders, and other sources. The Nominating and Governance Committee reviews each candidate’s qualifications, including whether a candidate possesses any of the specific qualities and skills desirable in certain members of the Board. Evaluations of candidates generally involve a review of background materials, internal discussions, and interviews with selected candidates as appropriate. Upon selection of a qualified candidate, the Nominating and Governance Committee would recommend the candidate for consideration by the full Board. The Nominating and Governance Committee may engage consultants or third-party search firms to assist in identifying and evaluating potential nominees.

The Nominating and Governance Committee will consider director candidates proposed by stockholders on the same basis as recommendations from other sources. Any stockholder who wishes to recommend a prospective candidate for the Board for consideration by the Nominating and Governance Committee may do so by submitting the name and qualifications of the prospective

candidate in writing to the following address: DoubleVerify Holdings, Inc., c/o Corporate Secretary, 462 Broadway, New York, New York 10013. Any such submission should also describe the experience, qualifications, attributes and skills that make the prospective candidate a suitable nominee for the Board. Our Bylaws set forth the requirements for direct nomination by a stockholder of persons for election to the Board.

Pursuant to the Stockholder's Agreement, the Providence Investor is currently entitled to nominate (or cause to be nominated) at least 30% of the total number of directors comprising the Board. See "Certain Relationships and Related Party Transactions" for additional information.

Communications with the Board

Any stockholder or interested party who wishes to communicate with the Board as a whole, the independent directors, or any individual member of the Board or any committee of the Board may e-mail or write to the Company at: DoubleVerify Holdings, Inc., c/o Corporate Secretary, 462 Broadway, New York, New York 10013 and corporatesecretary@doubleverify.com.

The Board has designated the Company's Corporate Secretary (the "Secretary") as its agent to receive and review written communications addressed to the Board, any of its committees, or any board member or group of members. The Secretary may communicate with the sender for any clarification. In addition, the Secretary will promptly forward to the Chairperson of the Audit Committee any communication alleging legal, ethical or compliance issues by management or any other matter deemed by the Secretary to be potentially material to the Company. As an initial matter, the Secretary will determine whether the communication is a proper communication for the Board. The Secretary will not forward to the Board, any committee or any director communications of a personal nature or not related to the duties and responsibilities of the Board, including, without limitation, junk mail and mass mailings, business solicitations, routine customer service complaints, new product or service suggestions, political campaign or election materials, opinion survey polls or any other communications deemed by the Secretary to be immaterial to the Company.

Separately, the Company has established a whistleblower policy for the receipt, retention, and treatment of complaints received by the Company regarding suspected violations of our Code of Ethics, policies or the law, including questionable accounting, internal accounting controls or auditing matters, and the confidential, anonymous submission by associates of the Company of concerns regarding such matters.

Risk Oversight

The Board as a whole has responsibility for overseeing our risk management. The Board exercises this oversight responsibility directly and through its committees. The oversight responsibility of the Board and its committees is informed by reports from our management team and from our internal audit department that are designed to provide visibility to the Board about the identification and assessment of key risks and our risk mitigation strategies. The full Board has primary responsibility for evaluating strategic and operational risk management, and succession planning, and reviews our enterprise risk assessment on at least an annual basis. Our Audit Committee has the responsibility for overseeing our major financial and accounting risk exposures and the steps our management has taken to monitor and control these exposures, including policies and procedures for assessing and managing risk, including oversight on compliance related to legal and regulatory exposure and meets regularly with our Chief Legal Officer. Our Audit Committee also reviews and discusses with management the adequacy and effectiveness of the Company's information and technology security policies and the internal controls regarding information and technology security, cybersecurity and privacy related areas. Our Compensation Committee evaluates risks arising from our compensation policies and practices, as more fully described below. The Audit Committee and Compensation Committee provide reports to the full Board regarding these and other matters.

Compensation Risk Assessment

The Compensation Committee assessed our compensation policies and practices to evaluate whether they create risks that are reasonably likely to have a material adverse effect on the Company. Based on its assessment, the Compensation Committee concluded that the Company's compensation policies and practices do not create incentives to take risks that are reasonably likely to have a material adverse effect on the Company. We believe we have allocated our compensation among base salary, short-term incentives and long-term equity in such a way as to not encourage excessive risk taking.

Other Governance Policies

A description of our Compensation "Clawback" and Forfeiture Policy and Stock Ownership Guidelines can be found in the "Compensation Discussion and Analysis" found elsewhere in this Proxy Statement.

Environmental, Social, and Governance

We are committed to conducting our business in a responsible manner and believe that we have an obligation to evaluate environmental, social and governance ("ESG") considerations as we make strategic decisions and understand how those decisions impact our all of our stakeholders, which include our investors, employees, customers, partners and communities. Our Board recognizes the importance of these responsibilities and oversees our initiatives.

We believe that the effective management of ESG issues will help support the sustainability and the long-term growth of our business, and create value for our stakeholders. Our management team is committed to developing and executing our ESG program, and, along with our Board, and Nominating and Governance Committee, internal resources and external consultants, we are developing our ESG strategy and establishing a framework for monitoring our initiatives.

Diversity, Equity, Inclusion and Belonging

We are committed to delivering an exceptional people experience that fosters belonging by cultivating an equitable and intentionally inclusive culture where differences are celebrated; amplifying the voices of underrepresented communities at DV, and empowering each employee to bring their authentic selves to the workplace and to their roles. We believe that a range of viewpoints and experience fuels our innovation and provides a sustainable competitive advantage and the foundation for achieving our mission.

We take action to realize our commitment to DEIB by living our values (Passion, Accountability, Collaboration, Trailblazing), and by embedding DEIB as a core component of our business strategy through the following focus areas:

- creating safe work environments that foster belonging, collaboration, passion, psychological safety and employee well-being;
- building our capabilities to support systemic change internally and externally;
- investing in our people to fuel growth, maximize retention, engender trust and encourage our history of trailblazing and innovation; and
- using data to quantify our progress and hold each other accountable, and enabling sustainable success as we scale.

Environmental Policy

The Company is committed to managing environmental impact as an integral part of our operations. The Company maintains an environmental policy, pursuant to which we strive to, among other things:

- Incorporate environmental concerns and impacts into our decision making and activities.
- Reduce waste by maintaining recycling programs within our physical office locations, where available, including the recycling of paper, cardboard, and other materials that are accepted by a recycling provider.

- Minimize energy and water use within our offices and processes in order to conserve supplies and reduce the consumption of natural resources.
- Promote environmental awareness among our employees.
- Continually improve our environmental performance by periodically reviewing our environmental policy in planning our current and future activities.

The Company believes sustainability is about more than operating responsibly. It is an opportunity to support the environment and our community in efforts to make a positive impact on the world.

Privacy, Security & Data Governance

Trust is foundational to the lasting partnerships we've built with global advertisers, as well as the world's leading programmatic and social platforms, and publishers. It is also the guiding principle DV follows as we develop and expand our privacy, security, risk and data governance programs. The privacy and security landscape of the advertising ecosystem is constantly evolving. That is why we are committed to providing privacy-forward, secure tools designed to promote the success of our customers while upholding the rights of individuals. Our commitment to transparency has enabled us to bolster our reputation of trustworthiness.

DV For Good

Established in 2021, DV For Good is our employee-led initiative focused on our external social impact efforts and corporate giving, concentrated in three pillars that are also core to our company: Equity, Advancement of Truth and Sustainability. The DV For Good team is led by a cross section of DV'ers from varying departments and seniority levels with a mission to identify and support initiatives, organizations and volunteer opportunities that align with our values and the DV For Good pillars.

We are encouraging and empowering our employees to make an impact as active global citizens and ensure that DV is a responsible corporate citizen. In addition to the financial commitments that were made by DV in 2022, we are supporting these initiatives with our technological resources and through our employees volunteering time.

- **Equity:** We believe an equitable society is essential to building a better world and building a better business. We support organizations that align with our vision to build a more equitable and fair ecosystem.
- **Advancement of Truth:** We support the advancement of truth in all forms and believe it is core to our mission as a company. We support forums and organizations that promote the distribution of diverse viewpoints while elevating marginalized voices.
- **Sustainability:** We are driven to reduce our carbon footprint and offset the impact that we have in our communities and on the environment in all that we do.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Policies and Procedures for Related Person Transactions

The Board has approved policies and procedures with respect to the review and approval of certain transactions between us and a “Related Person,” or a “Related Person Transaction,” which we refer to as our “Related Person Transaction Policy.” Pursuant to the terms of the Related Person Transaction Policy, our Board, acting through our Audit Committee, must review and decide whether to approve or ratify any Related Person Transaction. Any Related Person Transaction is required to be reported to our legal department, which will then determine whether it should be submitted to our Audit Committee for consideration. The Audit Committee must then review and decide whether to approve any Related Person Transaction.

For the purposes of the Related Person Transaction Policy, a “Related Person Transaction” is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we (including any of our subsidiaries) were, are or will be a participant and the amount involved exceeds \$120,000, and in which any Related Person had, has or will have a direct or indirect interest.

Relationship with Providence

Stockholder's Agreement

In connection with our IPO, we entered into the Stockholder's Agreement with the Providence Investor. The Stockholder's Agreement governs the relationship between Providence and us, including matters related to our corporate governance, such as Board nomination rights and information rights. The Stockholder's Agreement grants Providence the right to designate for nomination for election a number of Providence Designees equal to: (i) at least a majority of the total number of directors comprising the Board at such time as long as Providence owns at least 50% of the outstanding Shares; (ii) at least 40% of the total number of directors comprising the Board at such time as long as Providence owns at least 40% but less than 50% of the outstanding Shares; (iii) at least 30% of the total number of directors comprising the Board at such time as long as Providence owns at least 30% but less than 40% of the outstanding Shares; (iv) at least 20% of the total number of directors comprising the Board at such time as long as Providence owns at least 20% but less than 30% of the outstanding Shares; and (v) at least 5% of the total number of directors comprising the Board at such time as long as Providence owns at least 5% but less than 20% of the outstanding Shares. For purposes of calculating the number of Providence Designees that Providence is entitled to nominate pursuant to the formula outlined above, any fractional amounts will be rounded to the nearest whole number (but not below one so long as Providence owns at least 5% of the outstanding Shares) and the calculation will be made on a pro forma basis after taking into account any increase in the size of the Board.

Pre-IPO Stockholders Agreement

Prior to our IPO, we were party to an amended and restated stockholders agreement, dated as of November 18, 2020, with the Providence Investor and certain other existing stockholders of the Company

(the “Pre-IPO Stockholders Agreement”). The Pre-IPO Stockholders Agreement contained restrictions on the ability of the parties thereto to freely transfer Shares. The parties thereto also agreed to vote their Shares on certain matters presented to the stockholders, including in favor of all directors nominated by the Board for election. In addition, the Providence Investor was entitled under the Pre-IPO Stockholders Agreement to nominate for election, fill vacancies and appoint at least six of the then eight members of the Board, any of which could in the Providence Investor’s discretion be an independent director. The Providence Investor also had discretion to adjust the number of directors on the Board, as well as certain consent rights. The Pre-IPO Stockholders Agreement granted the parties thereto piggyback registration rights in connection with a registered offering of Shares in which the Providence Investor participated (including the IPO). The Pre-IPO Stockholders Agreement automatically terminated on the date the SEC declared effective the IPO registration statement and was replaced by the Stockholder’s Agreement.

Registration Rights Agreement

In connection with our IPO, we entered into a registration rights agreement with the Providence Investor and certain of our other existing stockholders (the “Registration Rights Agreement”). The Registration Rights Agreement grants to Providence and its permitted assigns, customary demand registration rights and piggyback registration rights, and to such other existing stockholders and their permitted assigns, customary piggyback registration rights, in each case subject to customary terms and conditions.

Relationships with Directors and Executive Officers

Director Indemnification Agreements

In connection with our IPO, we entered into the Registration Rights Agreement. Mark Zagorski, Nicola Allais, The McLaughlin Family Trust (for which Matthew McLaughlin is a trustee), Andy Grimmig, the Laura B. Desmond Revocable Trust (for which Laura B. Desmond is trustee) and Teri L. List are parties to the Registration Rights Agreement. Each of Mr. Zagorski, Mr. Allais, Mr. McLaughlin, Mr. Grimmig, Ms. Desmond and Ms. List is a director and/or executive officer of the Company. See “— Relationship with Providence—Registration Rights Agreement.”

Registration Rights Agreement

In connection with our IPO, Blumberg Capital, affiliates of Tiger Global Management, LLC and certain other of our pre-IPO stockholders became parties to the Registration Rights Agreement. See “—Relationship with Providence—Registration Rights Agreement.”

Underwriting Agreements

On November 10, 2022, we entered into an Underwriting Agreement with Goldman Sachs & Co. LLC, as underwriter, the Providence Investor and certain affiliates of Providence (the “2022 Selling Stockholders”) relating to the sale by the 2022 Selling Stockholders of 11,500,000 Shares in a secondary public offering. If you execute, date and deliver a proxy card but do not specify how your Shares are to be voted, the proxies will vote as recommended by the Board on all matters on the agenda for the Annual Meeting (see "Proposals for Your Vote") and will use their discretion with respect to any other matters properly presented for a vote at the Annual Meeting or any postponement or adjournment thereof.

Holders in Street Name

If your Shares are held in an account at a brokerage firm, bank, broker-dealer or other similar organization, then you are a holder of Shares in "street name". The organization holding your account will

have provided you with proxy materials. As the beneficial owner, you have the right to direct the organization how to vote the Shares held in your account. If you want to vote in person at the Annual Meeting, you must obtain a legal proxy from your broker, bank or other intermediary and present it at the meeting, and submit it with your vote.

If you are a holder of Shares in street name and you do not submit voting instructions to your broker, bank or other intermediary, the intermediary generally may vote your Shares in its discretion only on routine matters. Intermediaries do not have discretion to vote their clients' Shares on non-routine matters in the absence of voting instructions from the beneficial stockholder. A broker non-vote occurs when a broker or nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the broker or nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

At the Annual Meeting, only Proposal 3 (ratification of appointment of the independent auditor) is considered routine and may be voted upon by the intermediary if you do not submit voting instructions. As a result, if your Shares are held in street name and you do not give your bank or broker instructions on how to vote on Proposal 3, your Shares will be voted by the broker in its discretion. All other proposals on the Agenda for the Annual Meeting are non-routine matters, and intermediaries may not use their discretion to vote on these proposals in the absence of voting instructions from you. Your broker will therefore not have discretion to vote on the "non-routine" matters set forth in Proposal 1 or Proposal 2 absent direction from you. Broker non-votes will not have an effect on the outcome of Proposal 1 or Proposal 2.

Changing Your Vote or Revoking Your Proxy

If you are a holder of record and wish to revoke your proxy instructions, you must either (1) subsequently submit a proxy via the Internet or by telephone, which will be available until 11:59 p.m., Eastern Time, May 31, 2023; (2) sign, date and deliver a later-dated proxy card so that it is received before the Annual Meeting; (3) submit a written revocation; or (4) send a notice of revocation via the Internet at www.proxyvote.com. If you hold your Shares in street name, you must follow the instructions of your broker, bank or other intermediary to revoke your voting instructions.

Vote Required for Each Proposal

Proposal 1—Election of Directors

Board Recommendation: FOR each of the Company's nominees.

Vote Required: Affirmative vote of at least a plurality in voting power of the Shares outstanding present in person or represented by proxy at the Annual Meeting and entitled to vote on the subject matter. In accordance with our Bylaws, stockholders do not have the right to cumulate their votes for the election of directors.

Effect of Abstentions: No effect.

Effect of Broker Non-Votes: No effect.

Proposal 2—Advisory Vote on the Frequency of Future Stockholder Advisory Votes on the Compensation of our Named Executive Officers

Board Recommendation: ONE YEAR

Vote Required: Affirmative vote of a majority in voting power of the Shares outstanding present in person or represented by proxy at the Annual Meeting and entitled to vote on the subject matter.

Effect of Abstentions: Same effect as a vote AGAINST the proposal.

Effect of Broker Non-Votes: No effect.

Because this proposal is an advisory vote, the result will not be binding on our Board or Company. Our Board and Compensation Committee will consider the outcome of the vote when determining how often we should submit to our stockholders an advisory vote to approve the compensation of our NEOs.

Proposal 3—Ratification of Appointment of Independent Registered Public Accounting Firm

Board Recommendation: FOR

Vote Required: Affirmative vote of a majority in voting power of the Shares outstanding present in person or represented by proxy at the Annual Meeting and entitled to vote on the subject matter.

Effect of Abstentions: Same effect as a vote AGAINST the proposal.

Effect of Broker Non-Votes: There will be no broker non-votes associated with this proposal, as the ratification of our independent registered public accounting firm is a routine matter. As a result, if your Shares are held in “street name” and you do not give your bank or broker instructions on how to vote, your Shares will be voted by the broker in its discretion.

Matters to be Presented

We are not aware of any matters to be presented at the Annual Meeting other than those described in this Proxy Statement. If any matters not described in this Proxy Statement are properly presented at the meeting, unless otherwise provided, the proxies will use their own judgment to vote your Shares. If the meeting is adjourned or postponed, the proxies can vote your Shares at the adjournment or postponement as well.

Delivery of Proxy Materials

Notice and Access

We are using “notice and access” procedures to distribute our proxy materials to our stockholders. This method reduces the amount of paper used in producing proxy materials and lowers the costs associated with mailing the proxy materials to stockholders. We are mailing a Notice of Internet Availability of Proxy Materials to stockholders. The Notice includes instructions on how to access the materials over the Internet and how to request a paper or e-mail copy. The Notice further provides instructions on how stockholders may elect to receive proxy materials in the future in printed form or by electronic mail. To select a method of delivery while voting is open, holders of record may follow the instructions when voting online at www.proxyvote.com. At any time, you may also choose your method of delivery of the Company’s proxy materials by visiting www.proxyvote.com. If you own Shares indirectly through a broker, bank or other intermediary, please contact the intermediary for additional information regarding delivery options.

Holders of record will have the Notice or proxy materials delivered directly to your mailing address or electronically if you have previously consented to that delivery method.

Holders of Shares in street name will have the proxy materials or the Notice forwarded to you by the intermediary that holds the Shares.

Eliminating Duplicative Proxy Materials

Some brokers or other nominee record holders may only deliver one set of proxy materials to multiple stockholders who share an address (known as “householding”). All stockholders sharing an address will receive in a single envelope a single Proxy Statement and the Annual Report, along with individual proxy cards or individual Notices for each stockholder. If you are a stockholder who shares an address and last name with one or more other stockholders and would like to revoke your householding consent or you are a stockholder eligible for householding and would like to participate in householding, please contact American Stock Transfer & Trust Company by mail at Operations Center, 6201 15th Avenue, Brooklyn, NY 11219-9821 or by telephone at 1-800-937-5449. You will be removed from the householding program within 30 days of receipt of the revocation of your consent. Additional copies of our proxy materials are available upon request by contacting: American Stock Transfer & Trust Company by mail at Operations Center, 6201 15th Avenue, Brooklyn, NY 11219-9821 or by telephone at 1-800-937-5449.

Proxy Solicitation Costs

The Board is responsible for the solicitation of proxies for the Annual Meeting. American Stock Transfer & Trust Company, LLC will assist us in the distribution of proxy materials and provide voting and tabulation services for the Annual Meeting. All costs of the solicitation of proxies will be borne by us. We pay for the cost of proxy preparation and solicitation, including the reasonable charges and expenses of brokerage firms, banks, trusts or nominees for forwarding proxy materials to street name holders. We are soliciting proxies primarily by mail. In addition, our directors, officers and employees may solicit proxies by telephone or other means of communication personally. Our directors, officers and employees will receive no additional compensation for these services other than their regular compensation.

Vote Tabulation

Votes will be tabulated by American Stock Transfer & Trust Company, LLC.

Inspector of Election

The Board has appointed a representative of American Stock Transfer & Trust Company, LLC as Inspector of Election for the Annual Meeting.

Results of the Vote

We expect to announce preliminary voting results at the Annual Meeting and publish preliminary or final voting results in a Form 8-K within four business days following the meeting. If only preliminary voting results are available for reporting in the Form 8-K, the Company will amend the Form 8-K to report final voting results within four business days after the final voting results are known.
