Forward Looking Statements Disclosure

Today's presentation and discussion will contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "expects," "anticipates," "intends," "estimates," or similar expressions are intended to identify these forward-looking statements. These statements, which include statements regarding our ability to leverage our strong demand execution capabilities across all business segments; our growth opportunities and strategies for each of our business segments and potential positive impact to our financial and operational results; the opportunity to expand our business through acquisitions; the potential to grow our national footprint and customer base (including to 3PLs and international freight forwarders); the impact of our IT initiatives including business intelligence tools such as data-driven pricing and improved operating systems; positive effects of safety, sustainability and community initiatives; expected capital allocation activities including expectations relating to capital expenditures, dividends, share repurchases and leverage; and medium-term revenue, EBIT and ROIC goals are based on Forward Air's current plans and expectations and involve risks and uncertainties that could cause future activities and results of operations to be materially different from those set forth in the forward-looking statements. For further information, please refer to Forward Air's reports and filings with the Securities and Exchange Commission.

To supplement the financial measures prepared in accordance with generally accepted accounting principles in the United States ("GAAP"), we have included the following non-GAAP financial information in this presentation: adjusted revenue, EBITDA, adjusted EBITDA, adjusted EBITDA margin, adjusted operating income, adjusted operating margin, adjusted income taxes, adjusted net income, adjusted EPS and free cash flow. The reconciliations of these non-GAAP measures to the most directly comparable financial measures calculated and presented in accordance with GAAP can be found in the Appendix to this presentation. Because these non-GAAP financial measures exclude certain items as described herein, they may not be indicative of the results that the Company expects to recognize for future periods. As a result, these non-GAAP financial measures should be considered in addition to, and not a substitute for, financial information prepared in accordance with GAAP.

> Expedited LTL: 50.2M lbs/week

Grounding Air Freight

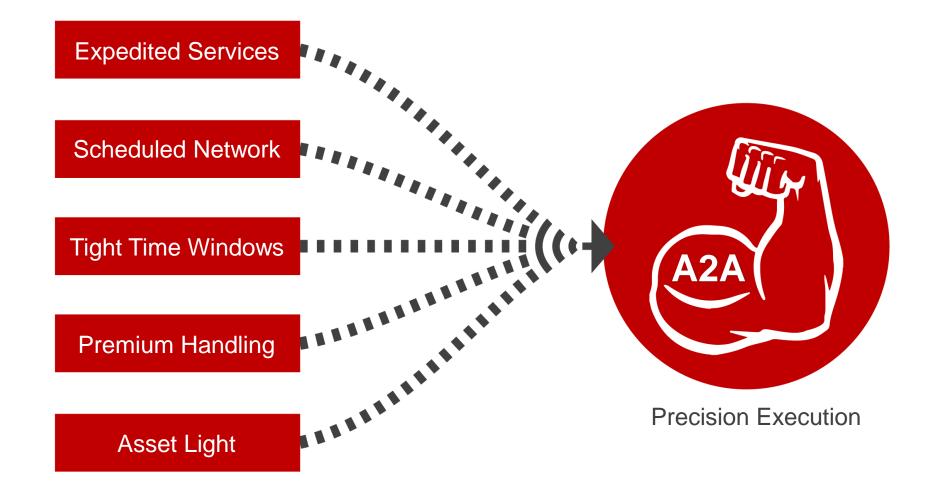

Simple Concept: Grounding an Airline Freight Move

Precision Execution

38 Years of A2A Experience Trained Our Precision Execution "Muscle"

Muscle Development

Training, Developing and Building Customer Trust in Our Precision Execution

Trained our precision execution muscle for over 30 years doing what we do best over a million times

Think Malcolm Gladwell's 10,000 hours of practice rule

"The 10,000 hours rule says that if you look at any kind of cognitively complex field, from playing chess to being a neurosurgeon, we see this incredibly consistent pattern that you cannot be good at that unless you practice for 10,000 hours." – Malcom Gladwell

 Stretching a muscle leads to increased muscle control, flexibility and range of motion

Stretch

Trust

Train

For us, this reflects stretching LTL beyond A2A and into PUD. Then stretching that same precision execution muscle into Final Mile, Premium Intermodal Drayage, aggregation into Truckload and scheduled mall deliveries

Trust is a muscle too, and it's a muscle that can only be strengthened through exercising it

Customers start to trust in our muscle, and the reliability of our operations

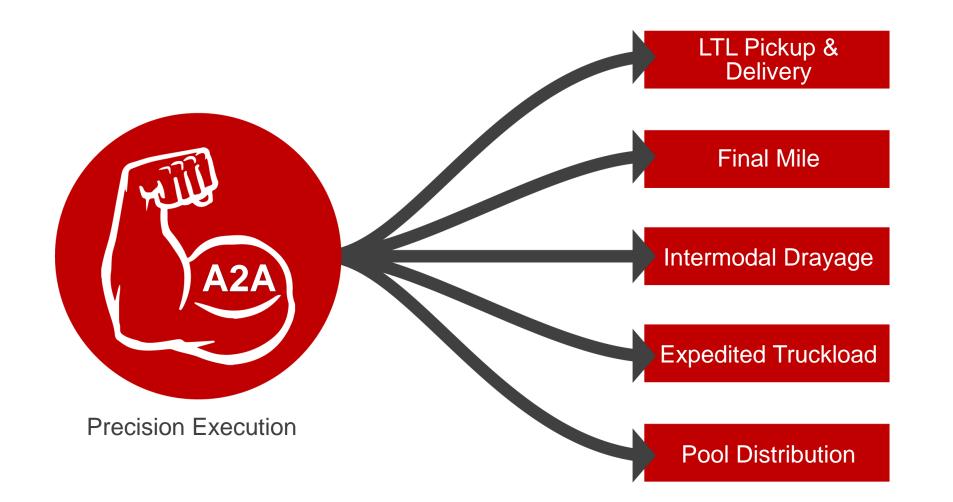

FAR STRETCH

Our customers can focus on whatever is important for them.

You do what you do best. We've got you covered.

Cash Flow

Strong Free Cash Flow and Conversion

- High cash flow business model
 - Operating leverage without capital expenditure intensity

> 5-year average free cash flow conversion of 102%

- Swings driven primarily by working capital from acquired companies
- Expect free cash flow to approximate net income over the medium term

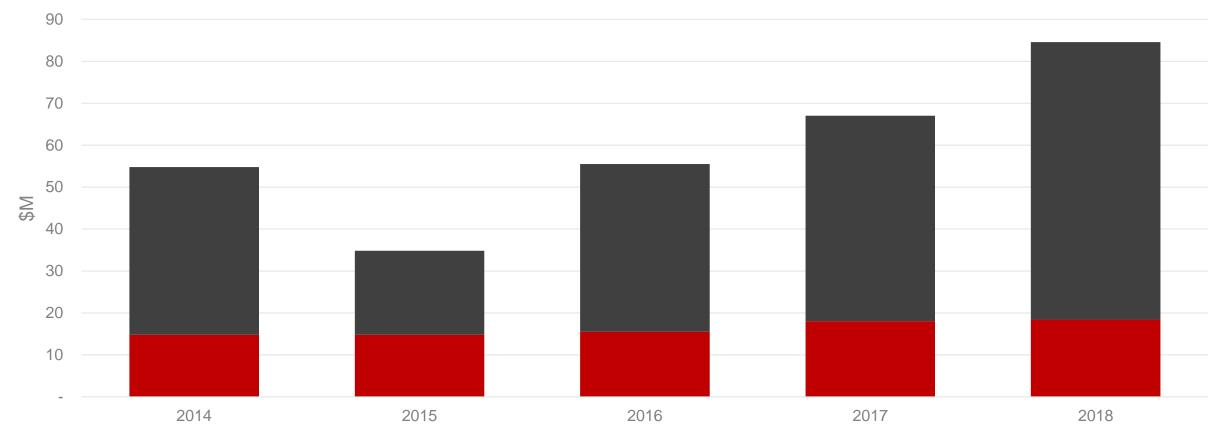

Note: FCF Conversion defined as Free Cash Flow (Operating Cash Flow less Net Capital Expenditures) divided by Net Income (non-GAAP) See reconciliation of Free Cash Flow (non-GAAP) to Operating Cash Flow (GAAP) in the Appendix

Capital Allocation

Disciplined Capital Allocation to Support Growth and Deliver Shareholder Returns

(\$M)	Past 5 Years	Outlook
Capital Expenditures	188	Expect annual net capital expenditures to remain consistent (adjusted for inflation)
Dividends	82	Expect dividends to rise with increased earnings; prefer ~1.0% dividend yield
M&A	207	Expect M&A will continue to play a key role in our growth strategy
Share Repurchase	215	Expect share repurchases to remain the outlet for excess free cash flow
Total	692	
Peak Leverage		Expect leverage to rise to ~1.0x EBITDA; source of "dry powder" for M&A / share repurchase during declines in the freight cycle

Medium Term
